Please Read Before Ordering

DELIVERY OF SEEDS

SHIPPING CHARGES

We pay transportation charges in the U.S.A. on all vegetable and flower seeds except Beans, Peas and Sweet Corn. Shipment is made by the most economical method, usually mail or freight. If you specify express where we would ordinarily ship by freight, your order will be sent express collect and the freight rate refunded.

Beans, Peas and Sweet Corn are shipped at your expense, except when your seed order amounts to \$20.00 or more (not including Farm Seeds, Accessories, etc.). We will then prepay or refund the freight charges.

Field and Grass Seed, Potatoes, Onion Sets, Plants, Roots, Accessories, etc. are shipped at your expense (except where quoted Postpaid). Specify parcel post, express, freight or truck. Shipping weights are given on these items for your guidance.

METHOD OF SHIPMENT

PARCEL POST Usually the most economical for shipments up to 55 lbs. Ask your post office for rates and include postage with your remittance for *not prepaid* items.

EXPRESS Fast service but the most expensive method. Sent *collect* (see above). *Be sure to give nearest express office.*

FREIGHT Economical for most large shipments, but often slow. Allow extra time for your order to reach you. Give nearest freight office and railroad.

TRUCK Generally quicker than freight at about the same cost, but service not available to all sections. No C.O.D. shipments by this method.

PLEASE ORDER EARLY

While we can give your orders prompt service here, we suggest you allow for possible delay in shipping next spring.

PLEASE NOTE: All prices here quoted are subject to change without notice and to our stocks being unsold. For prices of seed in quantities less than listed here, please refer to our general catalog, issued in January. It also contains more complete descriptions of varieties listed here. Your copy will be mailed to you as soon as issued.

TERMS AND DISCOUNTS

Cash Discount 3%

Our regular terms are cash with order for which we allow a discount of 3% on vegetable and flower seeds only. No discount on Plants, Roots, Onion Sets, Potatoes, Field or Grass Seeds, Accessories, etc. All these items are strictly net cash with order.

C.O.D. SHIPMENTS. Not recommended because of extra C.O.D. fees and frequent delays in delivery. 25% cash down payment must be sent with order and cash discount is not allowed on C.O.D. orders. No C.O.D.'s accepted for plants, roots, potatoes, onion sets, nursery stock, Hotents, Super Hotents and Fertile Pots.

TIME PAYMENTS

If you wish to open an account with us, send name of your bank and at least two business references. To customers of established credit we offer these terms:

Market Gardeners' Terms. All bills due and payable *net* August 1. (For goods shipped after that date, due Dec. 1st.)

Florists' Terms. Due *net* June 1st. (On goods shipped after that date, Dec. 1st.)

Note: Field and Grass Seed, Potatoes, etc. are strictly net cash with order and may not be charged.

CONDITIONS OF SALE

Every lot of seed we sell is thoroughly tested, of good vitality and the percentage of germination is marked on every package. Since we use actual soil tests as well as germinators, the results can be used with confidence as a guide to planting.

We assume responsibility of the seeds, plants and bulbs reaching the purchaser in good condition. However, in common with all responsible seedsmen, we give no warranty, express or implied, as to the productiveness of any seeds, plants or bulbs we sell, and we will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seed.

HARRIS SEEDS

1951 PRICE LIST FOR MARKET GARDENERS, FLORISTS

New Varieties of Special Interest

On the cover of this catalog we illustrate four brand new vegetable varieties, selected as the most important for market growers from among hundreds we test every year.

Crosby Green Top Beet is our own development, selected out of our famous Crosby Special. It holds its bright green color in cool weather and the roots are good too.

Snowball Imperial Cauliflower, a Harris' introduction, is a highly refined, uniform early type that seems outstanding in the Northeast, and promising in other sections.

In addition to these varieties, we have a new strain of Asparagus, the first good Hybrid Onion, and two new kinds of cabbage. Together with Harris' exclusive varieties, like North Star Corn and our special strains of many vegetables, we feel we can supply better seeds than ever before. But please order early—supplies are limited, especially of the new items, and transportation may be slow next spring. We are looking forward to serving you.

ASPARAGUS

208 WASHINGTON 500. New Improved Strain.

A superior new kind of asparagus—earlier, larger and more uniform than the regular Mary Washington. Its heads are tighter, and the whole length of the stalk is green without purple overcast. The first real improvement in asparagus in many years. Oz. 50c; 1/4 lb. \$1.45; 1b. \$4.75; 10 lb. \$45.00.

(For asparagus roots see page 35)

BEANS

One pound of beans will plant 150 ft. of row. 60 to 75 lbs. per acre.

TOPCROP—Best early round green bean.

18 Bountiful

Earliness and dependability make Bountiful the most widely grown flat green bean in all sections. It matures several days ahead of most other varieties and the pods have a handsome appearance—light green, straight, flat and entirely stringless.

You can depend on heavy yields of attractive beans from our stock, which is outstanding for vigor and trueness. The robust vines are upright in growth and produce well under a wide range of conditions. See prices on next page.

22 Contender (New)

Sensational! (See Photo on Back Cover)

For market and shipping, Contender is just what growers have been looking for in oval beans. The pods are extra long (5½ to 7 in.) meaty, slightly curved, and exceptionally smooth and attractive. They are oval in cross section but so thick-fleshed they sometimes appear nearly round. The quality is good and they hold up well.

Crops of this bean give amazing yields of long smooth pods. It is vigorous, mosaic resistant, and ripens early—slightly ahead of Stringless Black Valentine. Altogether a most remarkable new variety, developed by the late Dr. B. L. Wade. See prices on next page.

84 Topcrop (New)

Heavy Early Yields—Mosaic Resistant

In its first year Topcrop has proved to be by far the finest of the new green beans. Its earliness, vigor and prolific crops have won it quick popularity with the best bean growers.

An All-America Gold Medal winner, Topcrop produces astonishing yields. When planted early, it will ripen almost as soon as Bountiful and nearly the whole crop can be picked at one time. The straight plump pods are of good length (5½-6 in.), medium green, stringless and of fine quality. They are best if grown on good fertile soil and picked young. Topcrop is resistant to common bean mosaic, and has a concentrated set of pods for easy picking. Developed by Dr. W. J. Zaumeyer of the U.S.D.A. See prices on next page.

BEANS—Continued on Next Page

80 Stringless Black Valentine*Attractive and Dependable*

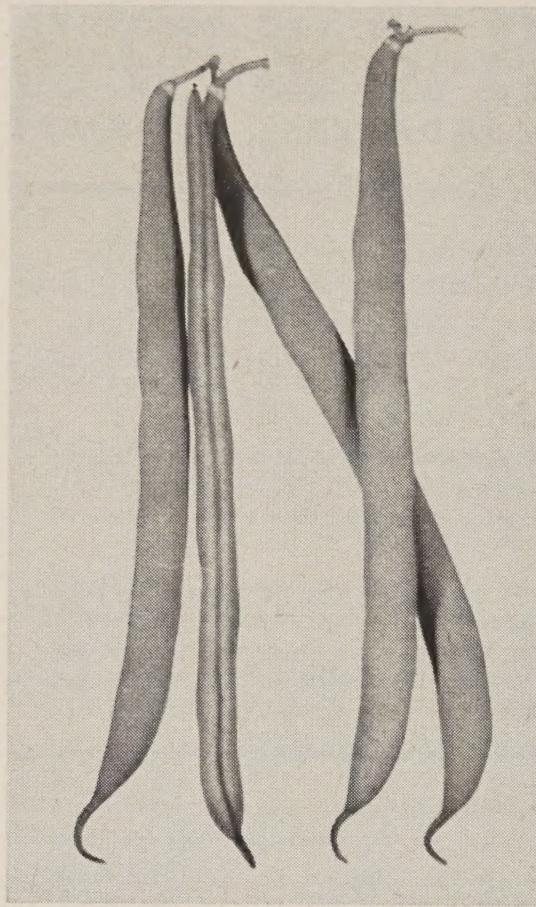

For market and shipping, our strain of this popular bean has proved its worth. The pods are of attractive long slim oval shape, dark green and of fine quality, and they hold up well for shipping long distances.

Noted for its ability to produce early crops and heavy yields, this dependable bean is a real money maker for market growers. We are proud to offer the finest Idaho grown seed of the true slender type. See prices below.

83 Tenderlong 15*Mosaic-Tolerant Tendergreen Type*

Growers who like the uniformity, fine appearance and excellent quality of the old Tendergreen should grow this improved strain, which shows considerable mosaic resistance. The pods average about 6 inches long, are more uniform in length than Long Tendergreen and hold their slenderness better than Topcrop.

Heavy yields are produced on the large, vigorous and spreading vines. The pods are smooth, round, straight and of fine color, and they ripen about in season with Long Tendergreen. Their quality is excellent, entirely stringless and without fiber. See prices below.

STRINGLESS BLACK VALENTINE

50 Long Tendergreen*Extra Length and Fine Quality*

One of the best of the modern high quality beans, Long Tendergreen (also known as "Longreen") is still a favorite on markets that require round podded beans. The pods are straight and very thick-meated and are often over seven inches long. Its quality is always excellent. With its vigorous and healthy growth, it will produce large crops. See prices below.

28 French Horticultural*Harris' Special Strain*

Developed and grown entirely by us, this has long been regarded as a leading strain. The pods of this outstanding shell bean are long and uniform with superb scarlet coloring and exceptionally heavy yields. Particular growers find Harris' Special Strain fully equal to the finest of the jealously guarded "private stocks." See prices below.

GREEN-PODDED BUSH BEANS

25 lbs. or more of one variety of beans will be supplied at 100 lb. price. A bushel weighs 60 lbs.

	NOT PREPAID* (See below)				
	1 lb.	5 lb.	15 lb.	100 lb.	500 lb.
18 BOUNTIFUL. Selected Stock. See Page 1.....	\$.45	\$ 1.65	\$ 4.50	\$ 27.00	\$ 130.00

*Purchaser pays shipping charges on beans except as follows: If your order for vegetable seeds including beans amounts to \$20.00 or more we will prepay the freight charges. (See also inside front cover.)

TENDERLONG 15
Splendid quality and appearance.

21 Cherokee Wax

The Best Wax Bean for Market.

No variety can rival Cherokee as the best wax bean for market. Its dependability and productiveness have made it without question the growers' favorite.

Even in unfavorable weather, you can expect heavy crops of smooth 5 to 6 in., oval beans, and the husky vines will yield as much as the best green-podded types. Customers are always pleased with its good quality and the handsome, clean look of its pods. See prices below.

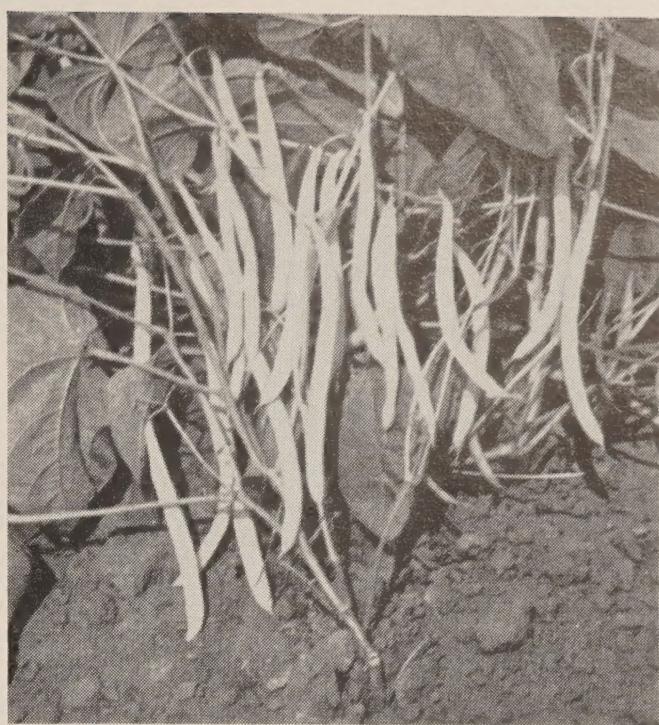

55 Pencil Pod Black Wax

The Finest Round Wax Variety

This is the bean to grow if your trade wants a round podded wax bean. Our stock is especially bred for vigor, high yield and true type, and growers in all sections have been highly pleased with it. The pods are of good length; round and nearly straight with a beautiful clear golden yellow color and very thick meat. They mature early and the quality is very high. See prices below.

CHEROKEE WAX

Beautiful oval pods.

LIMA BEANS

26 Fordhook U.S. 242

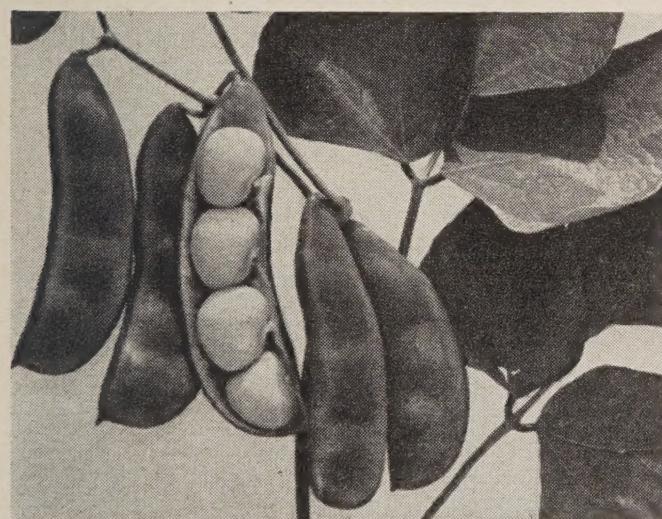

Uniform—Heavy Yielding—Dependable

Fordhook U.S. 242 is unchallenged as the best of the bush limas. It has proved itself more dependable, more productive and more profitable than the old Fordhook, and it consistently sets big crops of fine beans even under adverse conditions, such as hot, dry weather. The large, vigorous plants produce heavy yields from the first picking right through till frost.

The pods are remarkably uniform—every one is good sized, nearly straight and closely filled with 3 or 4 choice, thick beans. The fine shape and size hold up even on the late sets, and the quality is excellent.

Our seed is the finest to be had and has built a reputation for high yield and dependability. See prices below.

	NOT PREPAID* (See page 2)	1 lb.	5 lb.	15 lb.	100 lb.	500 lb.
	\$.45	\$1.80	\$4.95	\$30.00		
23 EARLY MARKET.45	1.80	4.95	30.00	\$145.00	
A flat-seeded type, popular for its earliness, heavy yields and the fine green color of the beans. Long, dark green pods, 4 to 4½ in.						
26 FORDHOOK U.S. 242. Heavy Yields. See above.45	1.80	4.95	30.00	\$145.00	
35 IDEAL or Mammoth Podded POLE LIMA.45	1.80	4.95	30.00		
Pods often 8 in. long, early and prolific. Best large podded Pole Lima.						
86 TRIUMPH. Best of the "Baby Limas".45	1.80	4.95	30.00		
This new small seeded variety is far superior to all other baby limas. Delicious flavor and fine color that holds well for canning or freezing. Developed by the U.S.D.A.						

FORDHOOK U.S. 242—The best bush lima.

25 lbs. or more of one variety will be supplied at the 100 lb. rate. A bushel weighs 60 lbs.

	NOT PREPAID* (See page 2)	1 lb.	5 lb.	15 lb.	100 lb.	500 lb.
	\$.45	\$1.80	\$4.95	\$30.00		
23 EARLY MARKET.45	1.80	4.95	30.00	\$145.00	
A flat-seeded type, popular for its earliness, heavy yields and the fine green color of the beans. Long, dark green pods, 4 to 4½ in.						
26 FORDHOOK U.S. 242. Heavy Yields. See above.45	1.80	4.95	30.00	\$145.00	
35 IDEAL or Mammoth Podded POLE LIMA.45	1.80	4.95	30.00		
Pods often 8 in. long, early and prolific. Best large podded Pole Lima.						
86 TRIUMPH. Best of the "Baby Limas".45	1.80	4.95	30.00		
This new small seeded variety is far superior to all other baby limas. Delicious flavor and fine color that holds well for canning or freezing. Developed by the U.S.D.A.						

POLE BEANS

A pound of Pole Bean seed will plant 120 ft. of row or about 100 hills.

40 Kentucky Wonder

Harris' Special Strain—White Seeded
No Stock Matches This One

Our special white-seeded strain of Kentucky Wonder produces heavier yields and finer pods than any other we have tested. The tall vigorous vines are remarkably healthy and prolific and the pods are exceptionally long, straight and meaty. If your market wants Kentucky Wonder beans, this is the strain to grow. See prices below.

"I bought a few pounds of King Horticultural beans from you this spring and I have raised some of the most beautiful beans that I have ever grown."

Leslie M. Butts, Hedgesville, W. Va. Aug. 26, 1950

25 lbs. or more of one variety of beans will be supplied at 100 lb. price. A bushel weighs 60 lbs.

NOT PREPAID* (See page 2)

	1 lb.	5 lb.	15 lb.	100 lb.
40 KENTUCKY WONDER. Harris' Special Strain. See above	\$.50	\$ 1.95	\$ 5.40	\$ 33.00
44 KING HORTICULTURAL. Harris' Special Strain. See above (500 lb. \$170.00)55	2.05	5.70	35.00
75 SCOTIA. Fine for Roadside Markets50	1.90	5.25	32.00

Extremely prolific, with round slender green pods of the finest quality. Has proved very profitable as a high quality bean for discriminating trade.

BROCCOLI

1 oz. produces 2000 to 3000 plants. 4 oz. per acre.

ITALIAN GREEN SPROUTING

Compact heads of the finest type.

BRUSSELS SPROUTS

1 oz. produces 2000 to 3000 plants. 4 oz. per acre.

236 Catskill

Heavy Yields of The Finest Sprouts

Since the Joseph Harris Company first introduced Catskill, it has been universally recognized as the best variety to grow in the East. Expert growers in the Catskill mountain section, which produces the finest sprouts in the country, use it almost exclusively. They prefer its dwarf, compact, uniform growth and the heavy sets of large, firm, dark green sprouts. Over the years, the quality and dependability of our strain has been improved until it is by far the finest and most productive to be had.

1/4 oz. 70c; 1/2 oz. \$1.20; 1 oz. \$2.15; 1/4 lb. \$7.10; 1 lb. \$25.00

44 King Horticultural

Harris' Special Large-Seeded Strain
A Very Heavy Yielder

Excellent both as a snap or green-shelled bean. The long broad pods are heavily splashed with scarlet, straight and entirely stringless. It is superior to French Horticultural in yield and disease resistance and on good well-drained land can be grown without support. This special strain is an early, large seeded type, developed and grown exclusively by us. See prices below.

NOT PREPAID* (See page 2)

	1 lb.	5 lb.	15 lb.	100 lb.
40 KENTUCKY WONDER. Harris' Special Strain. See above	\$.50	\$ 1.95	\$ 5.40	\$ 33.00
44 KING HORTICULTURAL. Harris' Special Strain. See above (500 lb. \$170.00)55	2.05	5.70	35.00
75 SCOTIA. Fine for Roadside Markets50	1.90	5.25	32.00

232 DeCicco

Ready Very Early

Ready to cut a week to ten days before Italian Green Sprouting, this is the best early strain of commercial value yet developed. Each plant produces a large center head and many small side shoots, excellent for bunching. Plants robust and of rather light green color.

Oz. 50c; 1/4 lb. \$1.50; lb. \$5.00; 10 lbs. \$49.00.

230 Italian Green Sprouting

Our Calabrese Strain Makes the Finest Heads

This special stock is the finest we have ever seen and we are confident that no better seed can be obtained at any price. It is vigorous, exceptionally uniform and dependable, and ripens medium early. It produces the fine, compact, tightly budded heads of dark blue-green color which the market wants, and the side shoots are good-sized and of fine type. For bunching or freezing, our strain has no equal.

Oz. 50c; 1/4 lb. \$1.45; lb. \$4.85; 10 lbs. \$47.50.

CATSKILL

Most productive and dependable.

BEETS

$\frac{1}{4}$ lb. of seed will sow about 250 ft. of row. Sow 10 lbs. of seed to the acre for rows 14 in. apart 6 to 8 lbs. per acre for rows 18 in. apart.

211 Crosby Green Top (New)

Bright Green, Fresh Looking Leaves (See Photo on Front Cover)

To get bunch beets with a clean, fresh appearance even in cool weather, grow this new Harris strain of Crosby, developed here on our farms. The tall, erect tops are bright, glossy green and will not turn red in the fall.

Almost as fine as our regular Crosby's, the roots are an excellent bunching type, smooth and early with slender tap roots and good color. We believe this will be a most valuable market variety. See prices below.

212 Harris' Special Crosby's Egyptian

We are glad we can offer once again our own strain of Crosby's Egyptian, which is without question the best early bunching beet obtainable. It is very early, makes a good strong top and the leaves hold their color well.

The beets are very handsome, dark red in color with small tap roots. The smoothness and uniform shape of this strain make them invariably the finest looking beets in the market, and they naturally command top prices.

We are proud of our stock of this grand beet, for it is backed by over thirty years of careful breeding here on our own farms. As we have said many times, "Every one a model for shape and color." See prices below.

DETROIT DARK RED

Our Special Strain has the finest deep red color.

CROSBY'S EGYPTIAN

Photographed just as they were pulled in our trials.

215 Detroit Dark Red

Harris' Special Strain

Famous for Color and Shape

This is the best beet for late summer and fall trade. It is not only of excellent globe shape but has a superb deep red color that is without equal. Harris' Special Detroit Dark Red is a vigorous large topped strain which is particularly fine for fall bunching, and is also perfectly suited for canners. We know canners who insist on Detroit beets grown from our seed in preference to all others.

We have grown and selected this strain for many years on our farms and now we can confidently state that no better strain of Detroit beet can be obtained. It will produce heavier yields of smooth, round, dark red beets than any other. See prices below.

	$\frac{1}{4}$ lb.	1 lb.	10 lb.	100 lb.
210 BEETS FOR GREENS.....	\$.35	\$ 1.10	\$ 10.00	\$ 90.00
A distinct, rapid growing variety, selected to produce fine tops quickly.				
211 CROSBY GREEN TOP (New). See above.....	.45	1.35	12.50	115.00
212 CROSBY'S EGYPTIAN. Harris' Special Strain. See above.....	.45	1.30	12.00	110.00
215 DETROIT DARK RED. Harris' Special Strain. See above.....	.50	1.45	13.50
219 EARLY WONDER. A Superior Strain for Bunching.....	.45	1.30	12.00	110.00
Quite similar to our special strain of Crosby's Egyptian. Early and of good deep red color. Our strain of this variety is exceptionally fine.				
222 LONG SEASON. Also called "Winter Keeper".85	2.60	25.00
A very late variety of extra fine quality. Description in Retail Catalog.				

MANGLES—For Stock

Six to eight pounds of seed will sow an acre.

	$\frac{1}{4}$ lb.	1 lb.	10 lb.
546 DANISH YELLOW GIANT. The Heaviest Yielder.....	\$.30	\$.80	\$ 7.50
550 MAMMOTH LONG RED. Very Popular.....	.30	.80	7.50

CABBAGE

1 ounce of seed produces 1500 to 2000 plants in open ground, about 3000 in frames. $\frac{1}{4}$ to $\frac{1}{2}$ lb. per acre.

GOLDEN ACRE SPECIAL

Wilbur Scott, our plant breeder, selects only perfect heads for stock seed.

251 Medium Copenhagen, Yellows Resistant (New)

This fine yellows-resistant strain is very similar to our regular Copenhagen Market in season, size and type. It ripens a little later than Golden Acre and stands well without bolting. The heads are fairly large, round and firm and have an attractive bluish-green color, making them excellent for market and shipping. Nearly as uniform as the regular, this resistant strain should be used if your soil is infected. See prices below.

290 Red Acre

Red cabbage usually sells at a higher price and this early strain is the finest for market. The heads are small, round and hard, a beautiful deep red throughout. Plants compact and highly productive under almost any conditions. See prices below.

EARLY AND MEDIUM EARLY VARIETIES

	Oz.	$\frac{1}{4}$ lb.	1 lb.	10 lb.
244 BONANZA (New). Very Long Standing. See above.....	\$1.10	\$3.65	\$12.50
250 COPENHAGEN MARKET.....	.50	1.50	5.00	49.00
Larger, a few days later and stands longer than Golden Acre. Widely grown for market and shipping. Our strain produces the finest round heads.				
251 MEDIUM COPENHAGEN, YELLOWS RESISTANT (New). See above....	.65	1.95	6.50	64.00
261 EARLY JERSEY WAKEFIELD. Early Pointed Heads.....	.50	1.40	4.50	44.00
263 ENKHUIZEN GLORY. Large Headed Midseason Type.....	.45	1.30	4.00	39.00
Large round, second-early type for market and kraut. Stands well without bursting and gives heavy yields.				
264 ENKHUIZEN GLORY, Yellows Resistant. (Globe).....	.50	1.50	5.00	49.00
Large vigorous plants, yellows resistant. Heads slightly smaller than Enkhuizen Glory. They hold up well for market and are widely grown for kraut.				
270 GOLDEN ACRE. For Early Market.....	.50	1.50	5.00	49.00
Round hard heads of fine quality ripening very early. Plants are compact and may be set close together. Ours is the true uniform early strain.				
271 GOLDEN ACRE SPECIAL. The Earliest Strain. See above.....	.65	1.95	6.50	64.00
272 GOLDEN ACRE, Yellows Resistant.....			(Crop Failed).....	
281 MARION MARKET. Yellows Resistant.....	.50	1.50	5.00	49.00
Popular, heavy-yielding midseason cabbage. Larger and a little later than our Copenhagen Market and well adapted for main crop market and kraut. Our stock produces fine round solid heads.				
290 RED ACRE. Early Round Red. See above.....	.70	2.10	7.00	69.00

271 Golden Acre Special

The Best Early Cabbage

For early market, grow this Special Harris Strain. It is extra early, highly uniform and attractive, and ripens nearly all its heads at one time. The plants are compact and quick growing and produce the firm round small heads that markets want. We strongly recommend it to growers who want absolutely the best in early cabbage. See prices below.

244 Bonanza (New)

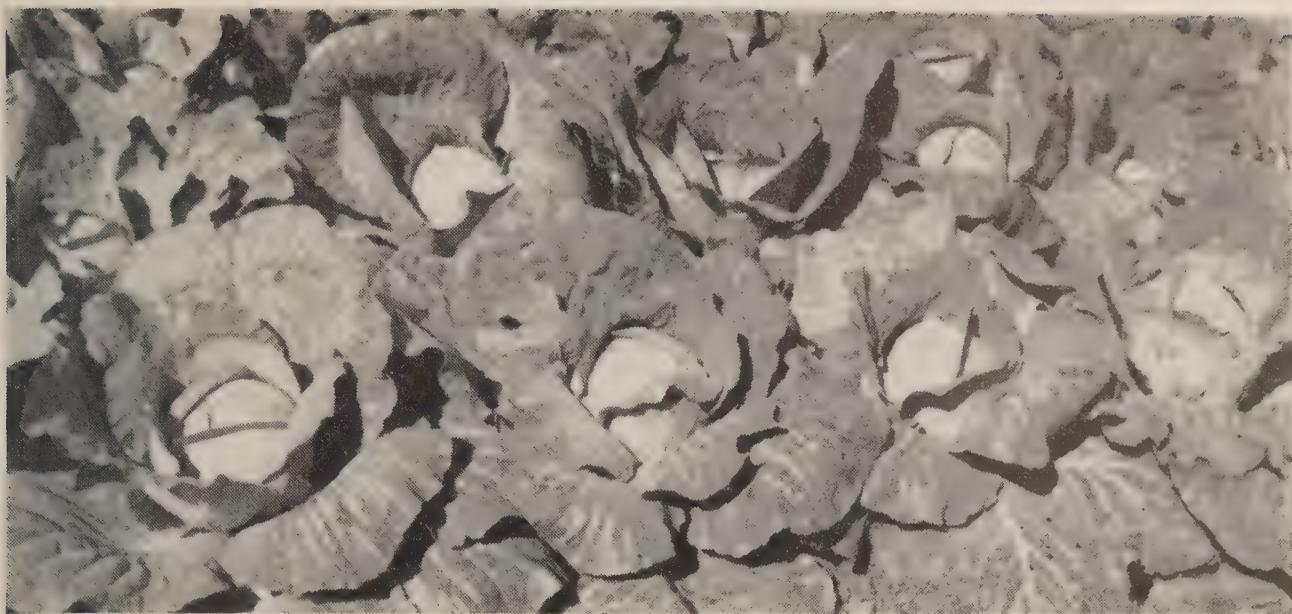

Hard-Heading Market and Shipping Type.

Bonanza is a most remarkable new cabbage. It will make good firm heads even when very small, and yet continues to grow and remain in fine condition in the field for many weeks. Nearly crack-proof, it has extra short cores, making it extremely slow to bolt and the solid, hard heads look attractive and ship well. Vigorous plants, midseason maturity, size just right for market. Highly valuable in the South and well worth a trial anywhere. Seed supply limited. See prices below.

BONANZA

Even the smallest head is absolutely hard.

HARRIS' DANISH BALLHEAD—Widely acclaimed as the outstanding Danish cabbage.

255 Danish Ballhead

Harris' Special Strain

With all confidence, we can say that this is the best strain of Danish cabbage obtainable. A true, short-stemmed Danish type, its heads are rounder than most Danish with an attractive, bright green color, slightly tinged with purple. Uniform and solid, it is just the right size for market and shipping, averaging 5 to 6 pounds, and its appearance makes it easy to sell.

The vigor and great uniformity of this strain make it the most consistently heavy yielder we know and in addition, it has proved to be a superior keeper, holding its green color well and coming out of storage in excellent shape. The seed we offer was grown directly from our latest and finest stock seed, produced here on our farm. If you want the best Danish, grow Harris' Special Strain. See prices below.

LATE OR MAIN CROP VARIETIES

245 BUGNER. *Yellows Resistant*.....

This old variety is still a fine late cabbage in many sections. Popular for its resistance to yellows and its vigorous growth and big tonnage. Ripens quite late, with broader and more flattened heads than Danish Ballhead.

255 DANISH BALLHEAD, *Harris' Special Strain*. See above.....

285 PENN STATE BALLHEAD. *True Stock*. See above.....

292 SUPER CURLED SAVOY. (*Chieftain*) *The Best Variety*.....

Finest Market Gardeners' Strain. Fine heads, more savoyed, earlier and more compact plants than most Savoy.

294 WISCONSIN BALLHEAD, *IMPROVED*.....

A yellows resistant Danish type, for early fall market and shipping. Smaller and more uniform than Hollander. Heads fairly hard but not recommended for storage.

295 WISCONSIN HOLLANDER. *Yellows Resistant*.....

A large late Danish, vigorous and rugged, popular with many growers who have infected soil.

279 MAMMOTH ROCK RED. *Sure-Heading Strain*....

The largest red cabbage. The heads are hard, medium round and deep red. Best for market or shipping.

MICHIHLI

285 Penn State Ballhead

More and more cabbage growers each year are turning to our stock of Penn State Ballhead, outstanding for its solid heads and its big tonnage per acre.

The heads are medium size, somewhat flattened and exceptionally uniform. It is an excellent type for storage, a heavy yielder and attractive in appearance, making it a most profitable kind to grow.

The stock seed for our crop came directly from Penn State College, and the strain we offer is the best obtainable. See prices below.

All the cabbage seed we offer is **HOT WATER TREATED** for control of Black-Leg and Black Rot.

CHINESE CABBAGE

Sow in July or August. 1 to 1 1/2 lbs. will sow one acre.

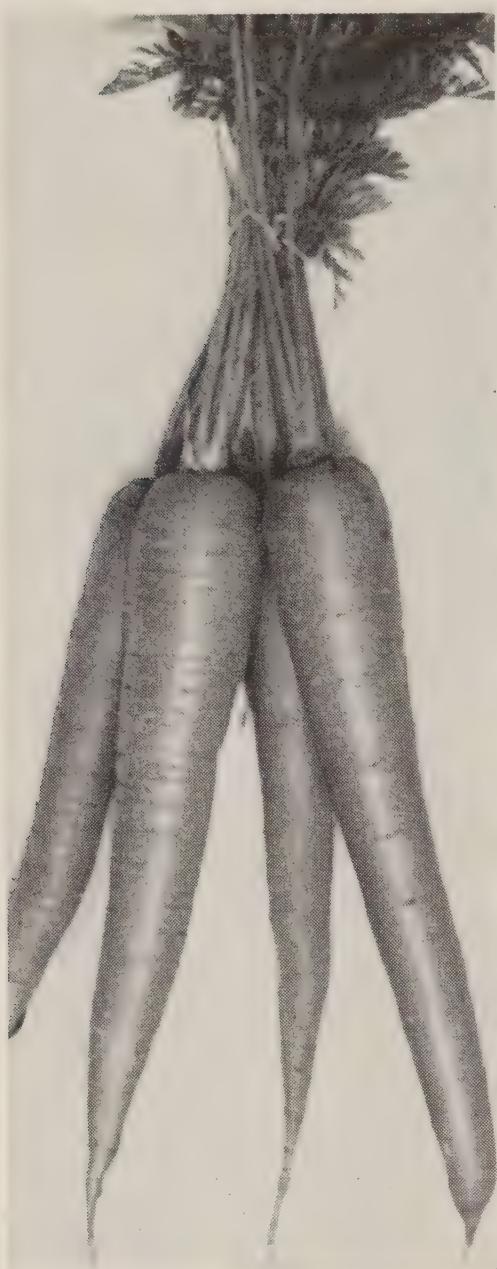

282 Michihli (New)

Michihli has so much greater uniformity and better color that there is no comparison with Chihli or any of the older varieties of Chinese Cabbage. Its outer leaves are dark rich green without yellow shading and the heads are hard and blanch well. It is a sure header, and its greater vigor has made it an instant success with muck and upland growers.

Oz. 30c; 1/4 lb. 90c; 1 lb. \$2.75; 10 lb. \$26.50.

CARROTS

An ounce plants about 300 feet of row. Sow 2 to 4 lbs. per acre, depending on the width of the rows.

IMPERATOR, LONG

Highly successful new strain.

	Oz.	1/4 lb.	1 lb.	10 lb.	100 lb.
305 CHANTENAY. Special Strain—Long. See above.....	\$.25	\$.70	\$2.10	\$20.00	\$190.00
320 CHANTENAY, RED CORED. Heavy Yielding. See above....	.25	.70	2.10	20.00	190.00
308 Danvers Half Long. Red Cored Strain.....	.25	.70	2.10	20.00	190.00
310 HUTCHINSON. Improved Strain.....	.30	.80	2.35	22.50	215.00
This long cylindrical stump-rooted carrot has now been improved for color and shape. It is a big yielder, highly popular in New England and we strongly recommend it. The blight resistance has been maintained.					
312 IMPERATOR. Fine for Bunching.....	.25	.70	2.10	20.00	190.00
A splendid, handsome strain of this famous bunching carrot. Smoother, more slender and of better color than the standard strains. Really coreless. About 8 inches long with small tops.					
313 IMPERATOR. Long Strain. (New) See above.....	.25	.75	2.25	21.50	200.00
315 NANTES. Long Strain. See above.....	.35	.85	2.50	24.00	230.00
316 NANTES. Strong Top Strain.....	.35	.85	2.50	24.00	230.00
A refined, carefully selected stock, highly popular for topping and bunching. Smooth, cylindrical and stump-rooted with high quality, bright orange flesh. Small tops, but heavy at crown and do not break easily.					
325 TENDERSWEET. The Sweetest Carrot.....	.35	.90	2.75	26.00	250.00
Large tapering carrots of extra fine quality. Distinguished by its striking deep orange-red color and its purple stems.					

25 lbs. or more of one variety will be supplied at the 100 lb. rate.

IMPORTANT—For long, smooth carrots, plant on raised beds or ridges and keep the soil as loose as possible. Compact soil makes the roots shorter and rougher.

CAULIFLOWER

One oz. of seed will produce 1500 to 2000 plants in open ground or about 3000 in frames.

SNOWBALL PERFECTED—Beautiful, firm, deep heads.

340 Snowball, Perfected Strain

The Outstanding Stock in Most Sections

Snowball, Perfected has long been recognized by leading growers in the East as one of the finest strains grown. Year after year, it continues to produce fine, uniform, solid heads, the kind that bring top prices.

The heads are large, deep and heavy with a tight attractive curd, and a beautiful white color. The plants are robust and erect with ample leaf coverage. Growers like its longer harvest period because the whole crop is rarely lost in a period of bad weather, and they find it unexcelled for local market or shipping. Its uniformity and dependability have made it an outstanding stock. See prices below.

345 Super Snowball

A fine strain for extra early crop. Under favorable conditions of soil and weather, it produces wonderful yields of large, broad heads, the whole crop maturing almost at one time.

The seed we offer is the true, original large early strain of Super Snowball. Although many similar strains are offered under various names, our customers find that this one has never been surpassed. See prices below.

All our cauliflower seed is carefully **Hot Water Treated**. This controls black leg and black rot on the seed, but great care must be taken to prevent infection after planting.

333 New Early Purple Head. For Roadside Stands.....

Bright purple heads of very superior quality that many growers sell at roadside stands or local markets. Once tried, their delicate flavor brings customers back for more. Frost does not damage the heads and they should not be tied.

339 SNOWBALL, IMPERIAL (New). See above.....

340 SNOWBALL, Perfected Strain. See above.....

342 SNOWBALL 25 (New). Reliable Later Type.....

This strain of Snowball type is valuable for its vigor and dependability under many conditions. Ripens a few days later than Snowball Perfected, but matures more evenly. Plants robust and leafy, heads large, smooth and heavy.

343 SNOWDRIFT. See above.....

345 SUPER SNOWBALL. See above.....

339 Snowball Imperial (New)

(See Photo on Front Cover)

This year we proudly introduce to our cauliflower customers an entirely new strain of Snowball or Erfurt type. Maturing several days ahead of our Perfected Strain, Snowball Imperial cuts a high percentage of the crop at one time. The stocky plants have an abundance of long erect leaves giving excellent protection to the medium sized heads.

In trials and crops alike, it has excelled others in quality, color and the percentage of number one heads. It cuts out almost 100% perfect heads, deep and solid with pure white curds. The consistently fine quality under many conditions combined with uniform early maturity make this a strain we can recommend to cauliflower specialists. See prices below.

343 Snowdrift

White Mountain or Improved Holland Erfurt

In the same season as Snowball, producing large firm heads which are practically pure white. In our trials this strain has long been outstanding for even shape and fine color.

This variety is popular in many sections for its remarkable whiteness and its hard, tight curd. The plants are heavy and cover the heads very well. It is sold under a number of different names, but ours is an extremely fine true stock which has given excellent results for our customers. See prices below.

CELERY

An ounce of seed will produce about 8000 plants. It requires 20,000 plants to the acre.

SUMMER PASCAL

Waltham Improved.

383 Utah No. 15

Tall, Vigorous Plants

A large, high quality green celery that competes successfully with the Western grown product in our markets. The heavy erect plants are composed of many thick rounded stems, 8 to 10 in. to the first joint, smooth, attractive and uniform with full hearts. The quality is excellent, crisp and of fine flavor.

Utah No. 15 is a rather late type, tall, erect and vigorous, with dark green tops. We can highly recommend it for both muck and upland. See prices below.

Yellow or "Self-Blanching" Varieties

357 CORNELL 6.....

Similar to Cornell 19 and preferred by many growers. Plants somewhat wider with heavier, smoother stalks and slightly more heart. Thick meated with excellent quality. Adapted to muck and upland, but requires care in handling.

358 CORNELL 19. See above.....

365 GOLDEN PLUME or WONDERFUL. Original Strain.....

The true original early strain that made Golden Plume famous. Medium sized, stocky, full-hearted plants, easily blanched; stems thick and solid. A true and uniform strain.

367 GOLDEN PLUME New Stockoff Strain. See above.....

Green Varieties

375 SALT LAKE or UTAH.....

The stalks are very thick, crisp and of highest quality, and the hearts are heavy and well developed. We have a fine uniform stock that we highly recommend for fall crop and storage.

377 SUMMER PASCAL. See above.....

378 SUMMER PASCAL, Waltham Improved (New). See above....

383 UTAH No. 15. See above.....

358 Cornell 19

High Quality Golden Celery

This yellow self-blanching variety has all the fine quality of the Pascal types. The stalks are very long to the first joint, smooth-ribbed and deeply rounded, and the flesh, even of the outer stalks, is thick, crisp and tender.

It is resistant to yellows and well adapted for both muck and upland. Recommended especially for main crop as it may produce seeders if plants are subjected to much cold weather. Easy to blanch, stores well and yields heavily. See prices below.

367 Golden Plume

New Stockoff Strain—for Muck and Upland

This large, early strain of Golden Plume has exceptional vigor, tall growth and makes big solid stalks and heavy, full hearts. The stalks are long to the first joint—8 to 10 inches—moderately ribbed and of good quality. It blanches readily and commands top prices. Recommended for its vigor, uniformity and dependability. See prices below.

378 Summer Pascal

Waltham Improved (New)

All the high quality of regular Summer Pascal combined with a taller somewhat more vigorous plant. This improved strain has a very upright growth with exceptionally long stalks (9-12 in. under good conditions), that are thick, crisp and tender, yet stand handling well. Already highly successful on green celery markets, its extra length and upright growth give it preference with many growers over the regular type both on muck and upland. Requires favorable conditions and good fertility for best development. See prices below.

377 Summer Pascal

Early Green Celery of Superior Quality

Earliness, fine quality and attractive appearance have made this one of the most popular green varieties in the East. The thick rounded stalks are long to the joint, on robust medium height plants. Our strain is uniform, has more heart than most, and the stems are smooth and easily blanched. Tender and brittle, Summer Pascal is outstanding for quality, and adapted for both early and late crops. See prices below.

CELERIAC—Turnip-Rooted or "Knob" Celery

352 LARGE SMOOTH PRAGUE. This is the standard market garden variety, producing good sized bulbs of the finest type. Oz. 60c; 1/4 lb. \$1.80; lb. \$6.00.

SWEET CORN

One pound of seed will plant 350 to 400 hills; 10 to 12 lbs. will plant an acre.

HARRIS' NORTH STAR

The large size, fine quality and attractive dark husks make this the best early corn.

130 North Star

Extra Early—Large Ears (67 days)

Now recognized as the best early hybrid in the East, our famous North Star is the corn that makes money for the growers. Developed and sold only by us, it produces bigger yields of better corn than anything in its class, and it comes on at a time when prices are still high.

North Star is bred for early planting and makes a rapid vigorous growth, even under tough weather conditions, when other varieties often fail to make a crop. Although it ripens very early, its handsome large ears and exceptional quality are the equal of many later varieties, and every year more growers discover that this superb corn is absolutely unbeatable.

The kernels are deep creamy gold, tender and sweet, and the ears are fully seven inches long, mostly 12-rowed and protected by a large thick husk that makes them fresh and attractive looking. They sell at a premium on sight and the wonderful flavor and tenderness bring the customers back for more. The yields are much greater than other early kinds and many growers use it even for later planting. See prices on page 13.

125 Marcross C6.13

Early—Uniform Large Ears (69 days)

Popular early hybrid ripening a day or two later than North Star and noted for its uniform large ears. The stalks are short and sturdy and the ears are 12 rowed, about 7 inches long. Shows more wilt resistance than other early varieties. See prices on page 13.

138 Sun-Up (New)

The First to Market (65 days)

Sun-Up is our earliest hybrid, yet it combines good size, attractive appearance and fine quality. It is ready to pick with the very first to ripen, yet the ears are 6½ inches long with 10 or 12 rows of broad plump kernels that have a sweetness remarkable in this season.

This exclusive Harris' variety is grown from a three-way cross, the only way we know to get the combination of earliness, vigor, fine quality and heavy yield that makes Sun-Up so popular for extra early crops. See prices on page 13.

132 Northern Cross

An Early, Heavy Yielding Hybrid (73 days)

Northern Cross was the first hybrid we introduced and it is still highly popular in many sections of the Northeast. It is a variety of great vigor with fine sturdy plants which often produce two and occasionally three good ears to a plant. Growers like the dark green husks and dark silks which give a fine market appearance.

These large ears are very uniform in size, usually eight inches long with 12-14 rows of bright yellow kernels. It is a tremendous yielder and has exceptionally high quality. See prices on page 13.

"North Star was superb—standing frozen ground, then drouth, and yet made a good crop and early."
Mrs. Joseph R. Cornell, Elk Creek, Va.
Feb. 6, 1950.

SWEET CORN—Continued on Next Page

SWEET CORN—Continued

CARMELCROSS, IMPROVED
A real producer of big handsome ears.

124 Lincoln

Drought Tolerant—Large Ears (81 days)

Lincoln, developed by the Connecticut Experiment Station, has won an important place in many sections because of its tall sturdy plants and its ability to stand drought and adverse conditions. The plants grow 7 to 8 feet tall with very stiff stalks and practically no suckers.

The ears are ready 3 to 4 days earlier than Golden Cross and are very large, measuring 7-8 inches. They are cylindrical, very uniform and have 12 to 16 rows of deep narrow kernels. See prices on next page.

LINCOLN
Note the length and uniformity of these attractive ears.

Again in 1951 . . .

All the hybrid corn we sell is treated with the best fungicides to give you better stands—at no extra cost to you.

107 Carmelcross, Improved

Largest, Finest Second-Early Corn (72 days)

For market, our Carmelcross Improved is now tops in its class. Ten days ahead of the main crop market varieties, it equals them in size of ear, high quality and big yields. It is the ideal corn to follow North Star and many growers use it all through the season.

The vigorous stocky plants are well adapted for spraying or dusting and the yields are excellent under nearly all conditions. The big well-filled ears have 12 to 16 rows of bright yellow kernels protected by a tight heavy husk, and the quality is excellent.

Our Improved Strain is preferred by many of the largest growers. It is dependable, uniform, and produces ears of the finest type. We invite your comparison with any other corn in this season. See prices on next page.

STANLEY'S CROW REPELLENT is the cheap and easy method of protecting your corn planting from seed pulling birds.

1/2 Pt. (treats 1 Bu.) 60c; Pt. \$1.00; Qt. \$1.75 postpaid.

GOLDEN CROSS BANTAM
Still the first choice on many critical markets.

115 Golden Cross Bantam

Big Yields—Best Quality (84 days)

Still the standard of excellence in sweet corn, Golden Cross Bantam is now offered to growers in many different strains. Years of careful breeding have produced the fine strain we offer and we feel it is outstanding for vigor, uniformity, quality and the fine appearance of the ears. It is ideal for both market and canning.

The vigorous plants produce heavy crops ripening nearly all at one time. The ears are large (about 8 in.) and remarkably uniform in size and type. They have 12 to 14 rows of bright golden yellow kernels of supreme quality. Our stock of Golden Cross has better seedling vigor, more even growth and better ears than most, and its tenderness and fine flavor have never been surpassed.

This variety is resistant to wilt and adapted all over the country. See prices on next page.

122 Iochief (New)

All America Gold Medal Winner for 1951
(85 days) (See Photo on Front Cover).

For midseason canning, freezing or market, Iochief is an outstanding new hybrid. It makes a big attractive ear with 14 to 20 rows of narrow, close-packed, *very deep* kernels which have a bright appetizing look and a clear golden color. Its quality is excellent—tender, sweet, and fine-flavored.

The ears are large, 8 to 9 in. long, slightly tapered and well wrapped in a tight heavy husk, and mature just after Golden Cross. The plants are drought tolerant, with a husky stalk and good foliage and they grow erect with very few suckers.

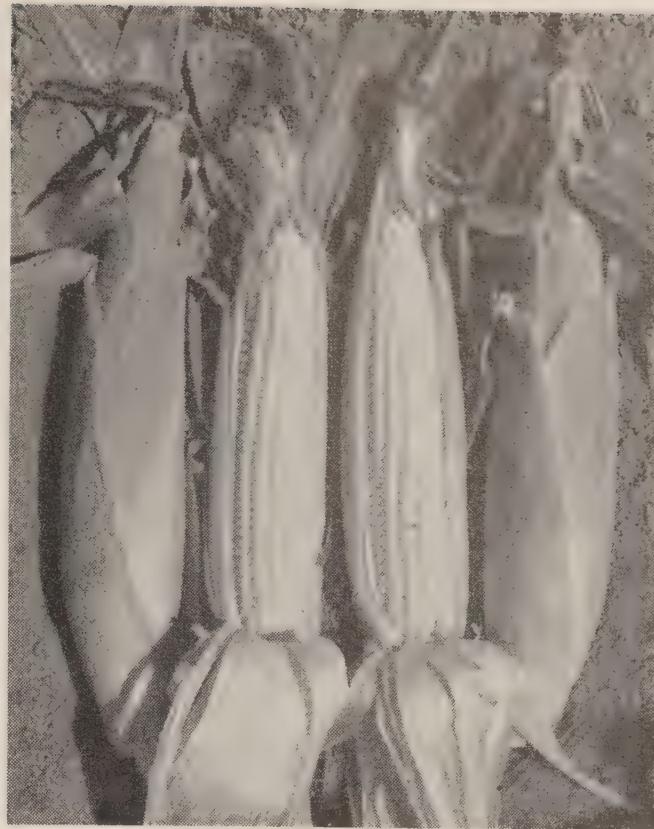

Developed by Dr. E. S. Haber of Iowa State College, Iochief has proved to be one of the finest hybrids yet developed in many sections, particularly in the midwest and South. Where large ears of fine quality are desired, Iochief is well worthy of trial. See prices below.

123 Ioana

Midseason—Wilt Resistant—Dependable (86 days)

Ioana is still the leading main crop hybrid in many sections and is especially outstanding in the South. It is an excellent market and shipping corn, producing large well-filled ears, amply protected by a dark attractive husk. Under conditions not favorable for Golden Cross, Ioana frequently produces fine crops.

The plants are vigorous and sturdy, well rooted and drouth tolerant. The ears are slightly larger than Golden Cross, nearly cylindrical with 12 to 16 rows of creamy yellow kernels of very good quality. Our strain is the best of many we have tested. See prices below.

IOANA — Husky and productive.

NOW—"GRADED" OR "SIZED" CORN SEED

For the greatest possible planting accuracy, we size all the hybrid corn seed we sell. This "graded" corn will plant much more evenly and thus gives you better stands and fine crops. Another Harris service at *no extra charge*.

25 lbs. or more of any one variety will be supplied at the 100 pound rate. Write for special prices on larger lots.

147	HYBRID HULLESS (Minhybrid 250).....	\$.75	\$3.05	\$5.90	\$33.00	\$55.00

Very early white hybrid—the best pop corn for the North. Ears small but it makes big yields of best quality hulless kernels.

*Purchaser pays shipping charges on sweet corn and pop corn except as follows: If your order for vegetable seeds, including corn, amounts to \$20.00 or more we will prepay the freight charges. See also inside front cover.

CUCUMBERS

1/4 lb. of seed will plant about 300 hills or 200 ft. of row. 2 lbs. per acre in hills or 3 to 4 lbs. drilled.

MARKETER — Beautiful dark green fruit.

430 Marketer

The Best Slicing Cucumber

By far the finest variety yet developed in slicers, Marketer has the shape, size, color and yielding ability that make it the best money maker for cucumber growers. The smooth slender fruits are remarkably uniform and trim in appearance, and a beautiful dark green color, extending all the way down to the blossom end. They average 7 to 8 inches long, straight and slightly tapered at the ends. The flesh is thick with a small seed cavity.

Marketer produces tremendous yields of these slim, elegant, deep green fruit. One great advantage is that the fruit on the late pickings is just the same excellent type as on the first picking. If you want extra fancy slicers, grow Marketer. See prices on next page.

436 Santee (New)

Early and highly productive, this new mildew-resistant slicer appears to be one of the best yet developed for southern and coastal areas. A product of Dr. Barnes of the South Carolina Station, Santee has good color and a long cylindrical blunt-ended shape. Not quite as resistant as Palmetto, but more attractive and a far better producer. See prices on next page.

418 Harris' Double Yield

Early—The Best for Pickles

This is the kind to grow for pickles. More growers every year plant our famous Double Yield, now improved in type and yield by selection and breeding here on our farms.

The small cucumbers are very straight with blunt ends, smooth, cylindrical and medium deep green in color. They are ideal for small pickles and the fine shape is carried on all sizes of fruit. (See photo.)

If they are kept picked, the vines produce astonishing crops. Pickles are often produced in clusters of 3 or 4. This is also the earliest variety we know and many growers use it for early slicers; it is ready two weeks before other slicing kinds. See prices on next page.

434 Niagara (New)

(See Photo on Front Cover)

Another important mosaic-resistant cucumber from Dr. Munger of Cornell, this new slicer stands up well all season even where other varieties are destroyed by mosaic. The vines are large and vigorous, and the fruit are attractive in shape, long, nearly cylindrical with a most excellent deep green color over the entire fruit.

Where mosaic is not so severe, Marketer is a better cucumber, and under certain conditions, Niagara shows a percentage of scarred or curved fruit. In other crops, the type has been very good so we can only recommend that you try it. A good yielder with us, it shows a remarkable degree of mosaic resistance. See prices on next page.

437 Sensation Hybrid (New)

Disease-Resistant—Heavy Yielding

A true first-generation hybrid that bears profusely over a long period, Sensation Hybrid is early and disease resistant. It will yield quantities of large blocky fruit with blunt ends, and the color is medium green. The vines are remarkably large and vigorous. They start to bear early, and like Niagara they continue to produce when other kinds are dying of mosaic. Not a shipping variety, but worthy of trial for local market. See prices on next page.

448 Yorkstate Pickling (New)

Mosaic-Resistant National Pickle Type

Yorkstate Pickling will produce good crops in areas where mosaic is so bad that other pickles cannot be grown. Developed by Dr. H. M. Munger of Cornell University, it is a National Pickle type with that variety's ability to produce an abundance of fine pickles.

The fruit are slightly longer, more tapered and warted than National Pickle, but are of good type for pickling. They ripen a few days later and yield big crops over a considerable period. See prices on next page.

HARRIS' DOUBLE YIELD

Tremendous crops of fine pickles.

CUCUMBERS—Continued

400 A & C

Still widely grown because of its dependability, vigor and attractive shape. The fruit are about 8 in. long, fairly smooth, dark green with faint blossom-end rays. A good market and shipping type. See prices below.

	Oz.	1/4 lb.	lb.	10 lb.	100 lb.

433 NATIONAL PICKLE. For Small Pickles.....	.25	.70	2.00	18.50	175.00
A very prolific variety producing large crops of uniform pickles of the type selected as best by many leading pickle packers.					
434 NIAGARA (New) Highly Mosaic Resistant. See preceding page.....	.45	1.30	4.00	38.50
435 PALMETTO. Mildew Resistant.....	.30	.80	2.50	23.50
Resistant to mildew and valuable for fall crop in coastal areas where that disease is most serious. Dark green, cylindrical fruit, about 8 inches long with rounded ends.					
436 SANTEE (New) Early—Mildew Resistant. See preceding page.	.40	1.20	3.50	33.50
437 SENSATION HYBRID (New) Vigorous F ₁ Hybrid. See preceding page.....	3.50	11.00	35.00
438 STRAIGHT EIGHT. Early Prolific Slicer. See above.....	.30	.80	2.40	22.50	215.00
448 YORKSTATE PICKLING (New). Mosaic Resistant. See preceding page.....	.30	.75	2.25	21.00	200.00

CHICORY—French Endive

386 WITLOOF CHICORY. Special Forcing Strain.

An exceptionally fine strain, especially selected to produce the highest percentage of perfect heads when forced.

Oz. 50c; 1/4 lb. \$1.50; lb. \$5.00.

CORN SALAD

393 LARGE ROUND-LEAVED. Market Gardeners' Dark Green Strain.

The leaves are uniformly large and dark green. Finest quality imported seed.

Oz. 30c; 1/4 lb. 80c; 1 lb. \$2.25; 10 lb. \$21.50.

COLLARDS

390 GEORGIA.

Large cabbage-like leaves, which grow loosely on stems 2 1/2-3 feet tall. Does not form heads. May be sown in spring and transplanted like cabbage or drilled in June or July. Popular in the South for table use and stock feeding.

Oz. 15c; 1/4 lb. 35c; lb. \$1.10; 10 lb. \$10.00.

389 CABBAGE.

Plants not as tall as Georgia. Large loose tender leaves form a cluster and are preferred in some areas.

Oz. 15c; 1/4 lb. 35c; lb. \$1.10; 10 lb. \$10.00.

438 Straight Eight

A very early slicer, producing heavily when others are just beginning to bear. These cucumbers are smooth, straight and blunt-ended but only fair for color. A profitable variety in many sections. See prices below.

	Oz.	1/4 lb.	lb.	10 lb.	100 lb.
438 Straight Eight.....	\$.30	\$.75	\$2.25	\$21.00	\$200.00
	.30	.75	2.25	21.00	200.00
434 NIAGARA (New) Highly Mosaic Resistant. See preceding page.....	.45	1.30	4.00	38.50
435 PALMETTO. Mildew Resistant.....	.30	.80	2.50	23.50
Resistant to mildew and valuable for fall crop in coastal areas where that disease is most serious. Dark green, cylindrical fruit, about 8 inches long with rounded ends.					
436 SANTEE (New) Early—Mildew Resistant. See preceding page.	.40	1.20	3.50	33.50
437 SENSATION HYBRID (New) Vigorous F ₁ Hybrid. See preceding page.....	3.50	11.00	35.00
438 STRAIGHT EIGHT. Early Prolific Slicer. See above.....	.30	.80	2.40	22.50	215.00
448 YORKSTATE PICKLING (New). Mosaic Resistant. See preceding page.....	.30	.75	2.25	21.00	200.00

CRESS

396 EXTRA FINE CURLED, also called Pepper Grass.

A hardy quick growing annual, producing an abundance of dark green leaves.

Oz. 20c; 1/4 lb. 50c; lb. \$1.50.

398 WATERCRESS, Improved Broad Leaved.

A much better strain than the common wild Watercress. Excellent for forcing.

1/2 oz. 55c; oz. \$1.00; 1/4 lb. \$3.40; lb. \$12.00.

DANDELION

452 ITALIAN DANDELION. (*Cicoria Catalogna*.)

Large dark green dandelion-like leaves, which are cut several times during the season for "greens." Ours is the true stock.

Oz. 50c; 1/4 lb. \$1.40; lb. \$4.50; 10 lb. \$42.50.

453 LARGE THICK LEAF.

Our strain is an attractive cut-leaf type, nearly white ribbed, with strong, upright growing plants and good hearts. Widely grown.

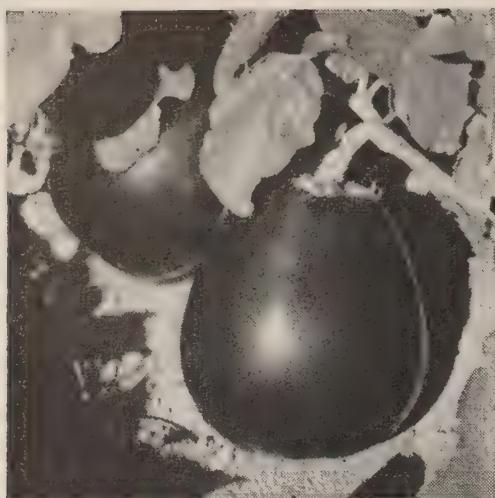

Oz. 85c; 1/4 lb. \$2.65; lb. \$9.00; 10 lb. \$85.00.

DILL

458 LONG ISLAND MAMMOTH.

Is much superior to the common dill, being larger and more productive.

Oz. 15c; 1/4 lb. 35c; lb. \$1.00; 10 lb. \$9.00.

BLACK BEAUTY

EGG PLANT

An ounce of seed will produce about 2000 plants.

461 Black Beauty

True and Prolific Strain

We can strongly recommend this stock as it is the finest strain of Black Beauty that we have ever seen. The plants are sturdy and vigorous, producing an abundance of uniformly large handsome dark purple fruit even here in the North. See prices below.

	Oz.	1/4 lb.	lb.
461 BLACK BEAUTY. See above.....	\$.75	\$2.25	\$7.50
463 EARLY LONG PURPLE.....	.80	2.40	8.00

Fruit 6 to 8 in. long, not over 2 to 3 in. through. Early and very prolific, dark purple.

465 NEW HAMPSHIRE. Extra Early and Prolific.....	.85	2.65	9.00
--	-----	------	------

Very early and especially valuable for growers who have difficulty producing egg plant profitably in the North. The medium size fruits are oval in shape and borne in great abundance on dwarf plants. Originally called "New Hampshire Hybrid."

ENDIVE

An ounce of seed will sow about 100 feet of row; 2 to 3 lbs. per acre.

	Oz.	1/4 lb.	lb.
471 DEEP HEART FRINGED. Broad fringed leaves.....	\$.25	\$.65	\$2.00
Distinct type, having large robust plants with broad fringed leaves. It grows somewhat upright and produces good deep hearts when fully grown.			
478 GREEN CURLED PANCALIER. Best for Late Market. Pink Ribbed.....	.25	.65	2.00
The leaves are not so finely cut as the Green Curled. Has fuller, heavier hearts. A favorite of market gardeners. This variety does best on rich soil.			
477 GREEN CURLED. Also called "Chicory." Green ribbed.....	.25	.65	2.00
Leaves finely cut and curled. Exceptionally uniform with a fine heavy heart.			
473 FULL HEART BATAVIAN (Escarolle). True Dark Green Strain.....	.25	.65	2.00
Our strain of this variety produces heads which are tightly packed with broad <i>dark green</i> leaves. The full hearts blanch to a beautiful golden color.			

French Endive—Witloof Chicory—See under Chicory on page 15

FENNEL

1 oz. plants 100 feet of row; 3 lbs. per acre.

481 FLORENCE.	Uniform, quick growing strain that produces good bulbs. Very reliable. Oz. 30c; 1/4 lb. 80c; lb. \$2.50.
482 MAMMOTH.	Later maturing and much slower to go to seed. Bulbs rounder and thicker than Florence. A fine stock. Oz. 30c; 1/4 lb. 90c; lb. \$2.75.

GARLIC

Separate the bulbs into flakes or "cloves" and set out like onion sets. Bulbs for planting:

Lb. 65c; 5 lbs. or more at 60c per lb. postpaid.
25 lbs. or more at 50c per lb., not prepaid.

KALE

Two pounds of seed will sow about one acre.

487 DWARF CURLLED or Blue Scotch.	Large, finely curled and fringed leaves with the much desired deep bluish green color. Our strain is superior in vigor and uniform dwarf growth and holds its color better. 1/4 lb. 80c; 1 lb. \$2.50; 10 lbs. \$22.50.
489 SIBERIAN. Also called "Early Sprouts".	Plants very large and spreading, leaves broad and thick, curled only at the edges. Color blue green. Very hardy and used largely for wintering over. 1/4 lb. 70c; 1 lb. \$2.00; 10 lbs. \$19.00.

HERBS for Flavoring, Etc.

	Oz.	1/4 lb.	lb.
931 BASIL. Large Leaved...	\$.50	\$1.50	\$5.00

458 DILL. See page 15.....	.15	.35	1.00
939 LAVENDER.....	1.30	4.35
943 SAGE. Broad Leaved...	.80	2.40	8.00
945 SUMMER SAVORY....	.50	1.40	4.50
947 SWEET MARJORAM...	.80	2.40	8.00
949 THYME.....	1.00

KOHL RABI

An ounce of seed will sow about 200 feet of row.

492 EARLY WHITE VIENNA.	Round white bulbs, early. A very uniform stock, which we recommend most highly. Oz. 45c; 1/4 lb. \$1.20; lb. \$3.50.
493 EARLY SHORT-LEAF FORCING.	Adapted for forcing under glass and for extra early crops outdoors. Oz. 50c; 1/4 lb. \$1.50; lb. \$5.00.

LEEK

An ounce of seed will sow about 200 feet of row.

497 ELEPHANT. Large Thick Stalks.	The best kind for market and a great improvement over the old varieties. Stalks extra large and sturdy, smooth and clear pearly white. Oz. 55c; 1/4 lb. \$1.55; lb. \$5.00.
-----------------------------------	--

LETTUCE

An ounce of seed will sow 250 feet of row; about 2 lbs. per acre.

533 Pennlake

Best Early Lettuce for Upland

Upland growers find Pennlake without equal for early planting, for it often produces the finest, cleanest, most uniform crops they have ever grown. Outstanding for earliness and large compact heads, it cuts a high percentage at one time. It has rather smooth dark green leaves, protecting the head well, and has fine quality. Not quite as large as Great Lakes, but preferred by many for its earliness and great uniformity. Highly recommended. See prices below.

CORNELL 456—A fine crop grown by Arthur Bidwell of Prattsburg, N. Y.

520 Great Lakes

Still the leading Iceberg lettuce on upland because it produces big clean hard heads, even in midsummer. Highly resistant to tip-burn, it heads well under a wide range of conditions, and is slower to bolt than any other variety.

The leaves are crisp, thick and very dark green with heavy ribs, and make large, solid heads. Planted in the spring, they are ready about a week later than Cornell 456, but can stand without cutting a long time. Our strain is the best obtainable. See prices below.

PENNLAKE

Large, firm early heads.

508 Cornell 456

Best for Muck—Withstands Summer Heat

Cornell 456 has proved to be the one outstanding lettuce to grow on muck and is excellent for upland in many sections. A hard heading Iceberg type, it is very slow to bolt, is tip-burn resistant and so vigorous that it is practically a sure header.

Year after year, our strain continues to show up well, being the true original type, uniform and adapted to our local conditions. It can be grown for summer crops as well as spring and fall. Earlier than Great Lakes, it is medium sized with an attractive glossy color and fine quality, and for both muck and upland it is a highly successful variety. See prices below.

540 Cos or Romaine

Trianon Self Folding

The best Cos lettuce, Trianon makes large, long attractive heads of fine quality. The heads are upright and compact, about 10 in. tall, and this uniform strain is preferred by market growers. It is widely used both for upland and muck-growing. See prices below.

	Oz.	1/4 lb.	lb.	10 lb.
504 BLACK SEDED SIMPSON.....	\$.25	\$.70	\$2.00	\$19.00
Widely grown loose leaf type. Broad light green leaves.				
508 CORNELL 456. See above.....	.55	1.65	5.50	52.50
517 GRAND RAPIDS. The Most Popular Loose Leaf Type.....	.25	.70	2.10	20.00
Excellent for outdoor as well as greenhouse growing and is used by the most critical growers. The leaves are light green, uniformly well curled.				
518 GRAND RAPIDS U.S. No. 1.....	.25	.75	2.25	21.50
A distinct well curled strain, preferred by many growers for greenhouse use.				
520 GREAT LAKES. See above.....	.55	1.65	5.50	52.50
533 PENNLAKE. Highly Recommended For Upland. See above.....	.55	1.65	5.50	52.50
534 PREMIER GREAT LAKES. Refined, Slightly Earlier Strain.....	.55	1.65	5.50	52.50
Successful with many upland growers. Its large uniform heads are solid and mature very evenly. Smoother-leaved, slightly less tip-burn resistant than the regular.				
539 SLOBOLT. Long-Standing Grand Rapids Type.....	.50	1.40	4.50
Stands far longer than other loose-leaf types. Thick clusters of curly leaves. Not adapted for greenhouse growing but increasingly popular for outdoors.				
542 WHITE BOSTON. Special Strain.....	.25	.75	2.25	21.50
There is no better strain than ours. Large headed and so uniform that there is practically no waste in cutting the crop. A very dependable producer.				
540 COS or ROMAINE—TRIANON SELF-FOLDING. See above.....	.25	.75	2.25	21.50

MUSKMELONS or Cantaloupes

An ounce of seed will plant about 50 hills; 2½ to 3 lbs. per acre.

DELICIOUS

The earliest good melon.

569 Iroquois

The Finest Variety

Iroquois has in addition to its resistance to fusarium wilt, such uniformly excellent quality, thick crisp flesh and fine appearance that it has become the leading variety in the Northeast. Not only on infected soil but for practically all melon growers, Iroquois is ideal.

The fruits are medium-large, round to oval in shape with prominent ribs and good netting; the rind is tough and holds up well. The fine textured, thick flesh is deep orange in color and has consistently high flavor and unusual sweetness. Iroquois ripens about in season with Bender's and the vigorous vines are very prolific. See prices below.

558 Bender's Surprise

Harris' Special Strain Is The Best Big Melon

Still one of the leading large melons for the East, our strain has no equal for combined large size, attractive appearance, fine flavor and long keeping qualities.

We have bred and grown this stock for many years here on our own farm, selecting for high quality, earliness and trueness to type, and our special strain will give you the finest big melons. See prices below.

558 BENDER'S SURPRISE. Harris' Special Strain. See above.....

MARKET KING

We regret that we have no seed to offer of our famous Market King melon this year because of failure of our seed crops. In its place we suggest Queen of Colorado, a good strain of similar type and the best available substitute.

560 DELICIOUS. The Earliest Large Melon. See above.....

566 Hearts of Gold (Large Strain).....

A fine melon for shipping, medium in size, round and well netted. Flesh thick, orange yellow, of uniformly excellent flavor. Our stock is the large strain of this well known variety.

568 HONEY ROCK or SUGAR ROCK.....

We have a fine stock of this popular melon which is widely grown in many sections because of its attractive appearance, fine flavor and ability to stand handling. The melons are nearly round, about 5" in diameter.

569IROQUOIS. High Quality—Big Yields. See above.....

570 MARKET KING.....

572 QUEEN OF COLORADO.....

Uniform medium-sized oval melons, well netted and of excellent quality. A good shipper, it has a tough rind and thick firm flesh.

575 SCHOON'S HARD SHELL or New Yorker.....

Similar to Queen of Colorado but larger, it has an oval shape with a very hard rind and good netting. The flesh is thick and has an excellent flavor. Heavy yielding, rather late variety.

IROQUOIS—Thick flesh of wonderful quality.

	Oz.	¼ lb.	lb.	10 lb.
558 BENDER'S SURPRISE. Harris' Special Strain. See above.....	\$.40	\$1.20	\$3.50	\$32.50

575 SCHOON'S HARD SHELL or New Yorker35	.95	3.00	27.50

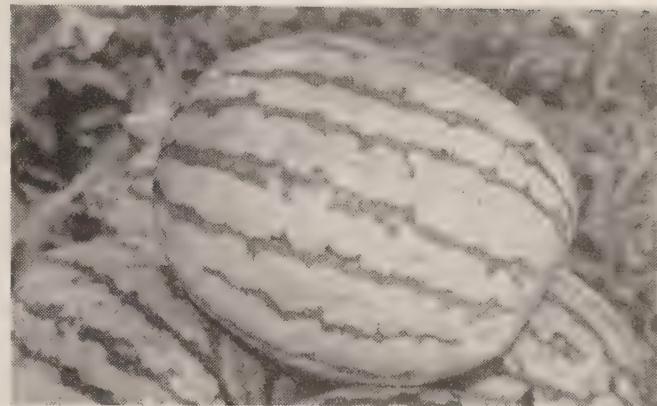

WATERMELONS

An ounce of seed will plant about 25 hills; 2 to 3 pounds to the acre.

581 Dixie Queen

The Most Popular Variety

Dixie Queen has many advantages over most watermelons offered to Northern growers. Early and very productive, it has the large size, brilliant scarlet flesh, and fine quality that buyers want. Its rind is light green with darker stripes and is thin but tough so that it stands shipping well. It has a round to slightly oblong shape, and crisp delicious flesh with very few seeds. Ripening only a few days after Honey Cream, it will usually produce excellent crops even in the North. This is a fine true stock. See prices below.

DIXIE QUEEN

A good shipper.

582 Honey Cream

Fine for the North—Very Sweet Yellow Flesh

An extra early variety of the highest quality. The fruit are medium sized, nearly round and attractively striped, with distinctive yellow or cream colored flesh. Not a shipping type, but on roadside stands its excellent sweetness and fine flavor will bring customers back again and again. Ripens as early as a Bender melon and yields extremely well in the North. See prices below.

	Oz.	1/4 lb.	lb.	10 lb.
581 DIXIE QUEEN. Early and A Good Shipper. See above.	\$.30	\$.75	\$2.25	\$21.50
582 HONEY CREAM. Sweet Yellow Flesh. See above.	.50	1.35	4.25	40.00
583 KLONDIKE. Black Seeded. Top Quality.	.30	.85	2.50	24.00
A fine variety still grown in many sections for its quality—it has crisp, fine textured flesh, sweet and well-flavored. The fruit are oblong with a thin dark green rind and ripen medium early. Black seeded.				
585 STONE MOUNTAIN.	.25	.70	1.90	18.00
Large, oval somewhat flattened ends. Fine quality and prolific.				
586 NEW HAMPSHIRE MIDGET (New).	.65	1.75
Very small, very early fruit—a novelty primarily suited to roadside stands. Light green, mottled rind, medium red flesh of very good quality. Small black seeds.				
588 WINTER QUEEN. White Skin—Long Keeper.	.20	.60	1.75	16.00
591 WONDER MELON.	.20	.60	1.75	16.00
The largest and best of the oblong varieties for growing in the North. They are early, dark green with bright red flesh of fine quality. Will produce large crops even when the seasons are short.				
580 GREEN CITRON or Colorado Preserving.	.20	.50	1.50	14.00
Not a true watermelon, outer flesh is used in preserving. Very prolific. Green seeded.				

MUSHROOM SPAWN

Full directions for growing are sent with each order of spawn.

TOBACCO PROCESS SPAWN. The finest pure culture spawn, prepared by a special process using dried and crumbled tobacco stems. This new spawn is easier to handle, goes farther in planting and helps in repelling insects. It is highly recommended by leading mushroom growers. $\frac{1}{2}$ lb. will spawn 35 sq. ft. of bed.

$\frac{1}{2}$ lb. \$1.35; 1 lb. \$2.50; 5 lbs. or more at \$2.30 per pound postpaid. Write for quotations on larger quantities.

MUSTARD

An ounce of seed will sow about 300 feet of row.

	Oz.	1/4 lb.	lb.	10 lb.
594 FORDHOOK FANCY. (Long Standing).	\$.15	\$.45	\$1.35	\$12.00
Handsome, upright growing variety with bright green leaves, deeply fringed and cut. Slow-bolting.				
595 LONG STANDING. (Southern Curled).	.15	.45	1.35	12.00
Early, vigorous variety, yet stands a remarkably long time without bolting to seed. The large medium green leaves are crumpled with beautifully fringed and finely curled edges, and they have a mild delicious flavor.				

OKRA or Gumbo

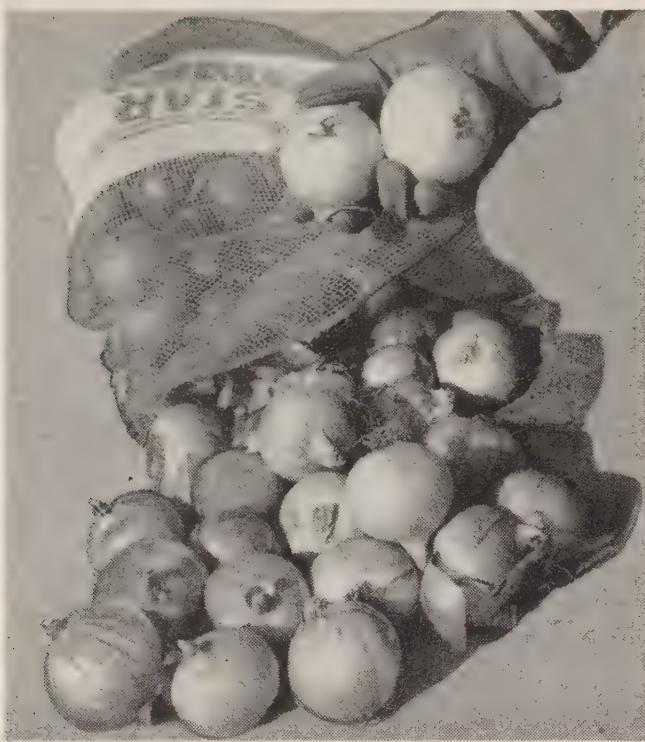

An ounce of seed will sow about 50 feet of row.

598 DWARF GREEN LONG POD. Large green pods like the old Perkins, but more dwarf compact plants. Better adapted to the North.

Oz. 15c; 1/4 lb. 35c; 1 lb. \$1.00; 10 lbs. \$9.00.

ONIONS

An ounce of seed will sow 125 feet of row. It requires 4 to 6 lbs. of seed per acre.

EARLY YELLOW GLOBE—A fine high-yielding strain.

600 Brigham Yellow Globe

Also called "Michigan Onion" and "Michigan Strain." The Best Variety for Storage

Although many new storage types have been offered, we have yet to find one that will give as good all-around performance as this strain of Brigham. It is not only grown extensively on muck but is also a very popular upland variety. It is outstanding because of the large yields obtained, the fine rich golden color together with a heavy thick skin which makes it the best variety for storage.

The seed we offer is a vigorous high-yielding strain of the true Brigham, deep globe in shape and uniform in size and type. See prices on next page.

HYBRID ONIONS

Dr. H. A. Jones of the U.S.D.A. deserves full credit for developing hybrid onions, and his parent material is used in all the best crosses. Their outstanding performance in trials promises great improvements to growers as soon as they are available. Hybrid vigor in onions shows up in heavier yields, greater uniformity and more number-one onions per acre. We suggest you try the one listed below.

599 Asgrow Y41

New Early Hybrid

Out of hundreds of hybrids tested, we have selected this vigorous high producing yellow variety. It is an early onion, ripening evenly at the same time as Early Yellow Globe, and is nearly round in shape with a good tight skin. In color and keeping quality, it is about equal to Early Yellow Globe but in yield it is far superior, giving up to 40% larger crops on both muck and upland. Not a long keeping onion but a valuable, heavy-yielding type with consistently good vigor. Plant a little in comparison to the standard types. See prices on next page.

605 Early Yellow Globe

The Best Early Yellow Onion

Earliness, enormous crops, fine appearance and unusually good handling and keeping qualities have made this variety the leading early onion both for upland and muck. It is now by far the most widely planted variety in the East.

The onions mature earlier and yield more than Brigham Yellow Globe. They are nearly globe shaped, deep yellow in color and with a good skin. They keep well, and their great vigor gives big yields under a wide range of conditions. Early Yellow Globe consistently produces the largest crops of fine onions.

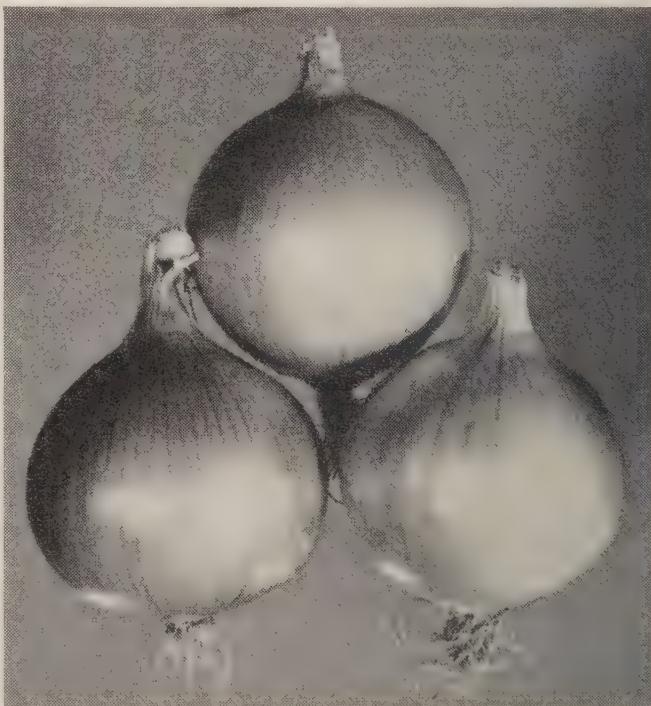

Again this year we are pleased to offer our customers the same fine stock of Early Yellow Globe which has been so satisfactory for many years. See prices on next page.

620 Sweet Spanish—Utah Strain

Large Mild Sweet Onions of Finest Quality

This fine large onion requires a longer season than the early varieties but can be grown successfully almost anywhere in the East, from seed or from greenhouse-grown plants. It makes bigger onions and has better quality than other kinds, and it is much more resistant to thrips and adverse conditions.

The onions are large and handsome, often weighing a pound or more, and the flesh is white, sweet and very mild. The shape is uniformly deep globe with small necks and a heavy golden brown skin. Our strain is the "jumbo" type, selected for extra size and uniformity and we recommend it highly. See prices on next page.

SWEET SPANISH—UTAH STRAIN
Large size—excellent mild flavor.

For the largest and best onion crops of this type, on muck or upland, plant Harris' **ONION PLANTS**, grown from the true Sweet Spanish strain, shipped from Texas by plane direct to us. See next page

ONIONS—Continued

	Oz.	1/4 lb.	lb.	10 lb.	100 lb.
599 ASGROW Y41 (New) Great Hybrid Vigor. See preceding page	\$1.20	\$3.90	\$13.50

607 EBENEZER. Best to Grow for Sets (See Onion Sets below)..	.40	1.20	3.50	34.50	335.00
For large onions to meet the early season market demand, Ebenezer grown from sets is still the best variety. Its flattened shape, fine quality and appearance and good keeping qualities make it the leading yellow onion for sets. This is a splendid strain of the true Ebenezer.					
610 JAPANESE BUNCHING. For "Scallions".....	.50	1.45	4.75	47.00	460.00
Makes 3 to 5 large straight mild white onions to a plant, is a rapid grower and produces marketable "bunch" onions very early. When fully grown, the onions are nearly an inch in diameter.					
616 SOUTHPORT RED GLOBE. The Best Red Onion50	1.40	4.50	44.00
Large, perfectly round, deep red onion; keeps well.					
617 SOUTHPORT WHITE GLOBE. The Finest White50	1.45	4.75	47.00
Large globe shaped white onion. A very profitable variety for experienced growers as it always commands the highest prices.					
620 SWEET SPANISH—Utah Strain. See preceding page55	1.65	5.50	54.00	530.00
624 WHITE BUNCH or White Lisbon.....	.50	1.40	4.50	44.00	425.00
Popular in many markets as an early bunching onion. Forms mild, sweet "green" onions when young, and medium sized flat, clear white bulbs when mature.					
625 WHITE PORTUGAL or SILVERSKIN. For Bunching.....	.40	1.25	3.75	37.00
Early flat, white onions of mild flavor. Excellent for pickling and early green onions, also for sets and for bunching. The mature bulbs are splendid keepers. This is our most popular white onion.					
626 WHITE SWEET SPANISH60	1.80	6.00	58.00
The largest and mildest white onion. Deep globe shape, small necks, very clear skin and firm white flesh. Has rapid vigorous growth and is widely used for bunching as well as mature bulbs.					

ONION SETS

About 12 bushels of onion sets are required to plant an acre.

EBENEZER. The Best Yellow Sets. (3/4 in. bar screen). They mature early producing large, uniform flattened bulbs. Very good keeper. See full description of Ebenezer in price list above.

Bu. (32 lbs.) \$4.85; 2 bu. \$9.30; 10 bu. or more at \$4.50 per bu. Purchaser pays transportation.

WHITE or Silverskin. Best for bunching. Medium sized flat onions. Clear white, fine appearance.

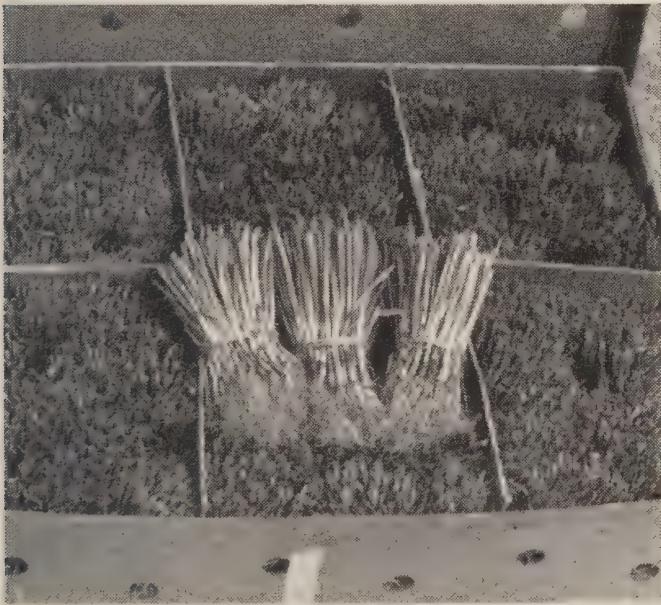

Bu. (32 lbs.) \$5.00; 2 bu. \$9.70; 10 bu. or more at \$4.75 per bu. Purchaser pays transportation.

Please note: Orders for onion sets may be entered at any time. They will be shipped as soon as we feel that the danger of freezing is past. Arrival in good condition guaranteed.

ONION PLANTS

Sweet Spanish—Utah Strain

Large, mild Sweet Spanish "jumbos" nearly always sell at good prices. Eastern growers on muck or upland can share in this profitable market by growing them from plants, flown direct to us by chartered plane from Texas. They produce tremendous crops of splendid large firm onions, just what the market wants.

SWEET SPANISH ONION PLANTS
A crate of our fresh-pulled plants.

We offer only the true Sweet Spanish onions, by far the best kind. Our air shipments mean that they reach you in fresh, vigorous condition and they can then be stored for some time.

Order early and set them out as soon as the land can be worked. The earlier they are planted, the bigger the crop and they will stand considerable frost. Plants usually available from April 15th to May 10th.

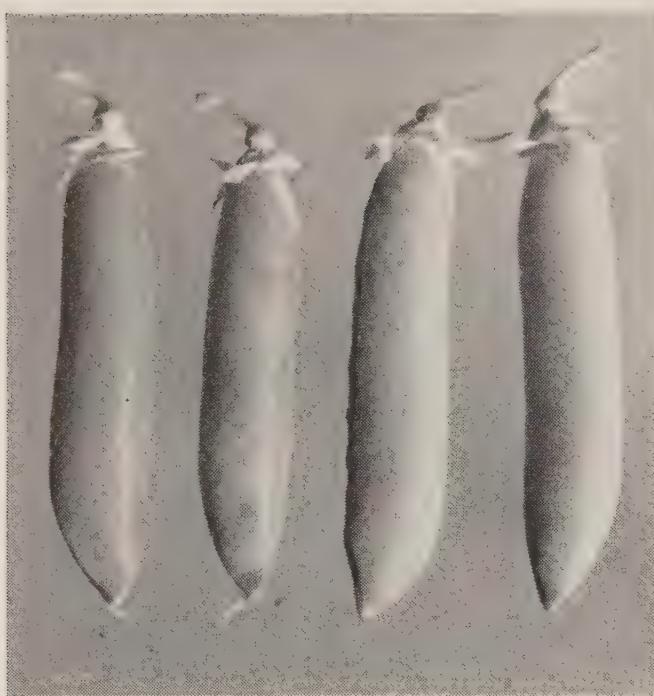

Please note: Onion plants are sold on the basis of bunches only. A bunch is a handful as pulled in the field and the count may vary from 50 to 110 or more depending on the size.

Price: 10 bunches \$3.25 postpaid. Not prepaid, single crate (60 bunches) \$9.50; 4 to 9 crates at \$9.15 each; 10 crates or more at \$8.85 per crate. (Weight 35 lbs. per crate.)

Special prices—For growers in sections south and west of us, we can quote special prices for direct shipment from our Texas grower, on full crates or more. Please write.

PEAS

One pound of peas will plant 100 feet of row. Two to four bushels per acre.

WORLD'S RECORD
Large, early-ripening pods.

157 Freezonian

Approved by Growers—Best Quality (62 days)

All the famous quality and dependability of the old Thomas Laxton are here combined with huskier vines and bigger yields. Freezonian is now one of the leaders among the modern early peas.

The good-looking, blunt pods are slightly larger (3-3½ in.) and of more uniform size, and they ripen just after the earliest kinds. The pods are very well filled with plump, dark green peas, and the crops are remarkably heavy. We can recommend Freezonian highly; it is ideal for all growers of fine peas for the early market. See prices below.

180 Midseason Giant

(Giant Stride, Wyoming Wonder, etc.) (72 days)

One of the best of the large podded mid-season group. It comes on between the early sorts and the late varieties and has shown a remarkable ability to stand up and bear well in *hot dry weather*. The pods are very large (4½ to 5 in. long) dark green and pointed. The yield is large, the pods being borne in great numbers on strong vigorous vines about 24 in. high. See prices on next page.

EARLY VARIETIES

25 lbs. or more of one variety will be supplied
at the 100 lb. rate. 1 bu. weighs 56 lbs.

157 FREEZONIAN (Improved Thomas Laxton) (3¼ ft.) 62 days.

See above.....

160 GREATER PROGRESS (18 in.) 62 days. See above.....

170 LITTLE MARVEL. (15 in.) 62 days. Larger-Podded Strain....

This is a special strain with broader pods and bigger peas. Pods well-filled, excellent quality. Vines stocky and very prolific.

190 THOMAS LAXTON. (3¼ ft.) 62 days. High Quality.....

195 WORLD'S RECORD. (2½ ft.) 59 days. See above.....

195 World's Record

The Earliest Large Podded Pea (59 days)

Earliness, fine quality, large pods, heavy yield—these are the reasons why World's Record is so tremendously popular today. Without question it is recognized by the best growers as the most profitable for their early crops. The pods are large and attractive, 3 to 4 inches long, pointed, medium dark green and contain large peas of the finest flavor

The vines are usually about 2½ feet high, sturdy and bear large crops which are ready over a short period. We offer a fine dependable early stock of this popular variety which we recommend highly. See prices below.

160 Greater Progress

Large Dark Green Pods—Very Prolific (62 days)

For large sized, very early peas, no variety has proved so satisfactory as Greater Progress. Its heavy yields and uniform pods are superior to anything in its class.

The vines are not tall, only about 18", but they are husky and literally loaded with large well filled deep green pods (4-4½ in.). They ripen only a few days after World's Record and they mature evenly over a very short period. The pods are all of the same uniform large size giving a most handsome appearance when picked for market. In our opinion, this is the best of the true large-podded early peas. See prices below.

SPERGON is by far the best seed treatment for peas. Greatly improves stands and increases yields. Protects against rotting. See page 48.

168 Lincoln

Foremost Quality and Yields (69 days)

If you have a market that appreciates real quality, Lincoln is the variety to grow—no other can approach its wonderful flavor.

The pods are fairly long (3-3½ in.), narrow, pointed and slightly curved and they are completely filled with delicious dark green peas that are excellent for freezing. They are borne in tremendous quantities on the dwarf vigorous vines and are easy to pick. Lincoln is one of the earliest of the midseason group, and we think it is the most delicious of *any* group. See prices on next page.

NOT PREPAID* (See next page)

PEAS—Continued

MEDIUM AND LATE VARIETIES

			NOT PREPAID* (See below)				
			1 lb.	5 lb.	15 lb.	56 lb.	100 lb.
152 ALDERMAN (4½ to 6 ft.) Dark Podded. 74 days.....	\$.45	\$1.55	\$4.20	\$13.45	\$24.00		
Still the best of the late tall-growing peas. Very large well-filled pods of excellent quality. Popular on the market and most profitable for growers.							
168 LINCOLN. (2½ ft.) 69 days. Finest Quality. See preceding page	.45	1.65	4.50	15.15	27.00		
180 MIDSEASON GIANT. (2 ft.) 72 days. See preceding page....	.45	1.60	4.35	14.55	26.00		
182 ONEIDA. (2½ ft.) 68 days. Dependable.....	.45	1.60	4.35	14.55	26.00		
Dark green and of fancy quality, Oneida is outstanding among midseason market varieties. It ripens several days before the large podded, late kinds and easily outyields them. Blunt well-filled pods, 4 to 4½ in., on sturdy vines.							
193 VICTORY FREEZER. (2½ ft.) 67 days.....	.45	1.60	4.35	14.55	26.00		
This hardy, early-midseason variety bears quantities of 3 - 3½ inch blunt pods and ripens so uniformly that vines can be stripped at one picking. Valuable for stands and markets where quality is more important than size.							

*Purchaser pays shipping charges on peas except as follows: If your order for vegetable seeds including peas amounts to \$20.00 or more we will prepay the freight charges. (See also inside front cover.)

PARSLEY

An ounce of seed will sow about 200 feet of row.

637 Perfection

This splendid variety wins new friends every year. It is a rapid, vigorous grower with long stems and upright habit. The distinctive bright green leaves are beautifully cut and curled and retain their fresh appearance well. A most highly productive and valuable type that is widely used by commercial parsley growers. See prices below.

	Oz.	¼ lb.	lb.	10 lb.
631 CHAMPION, or Triple Moss Curled.	\$.15	\$.45	\$1.35	\$12.50
This is a very superior strain. Although not quite as finely curled as Paramount, it is an early, rapid growing stock which will produce an abundance of fine parsley and give satisfaction wherever used.				
635 PARAMOUNT. Finest Curled.25	.55	1.50	14.00
This is the most attractive parsley to be had. All leaves are very highly curled, absolutely uniform and the color is a rich dark green. Makes a dwarf compact growth but the stems are of good length. Especially valuable for forcing and muck, as well as upland.				
637 PERFECTION. Highly Recommended. See above.25	.55	1.50	14.00
638 Plain Leaf.15	.45	1.35	12.50
Large flat leaves, not curled. Used for flavoring.				

PARSLEY FOR ROOTS

633 HAMBURG (Heimisher). Parsnip Rooted. Selected Stock.25	.55	1.50	14.00
The roots are up to 8 in. long, parsnip-shaped, smooth and white. We have a very fine stock of this variety, which produces long, straight, thick roots.				

PARSNIPS

An ounce will sow 150 feet of row. 2½ to 3 lbs. per acre.

640 Harris' Model

The Whitest Parsnips

These are smooth, snow white, hollow crown parsnips, with a minimum of side roots or prongs. They are of good length, but not too long and their smoothness is quite remarkable, giving the roots a very attractive appearance so that they usually sell for top prices.

Growers all over the country believe that no parsnip equals Harris' Model and will buy only our true originator's strain.

Oz. 25c; ¼ lb. 55c; 1 lb. \$1.50; 10 lb. \$14.00;
100 lb. \$130.00.

641 All-America (New)

Large, broad shouldered variety that makes a good diameter early. Smooth, white and of good quality. Medium length, quite tapered.

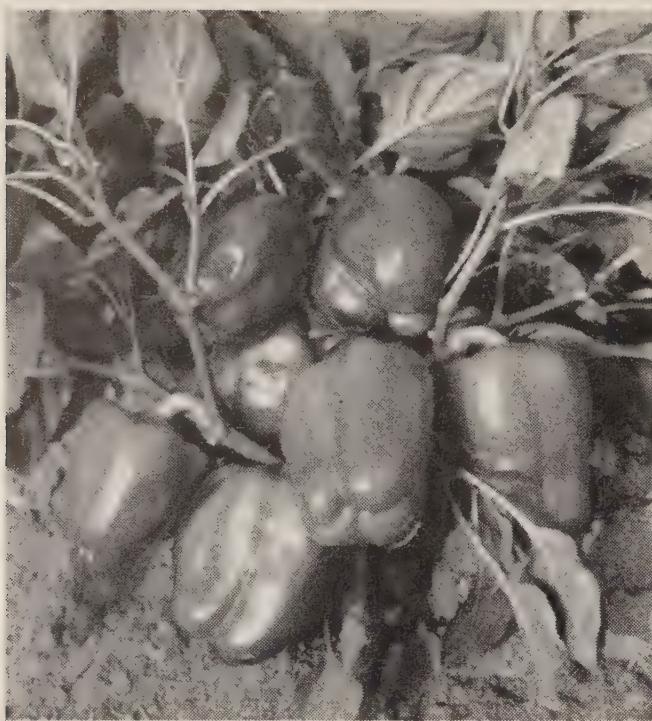

Oz. 20c; ¼ lb. 50c; 1 lb. \$1.45; 10 lb. \$13.50;
100 lb. \$125.00.

HARRIS' MODEL—Long, smooth roots.

PEPPERS

An ounce of seed will produce about 1000 plants.

PENNWONDER

Plenty of fine peppers in short seasons.

656 Calwonder—Early

The Best of the Large Peppers

For big yields of fine heavy peppers, Calwonder beats them all. Early enough to ripen full crops even in shorter season areas, it produces attractive blocky, 3 or 4 lobed fruit with exceptionally thick meat. They are deep green, changing to bright crimson at maturity, smooth and handsome, just what the market wants.

Our stock is truly a model for this variety. The dwarf, sturdy plants produce big heavy peppers in great abundance, and it is outstanding for vigor and uniformity. It is our most popular pepper. See prices on next page.

652 California Wonder

This fine pepper is widely grown by market gardeners in all sections. The plants are sturdy and prolific, bearing large crops of big peppers. The fruit are of the true California Wonder type, smooth, blocky and heavy with three or four lobes and very thick sweet flesh. Ripens several days after Calwonder. See prices on next page.

663 Harris' King of the North

A Very Heavy Yielder

Since we introduced this variety fifteen years ago, it has earned a reputation of producing greater yields of large peppers here in the North than any variety grown. The plants are medium size, branching and literally covered with immense fruit.

The peppers are dark green in color, turning to a rich deep red when ripe. The flesh is firm, mild and sweet.

Harris' Northern grown seed of this variety is by far the best strain obtainable. Do not take chances with inferior seed, but buy direct from us and get the true original early strain. See prices on next page.

675 Pennwonder

Early—Prolific—Thick-Meated

Pennwonder has proved to be the earliest pepper of good size, blocky shape and thick meat. Our customers report excellent results even in short season areas. It ripens well ahead of Calwonder and produces consistently heavy yields under a wider range of conditions.

The fruit are somewhat tapered (a few are almost pointed) but the walls are extra thick and the flesh is sweet and mild. The dwarf vigorous plants produce abundant crops and they are easy to pick.

Prof. M. L. Odland of Pennsylvania State College developed Pennwonder from a cross between our Harris' Earliest and California Wonder, and the result successfully combines the best features of both, producing a heavy, fine quality early pepper for the Northeast. See prices on next page.

CALWONDER

The best market pepper.

677 Rumanian Wax

This attractive large yellow pepper is much in demand on many markets. It is classed as a semi-hot type, since the flesh is sweet but the ribs are pungent. Early and prolific, it is a bright waxy yellow, ripening to brilliant red. The fruit is 4-5 inches long tapering to a point. We offer seed grown here on our own farms of our special high-yielding dwarf strain. See prices on next page.

670 Hot Portugal

Large and Hot

For the finest of large hot peppers grow our Hot Portugal. The fruit are very large, 6 inches or more in length, ripening early. The plants are sturdy and upright and produce great quantities of fruit. They are fiery hot, a brilliant glossy scarlet color and have a smooth attractive shape. Just as hot and twice as large as the old Giant Cayenne, Hot Portugal is the most satisfactory pepper of its kind for market. Seed of our own growing. See prices on next page.

681 Worldbeater

Valuable Early Strain

This excellent early strain has made Worldbeater more successful than ever in nearly all sections. Always popular in the South, it also does well even in Northern areas. The fruit are very large, 4½-5 in. long, somewhat tapering, thick fleshed and heavy. They are borne profusely on the husky leafy vines.

Worldbeater is valuable both for local market and shipping. This is a midseason pepper, but ours ripens several days ahead of the older strains. The fruit ripens evenly from a deep glossy green to bright red and the flesh is thick and sweet. A very uniform and attractive stock which is steadily gaining in favor. We recommend it highly. See prices below.

HARRIS PEPPER PLANTS

We specialize in growing fine, strong, true to name pepper plants, both seedlings and transplanted. See page 34.

WORLDBEATER—Excellent peppers of a popular variety, grown by Louis A. Sonazzaro, North Haven, Conn.

681 WORLDBEATER, Early Strain. Large and Prolific. See above.....	.70	2.10	7.00

PUMPKINS

An ounce of seed will plant 20 hills; about 3 lbs. to the acre.

695 Small Sugar (or New England Pie)

By far the most popular variety for market. The fruit are small, weighing 6 to 8 lbs. but there are so many on the vines that the tonnage nearly equals the larger kinds. On the outside, Small Sugar has a hard smooth skin, somewhat ribbed and of deep orange color. Inside, the flesh is thick, sweet and dry and the quality is excellent. A very profitable pumpkin to grow. See prices below.

	Oz.	¼ lb.	lb.	10 lb.
686 CONNECTICUT FIELD or Big Tom.	\$.20	\$.50	\$1.40	\$13.00
The standard large pumpkin. True stock.

This improved strain has netted deep orange skin and orange yellow flesh. A very uniform stock.				
695 SMALL SUGAR or Pie Pumpkin. See above.....	.20	.50	1.40	13.00

RADISH

1/4 lb. of seed will sow about 300 ft. of row.

To make sure that we can furnish radish growers with the finest strains for their particular requirements, we plant several extensive trials each year, both in greenhouses and out of doors. Here Wilbur Scott, our plant breeder, compares our fine Cavalier with other strains.

705 Cavalier

Excellent For Forcing or Outdoor Crops

The short tops, brilliant deep scarlet color, beautiful shape and ability to stand a long time make this the best forcing type we have ever seen. These radishes are firm and solid, of the true olive shape and unusually uniform for type. It is often possible to pull practically 100% of number one radishes. The tops are somewhat shorter than Early Scarlet Globe and just right for bunching. Cavalier is also especially good on muck soils.

It is one of the finest radishes grown and growers everywhere are most enthusiastic over it. Many of them tell us that these radishes sell for the best prices even when the market is slow. See prices on next page.

CAVALIER
Excellent short-topped radish.

706 Cherry Belle

Round—Bright Red—Short Tops

For greenhouse and frame growing as well as summer crops, Cherry Belle has created wide interest among growers. It is an exceptionally short-topped radish, grows quickly yet stands well without getting pithy. The brightly colored roots are uniformly round with fine tap roots and the flesh is crisp and mild.

Ideal for forcing, it is also excellent on muck and irrigated land in warm weather but is not recommended for early spring or late fall use out of doors. Altogether a fine distinct short-topped radish that has already become highly popular. See prices on next page.

EARLY SCARLET GLOBE—SPECIAL
Short tops—uniform, round shape.

716 Early Scarlet Globe (Special Strain)

Very Uniform and Attractive

Both greenhouse and outdoor growers rate this Special Strain of Early Scarlet Globe as first class for market. It has an oval shape, uniform and generally somewhat rounder than Cavalier, and its brilliant scarlet color makes it most attractive. A short top strain, it is ideal for bunching, and the flesh is clear white and firm. This variety has been a leader for many years, and it can be highly recommended. See prices on next page.

726 Lone Star

Long Scarlet Globe Radishes for Market

Best adapted for outdoor growing, this splendid new deep olive-shaped radish is just what many growers need. The tops are medium short but strong and are just right for bunching. Ideal for spring and fall crops, Lone Star can also be grown indoors when kept fairly cool. It has the same deep scarlet color, uniform shape and fine tap roots as Cavalier. Stands well without getting pithy. See prices on next page.

RADISHES—Continued

707 Comet

Ideal for Summer Crops

This fine round radish stays crisp and solid in warm weather long after other kinds have become pithy, and has an excellent quality and attractive appearance that make it ideal for outdoor crops. It has a uniformly round shape and grows larger than Early Scarlet Globe.

Market gardeners like its large even size, small tap roots and rich scarlet color, and customers enjoy its crisp white flesh and delicious flavor. For outdoor growing our strain of Comet is the best obtainable. See prices below.

25 lbs. or more of any one variety will be supplied at the 100 lb. rate.

	1/4 lb.	lb.	10 lb.	100 lb.
705 CAVALIER. Short Top Scarlet Globe. See preceding page.....	\$.30	\$.95	\$ 9.00	\$85.00
706 CHERRY BELLE. Ideal for Forcing. See preceding page.....	.40	1.10	10.50	100.00
707 COMET. Round, Bright Scarlet—Long Standing. See above.....	.30	.95	9.00	85.00
710 EARLIEST SCARLET WHITE-TIPPED. Forcing Strain.....	.35	1.05	10.00	95.00
The radishes are round, brilliant scarlet with white bottoms. This is the finest strain of white-tipped radish, having small tops and is superior both for forcing and outdoor growing.				
716 EARLY SCARLET GLOBE. Special Strain. See preceding page.....	.30	.95	9.00	85.00
722 GIANT WHITE STUTTGART.....	.30	.95	9.00	85.00
Large, round, top-shaped white radish. Valuable for summer as it stands a very long time without becoming pithy.				
725 ICICLE. Short Top Strain (White).....	.30	.95	9.00	85.00
For growing smooth clear white radishes, this special short topped strain is so superior that there is no comparison with ordinary stocks. Ideal for forcing and outdoor growing on muck and upland.				
726 LONE STAR. See preceding page.....	.30	.90	8.50	80.00
734 WHITE STRASBURG.....	.30	.95	9.00	85.00
Popular for summer use. Roots large and white with tapering shape.				

Winter Radish

Sow in August and store in moist sand for winter.

701 BLACK SPANISH TURNIP.....	.35	1.00	9.50
Roots are round or turnip shaped and grow very uniform in shape and size. Clear white flesh, skin deep black without white streaks.				

RHUBARB

For MacDonald Rhubarb Roots, see page 35. Full description in our Retail Catalog, published in January.

"It is a pleasure to do business with a company whose service is as good as their seeds."
Clayton E. Chase, Marlette, Mich. June 26, 1950

SALSIFY (Vegetable Oyster)

1/4 lb. of seed will sow about 400 feet of row.

740 MAMMOTH SANDWICH ISLAND.

The largest and best variety. Long, tapering, fleshy roots with but few side shoots.
1/4 lb. \$1.35; lb. \$4.00; 10 lbs. \$37.50.

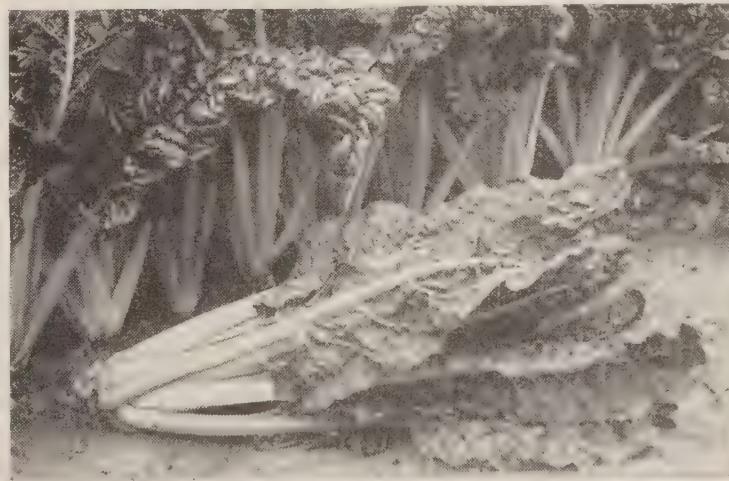

SWISS CHARD

1/4 lb. of seed will sow about 250 feet of row.

830 Fordhook Giant

Best for Market

This is by far the most popular variety of Swiss Chard. It has larger and thicker leaves than any other kind and they are heavily crumpled and very dark green. The stem and midrib are broad, thick and white, and the plants are vigorous and sturdy. This is a very uniform type and so superior to all others that we do not offer any other variety.
1/4 lb. 45c; lb. \$1.35; 10 lbs. \$12.50.

FORDHOOK GIANT

WINTER SQUASH

1/4 lb. of seed will plant 50 hills; 3 to 4 lbs. of seed per acre.

BUTTERNUT—Note the fine shape of these fruit in our seed crop.

774 Butternut

Harris' Strain is the Best Obtainable

This is the squash that has suddenly become the leader on markets all over the East. Our strain, selected on our farms, produces the finest, best-shaped squash and we are proud of its top rating with the most critical growers.

The fruit are of moderately long shape with straight thick necks that are solid meat. In size (3 to 4 lbs.) it is ideal for modern markets and the quality is excellent. Butternut matures early and bears big crops for summer and fall sale. Uniform and dependable, it seems to succeed even on poorer soils and the vines are resistant to borers. See prices below.

815 Royal Acorn

The demand for this larger sized Table Queen squash far exceeds the regular because growers find it the most profitable kind to raise. The fruit have the true pointed acorn shape but grow bigger than the regular Table Queen, measuring up to 6-7 in. long and 5 in. across. There is always a ready market for these attractive dark green squash and the big vines yield tremendous crops. See prices on next page.

770 BLUE HUBBARD. Selected Strain. See above.....

772 Boston Marrow. Special Stock.....

We offer a much improved new strain with a brighter richer orange skin color and greater uniformity. By far the best type for canning and market.

773 BUTTERCUP. Finest Quality.....

This fine small squash has excellent quality and exceptionally thick sweet flesh and has become very popular for roadside stands and local markets. The shape is rather flat with a distinctive "button."

774 BUTTERNUT. Special Stock. See above.....

780 DELICIOUS. Popular Medium-Sized Squash. See above.....

792 GOLDEN DELICIOUS. Large, Heavy-Yielding Strain

This strain produces enormous crops of thick-meatied orange squash of superb quality. Excellent for market, commercial canning and freezing.

793 Golden Hubbard.....

797 HUBBARD—True.....

800 IMPROVED WARTED HUBBARD. (Dark Green).

Larger, more warted, and darker green than the true Hubbard squash.

770 Blue Hubbard

Harris' Famous Selected Strain

Our special large, rugged strain produces immense yields of big, well-shaped squash that bring the highest prices. The thick-fleshed fruit is uniformly heavy and stores well.

Our strain is the result of years of careful breeding here on our own farms, and is generally recognized as the finest, purest stock grown. It cannot be obtained elsewhere.

Blue Hubbard is still in good demand on most markets in the East, and the fine quality, enormous yields and excellent keeping quality of our famous strain make it one of the most profitable squash to grow. See prices below.

780 Delicious

One of the best high-quality varieties, Delicious is being widely grown for markets that prefer medium size squash. Excellent for storage or freezing, it has a dark green shell, bright orange flesh that is dry and sweet, and an attractive pointed shape. The shell is hard and the squash, while not large, are very heavy. This is an exceptionally fine stock of a type that many markets now require. See prices below.

WINTER SQUASH PRICES—Continued on Next Page

WINTER SQUASH PRICES—Continued

	Oz.	1/4 lb.	lb.	10 lb.
810 QUALITY. Very Fine Flavor.....	\$.35	\$1.00	\$3.00	\$27.50
Harris' Quality is one of the best medium sized winter squash for markets and stands. It has a dark olive green color and an attractive heart shape with extra thick meat at the shoulders. Its flesh is dry, sweet, and delicious.				
815 ROYAL ACORN. (Mammoth Table Queen.) See preceding page.....	.25	.70	2.00	17.50
820 TABLE QUEEN. Also called Acorn and Des Moines.....	.25	.70	2.00	17.50
The Individual Squash. Small dark green fruit 5 to 6 in. long, 4½ in. in diameter, deeply ribbed and very hard. We have a fine even stock.				
821 UCONN. (New) True Bush Acorn.....	.30	.80	2.50	22.50
Compact, prolific bush vines. Fruit slightly smaller, smoother than Table Queen, medium green turning partly yellow if stored. Flesh thick and of fine quality. Valuable for early fall crop because of easy picking and big yields.				
823 WARREN. Improved Essex Hybrid.....	.35	1.00	3.00	27.50
This squash is still well-liked in New England. The fruit are medium to fairly large, heavily warted and bright orange red, with a distinctive "button."				

SUMMER SQUASH

1/4 lb. of seed will plant about 100 hills; 5 to 6 lbs. of seed per acre.

HARRIS' HYBRID COCOZELLE
Big early yields of a popular type.

825 Yankee Hybrid

Enormous Early Yields

The remarkable earliness and vigor of this hybrid have won it top place with many growers. The squash are of the finest type, extremely uniform with straight thick necks. The skin is slightly roughened and has a glowing waxy yellow color. True first generation hybrid, early and prolific. See prices below.

785 Early Yellow Prolific

Uniform and Attractive

Definitely the finest and most popular yellow squash. The bush vines bear very early and the fruit has a smoothness and uniformity that are especially fine. With its clear yellow color and even, tapered shape, it is always a favorite. Seed of our own growing, an excellent strain. See prices below.

794 Harris' Hybrid Cocozelle (New)

Very Productive

Earlier, more vigorous and a better yielder, this is the best long Cocozelle yet developed. Produced exclusively by us, it is a true hybrid with the shape, color and quality that markets want. Long slender fruit with dark and light green stripes, handsome and of fine flavor. An increasingly popular type for market and shipping, this hybrid will make it even more profitable to grow. See prices below.

775 Caserta

Extra Early—Distinctive Light Green Color

For roadside stands and local market, Caserta is recognized as a fine early summer squash. The fruit are medium sized with a rather short blunt shape, light glossy green with broken stripes of dark green. It has a fresh attractive market appearance and fine quality. One of the earliest, a tremendous yielder. See prices below.

CASERTA—Extra early.

	Oz.	1/4 lb.	lb.	10 lb.
775 CASERTA. Enormous Yields. See above.....	\$.30	\$.80	\$2.50	\$22.50
776 DARK GREEN ZUCCHINI Special Long Strain.....	.25	.75	2.25	20.00
This is a very superior strain with uniformly long dark green fruit, entirely without light grey fruit or light stripes. Exactly what is wanted.				
785 EARLY YELLOW PROLIFIC. See above.....	.20	.60	1.75	15.00
794 HARRIS' HYBRID COCOZELLE (New). See above.....	.75	2.25	7.50	70.00
795 HARRIS' IMPROVED COCOZELLE. Makes a Fancy Pack.....	.25	.75	2.25	20.00
The true long slender straight type that critical growers want. Developed and grown entirely by us, it produces very uniform fruit and is surpassed only by our new hybrid.				
807 MAMMOTH WHITE BUSH SCALLOP. Also called "Cymling".....	.20	.55	1.50	14.00
The popular type, producing large yields of thick creamy white, well scalloped fruit. Bush vines.				
825 YANKEE HYBRID. Extra Early, Heavy Yielder. See above.....	.60	1.75	5.75	55.00

SPINACH

Sow about 12 to 20 lbs. of seed per acre in rows.

SPECIAL SUMMER SAVOY

765 Special Summer Savoy

Extra Selected—Long Standing

We highly recommend this remarkable strain as the best long-standing spinach to be had. Every plant is of the true type with large beautifully crumpled or "savoyed" leaves; the color is a very attractive deep green and the spinach stands a long time even in hot weather without bolting to seed. Growers find that the yield per acre is consistently heavy.

This is the best kind for spring sowing and is also planted in late fall for an early spring crop as it is very hardy. We urge our customers to plant this extra fine stock of imported spinach seed, for it is the most profitable kind to grow. See prices below.

755 Long Standing Bloomsdale

We offer an excellent large-growing strain of this famous variety which we recommend especially for early spring plantings. It has a faster growth and a broader frame than Special Summer Savoy and can be cut sooner. It stands without bolting almost as long and the big, deep green, well crumpled leaves "bushel up" fast. This is a beautiful true stock of vigorous, attractive spinach and will give satisfaction wherever used. See prices below.

750 Blight Resistant Savoy

Grows Well in Fall When Others Blight

We have an outstanding stock of this popular variety. It is the true Virginia Strain, practically 100% resistant to blight and can be depended on to produce large crops in the fall where other varieties blight and fail entirely. The type is excellent with dark green well crumpled leaves and the yields are very heavy.

Blight Resistant Savoy does not stand as well as some other kinds in the spring, although ours stands three to four days longer than most strains of this variety. See prices below.

Treat spinach seed with **ARASAN** for better crops, bigger yields. See page 48.

• **BLIGHT RESISTANT SAVOY**
Use this for fall crops.

We shall be glad to quote special prices to growers who use larger quantities of spinach than listed here. Please write. 25 lbs. or more of any one variety supplied at 100 lb. rate.

	lb.	10 lb.	100 lb.
750 BLIGHT RESISTANT SAVOY. For Fall Crop. See above.....	\$.45	\$3.80	\$33.00
752 DARK GREEN BLOOMSDALE. Special Stock.....	.45	3.80	33.00
This extra dark green strain is very early with large heavily crumpled leaves, yet stands almost as well as Long Standing. 100% uniform, exceptional deep color holds well for market. Used for early spring and for wintering over.			
755 LONG STANDING BLOOMSDALE. Best Imported Stock. See above.....	.50	4.00	35.00
762 OLD DOMINION. For Fall Crop.....	.45	3.80	33.00
Very popular for spring sowing in places where blight affects spinach and also for early fall sowing as it is <i>blight resistant</i> and will stand longer without going to seed than Blight Resistant Savoy. The leaves are large, dark green, well blistered or "Savoyed," producing large crops which stand up well when shipped.			
765 SPECIAL SUMMER SAVOY. See above.....	.50	4.00	35.00
768 VIKING. Large Leaved—Long Standing.....	.50	4.00	35.00
An early, large leaved spinach which grows rapidly, yet stands for a long time. It has big, broad, flattened, dark green leaves and produces immense crops of fine-looking spinach. Used by canners and commercial growers.			
758 NEW ZEALAND SPINACH. Valuable for Summer.....	1/4 lb. 35c	1.00	9.00
Not a true spinach, but grows a large plant with small thick leaves that may be cut repeatedly. Valuable for greens in hot dry weather. Seed germinates slowly and should be soaked 24 hours before planting.			
			85.00

TOMATOES

An ounce of seed will produce about 2000 plants.

HARRIS' NEW YORK STATE CERTIFIED SEED

New York State Certification requirements are higher than those for any other state. A tomato crop that passes the critical inspections for certification must be vigorous, virtually free from disease and absolutely true to type; and we are proud that for fourteen successive years we have offered New York State Certified Seed of our own growing.

As an added protection to our customers, all our certified seed is Hot Water Treated, checking the possibility of disease being carried on the seed. For the finest strains and the purest seed, grow Harris' Certified Tomato Seed.

858 Early Hybrid (New)

(Earliana x Valiant) Extra Early—Big Yielder

For the very first early tomatoes, this hybrid has proved very successful when given good fertility and ample moisture. It produces more fruit and *earlier* than other kinds and they are smooth, round and attractive. Although small under some conditions, the size is satisfactory when well grown, and the color and quality are good.

Harris' Early Hybrid is still the earliest good variety or hybrid we know and will out-yield anything in its class. Seed saved only from hand-pollinated fruit grown on our own farms. See prices on page 33.

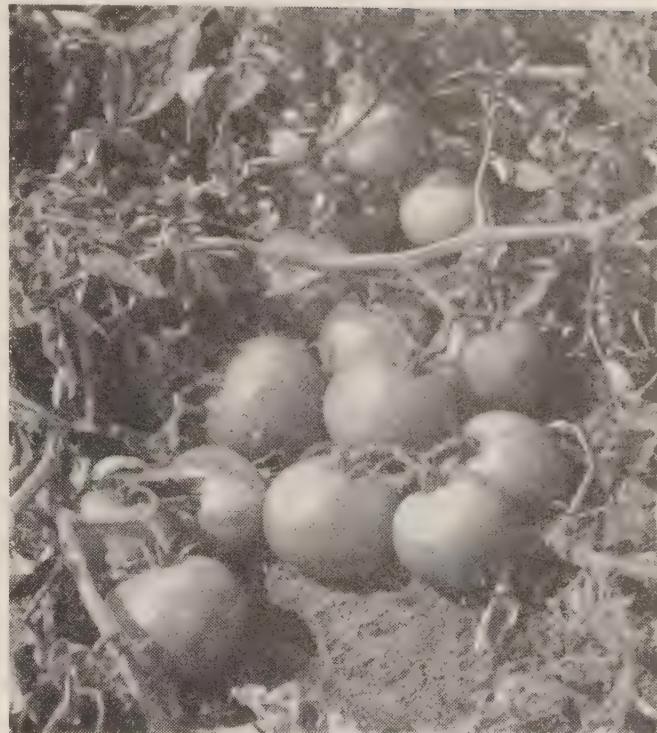

857 Early Wonder (New)

Tomato growers who have grown Victor successfully will do well to try this variety of the same type. The plants are compact but have more vigor and better foliage and with us the yields are even heavier. It is just as early and the fruit are slightly larger and smoother. In our opinion, it is a considerable improvement on Victor and a worthwhile new extra early variety. Seed of our own growing. See prices on page 33.

890 Victor

Very early in the season, Victor will start to ripen large clusters of fine tomatoes. The fruit are of good size, smooth and solid and ripen to bright scarlet all over with no green spots.

The vines are sturdy, dwarf and compact and should be planted close, to get more early fruit per acre. **N. Y. State Certified Seed** of our own growing. See prices on page 33.

VALIANT—The finest early tomato.

889 Valiant

Very Early—Large Fruit

More widely grown every year, Valiant is the leading early tomato in most sections. Our strain is the finest to be had, very early, yet the fruit are smooth, with a deep round shape and a solid, meaty interior. These tomatoes are large for this season, firm, very uniform and they color up well. The quality is so fine that they are used even later in the season when the midseason varieties are ripe.

The vines have an open spreading habit of growth and do best when well fertilized and grown on fairly heavy soil. The early yields are heavy and these big well-colored fruit sell easily at the best prices. **N. Y. State Certified Seed** of our own growing. See prices on page 33.

STOKESDALE—Handsome round red fruit.

FOR EXTRA EARLINESS, TRY SURE-SET

Early in the season when cool weather normally makes the blossoms fall off, a couple of applications of Sure-Set Hormone Spray will promote better fruit set, quicker ripening. See page 48 for details.

888 Stokesdale

Heavy Yielding Medium Early Type

For dependable production of fine smooth fruit under many conditions, Stokesdale is one of the best in the second early class. The fruit are medium sized, with a uniform smooth, deep globe shape, bright scarlet color and fine quality. It ripens evenly and is relatively free of cracks and blemishes.

With us, Stokesdale has proved a consistently heavy yielder. It is an all-purpose variety, adapted for market, shipping and canning. We offer only **N. Y. State Certified Seed** of our own growing. See prices on page 33.

TOMATOES—Continued on Next Page

TOMATOES—Continued

867 John Baer

An old favorite variety, still popular with many growers. It is a medium-early tomato ripening a full crop even in our short seasons and it yields well. The fruit are of moderate size, slightly flattened, smooth, and have exceptionally fine color and quality.

Our strain has been grown here on our farms for many years and it is preferred by most critical growers. Vines large and vigorous, dependable cropper. **N. Y. State Certified Seed** of our own growing. See prices on next page.

LONGRED

Wonderful main crop type.

880 Red Jacket

Heavy-Yielding Type Preferred by Canners

Another of the fine new tomatoes developed by Prof. W. T. Tapley at the New York Agricultural Experiment Station, Red Jacket is well liked by the canning trade because of its fine crops of big, firm tomatoes with deep scarlet color. The fruit are large, slightly flattened and very meaty and they ripen medium early—about in season with Stokesdale.

A distinct potato-leaved variety, Red Jacket has vigorous fairly compact vines that produce great quantities of these well-colored, heavy tomatoes. Somewhat rough in shape for market use, but of superior quality. **N. Y. State Certified Seed** of our own growing. See prices on next page.

853 Comet Tomato

For Greenhouse and Trellis Growing

Our stock is used regularly by some of the largest and best growers of greenhouse and trellis tomatoes, where a medium size fruit is wanted. We are pleased to offer **N.Y. State Certified Seed** of this fine strain of Comet Tomato. The fruit are firm, somewhat flattened in shape and very uniform. Our strain has been found superior for both greenhouse use and growing outside on supports.

Pkt. 25c; $\frac{1}{4}$ Oz. \$1.10; $\frac{1}{2}$ Oz. \$1.90; Oz. \$3.50;
 $\frac{1}{4}$ lb. \$12.00.

See page 34 for Harris famous tomato plants; both sturdy, well-grown seedlings and large husky transplanted plants.

868 Longred

Big Yields over a Long Season

Longred is by far the best of the newer tomatoes and it has been widely acclaimed by growers for both market and canning. Developed by Prof. Tapley at the Geneva Station, it is the one outstanding new main crop variety, ripening enormous yields of large fruit and continuing to bear until frost.

The fruit are exceptionally smooth and uniform in appearance, deep globe shaped, with thick walls and solid flesh. The rich red color is excellent both inside and out, and they ripen uniformly, with comparatively little cracking. The large size and deep shape hold up well on all pickings.

Distinguished by its abundant, fine-leaved foliage, Longred sets very freely, resulting in heavy yields at each picking. If you have not tried Longred, plant some this year. **N. Y. State Certified Seed** grown here on our farm. See prices on next page.

885 Rutgers

Harris' Northern Grown Strain

The Best Main Crop Tomato in Many Sections

Rutgers still leads the field in most important tomato growing sections. It combines large size, solid structure, fine flavor and a beautiful rich red color that goes all through the fruit, making it excellent for both market and canning. The vines are large and very husky and stand up well even late in the season; they bear tremendous crops of fine heavy fruit.

Our strain has been grown and selected here in the North for years and has proved to be the best obtainable. The earliness and yield, the uniformly large size and smooth even shape of the fruit have all been improved as a result of careful breeding on our farm ever since this fine variety was introduced. **New York State Certified Tomato Seed** of our own growing. See prices on next page.

RUTGERS

Large size—heavy yields—unexcelled quality.

SMALL FRUITED TOMATOES

Popular for pickles, salads and preserves.

Varieties: 879 Red Cherry, 881 Red Pear, 894 Yellow Pear, 895 Yellow Plum, 863 Ground Cherry.

Pkt. 15c; $\frac{1}{2}$ oz. 50c; Oz. 90c; $\frac{1}{4}$ lb. \$3.00.

Any three pkts. 40c; any three $\frac{1}{2}$ oz. \$1.25.

TURNIPS

It requires 1 to 1½ lbs. of seed per acre in drills, or 2 to 2½ lbs. broadcast.

920 Purple Top White Globe

Special Strain—Very Uniform

This stock of Purple Top White Globe continues to produce the smoothest, handsomest turnips we have ever seen. They are snowy white with bright purple tops and the shape is smooth and round. This strain is very uniform and all the turnips are of the finest type.

It costs no more to grow the best, and the attractive appearance makes them sell much better on the market. See prices below.

	1/4 lb.	lb.	10 lb.
906 GOLDEN BALL. The Smoothest Yellow Turnip	\$.35	\$1.00	\$ 9.50
Round, smooth yellow. Much the best to grow where a yellow turnip is wanted.			
920 PURPLE TOP WHITE GLOBE. Special Strain. See above30	.90	8.50

	1/4 lb.	lb.	10 lb.
928 SHOGOIN. The Best Foliage Variety35	1.00	9.50
The best turnip for greens, very much superior to Seven Top. The turnips are white, oblong and of fine quality. Tops light green, of good quality and grow in clusters.			

RUTABAGAS

	1/4 lb.	lb.	10 lb.
910 IMPROVED LONG ISLAND. Best for Market and Storage	\$.40	\$1.10	\$10.00
An excellent strain of this standard variety. Large, smooth globe-shaped roots with very little neck. Yellow with purple tops, sweet, light yellow flesh. Very heavy yields.			
915 MACOMBER, White Flesh, Finest Quality	Oz. \$.25	.75	2.00
Mild flavored and sweet. Roots nearly round and white in color with green or purplish tops. Clear white, fine-grained flesh. Excellent for roadside stands and local markets.			19.00

VEGETABLE PLANTS

We offer only sturdy, well-grown plants, nearly all produced here on our own farms and greenhouses, and carefully packed under our supervision. Due to limitations of our equipment and the weather, plants are available only within dates specified. If you want plants at an early or late date within this range, please clearly mark your order right next to that item. We will do our best to meet your wishes.

ORDER EARLY—The demand for our plants exceeds the amount we can grow, so to avoid disappointment please order just as early as possible. Early orders are given preference in shipping.

SHIPPING AREA—We can ship plants and nursery stock only east of the Mississippi and north of Virginia. Since mail and express are sometimes delayed en route, we do not accept orders for perishable plants to be shipped long distances.

SHIPPING CHARGES—Plants are sent at purchaser's expense except where quoted "prepaid." For express shipments (which we recommend for large plant orders) be sure to give your nearest express office. For mail, include postage at zone rate. See your local post office.

NO C.O.D.'S—All plants and nursery stock are strictly net cash with order and will not be shipped C.O.D.

ARRIVAL IN GOOD CONDITION GUARANTEED

If your plants are delayed on the road or for any other reason they do not arrive in good condition, *notify us at once* and proper adjustment will be made. We cannot be responsible for plants living after they are planted as this depends on many factors over which we have no control, such as weather and soil conditions.

CABBAGE. Early transplanted plants..... Not prepaid 500 plants \$6.50, 1000 \$12.00.
Ready April 15 to May 15. Well hardened in cold frames and will stand considerable frost. Golden Acre Special only. Weight 500 plants—about 14 lbs., 1000 plants—about 25 lbs.

CAULIFLOWER. Early transplanted plants..... Not prepaid 500 plants \$8.00, 1000 \$15.00.
Ready from April 25 to May 15. Greenhouse grown plants, carefully transplanted. Slightly hardened to make them ship well but not enough to check the growth. Snowball, Perfected Strain, only. Weight 500 Plants—about 14 lbs., 1000 plants—about 25 lbs.

EGG PLANT. Potted plants..... Not prepaid 100 plants \$9.00.
Ready about May 15th. Black Beauty only. Grown and shipped in No. 2½ "Fertile Pots." Weight 100 plants about 50 lbs.

MUSKMELON. Potted plants..... Not prepaid 8 doz. (96) plants \$8.75, 500 \$38.00, 1000 \$67.50.
Ready about June 5th. Varieties: Delicious, Iroquois, and Bender's Surprise. Grown and shipped in 2½ in. Plant Bands. Weight 96 plants about 70 lbs.
(Note: For nearby growers who can call for their plants, we can quote special prices on quantities over 500.)

ONION PLANTS..... 10 bunches \$3.25 postpaid. Not prepaid: Single Crate (60 bunches) \$9.50;
4 to 9 Crates at \$9.15 each; 10 Crates or more at \$8.85 per Crate.
Texas grown plants, shipped to us by plane, available April 15th to May 10th. Sold by the bunch only. Please see page 21. Weight about 35 lbs. per crate. Sweet Spanish only. For growers south and west of us we can quote special prices on direct shipments from Texas of full crates or more.

PEPPERS. Strong transplanted plants..... Not prepaid 500 plants \$9.00, 1000 \$17.00.
Ready about May 15th. Calwonder, Harris' King of the North, Pennwonder, Harris' Earliest and Hot Portugal. Weight 500 plants—about 14 lbs., 1000 plants—about 25 lbs.

PEPPERS. Untransplanted Plants or Seedlings..... 500 plants \$3.25, 1000 \$5.50 postpaid.
Ready April 15 to May 15. Calwonder, Harris' King of the North, Pennwonder, Harris' Earliest and Hot Portugal. These plants should be grown in frames until large enough to plant in the open ground.

TOMATOES. Strong Transplanted Plants..... Not prepaid 500 plants \$8.50, 1000 \$16.00.
Ready about May 15th. Varieties: Victor, Valiant, John Baer, Stokesdale, Longred, Rutgers.
Early Hybrid Transplanted Plants..... Not prepaid 500 plants \$12.50, 1000 \$22.50.
Weight 500 plants—about 18 lbs., 1000 plants—about 30 lbs. (Heavier later in season.)

TOMATOES. Untransplanted Plants or Seedlings..... 500 plants \$3.00, 1000 \$5.00 postpaid.
Ready April 10 to May 15. Varieties: Victor, Valiant, John Baer, Stokesdale, Longred, Rutgers. Strong seedlings 3 to 4 in. high. They should be set in frames and allowed to grow for two weeks or more before setting in the field.

TOMATOES. Potted Plants..... Not prepaid 100 plants \$8.50.
Ready about May 15th. Grown and shipped in No. 2½ "Fertile Pots." Varieties: Victor, Valiant, John Baer, and Rutgers. Weight 100 plants about 50 lbs.
Early Hybrid Potted Plants..... Not prepaid 100 plants \$11.50.

250 or more plants are furnished at the 500 rate; 750 or more at the 1000 rate. For prices on quantities less than listed here see our general catalog.

ROOTS, ETC.

ASPARAGUS. Washington 500 (New).....	1 year roots only—Not prepaid, 500 roots \$13.50; 1000 \$25.00.
This new strain developed in California is earlier, and produces more uniformly large stalks than the regular. It has been a very heavy yielder in limited tests so far.	
Mary Washington.....	1 year roots — Not prepaid, 500 roots \$9.50; 1000 \$18.00.
. The standard variety and still an excellent kind to grow. All our roots are freshly dug, carefully sorted and very superior. Will be shipped as early as weather permits. (Weight — 500 roots about 35 lbs., 1000 — 70 lbs. Write for prices on larger quantities.)	
HORSE RADISH. New White Hot.....	500 sets \$9.00, 1000 \$17.00 postpaid.
This exclusive Harris variety has larger, more vigorous plants than ordinary horse radish, and the roots are bigger and hold their white color much longer after grinding. Very hot. Highly recommended.	
RHUBARB ROOTS. MacDonald.....	Not prepaid 25 roots \$9.50, 100 \$35.00.
Sturdy root divisions of this superior rhubarb. They will produce very large thick stalks of bright red color and finest quality. (Weight about 1½ lbs. each.)	

STRAWBERRIES

Hardy, vigorous, Northern grown strawberry plants, freshly dug, carefully sorted and properly packed. Available only in April or early May. Order early. Weight 1000 plants—about 65 lbs.—heavier later in season. (500 plants at the 1000 rate.) Full variety descriptions in retail catalog.

Please note shipping directions at top of preceding page.

FAIRFAX. Dark Red, Excellent Quality.

100 \$3.25 prepaid, 1000 \$18.50 not prepaid.

GEM. The Standard Everbearing.

100 \$4.25 prepaid, 1000 \$24.50 not prepaid.

PREMIER. Profitable Early Type.

100 \$3.00 prepaid, 1000 \$17.50 not prepaid.

SPARKLE. Midseason, Excellent for Freezing.

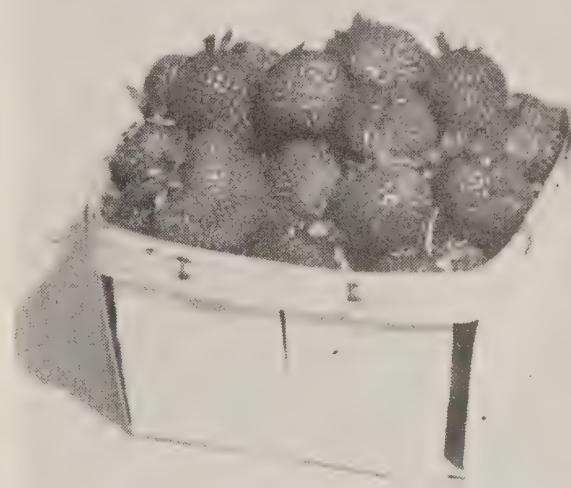

100 \$3.25 prepaid, 1000 \$18.50 not prepaid.

NOT PREPAID

BARLEY

	Single Bu.	Sack	10 Bu. or more at \$5.20	\$2.50
ALPHA BARLEY. (N. Y. Certified, Treated Seed) (48 lbs. per bu.). Sack 2 bu.....	\$2.75			

The standard two-row spring barley for New York State. Widely adapted, stiff strawed and excellent for sowing with oats. We have an exceptionally fine lot of seed.

BUCKWHEAT

JAPANESE BUCKWHEAT. (48 lbs. per bu.). Sack 2 bu.....	2.10	4.00	1.95
---	------	------	------

OATS

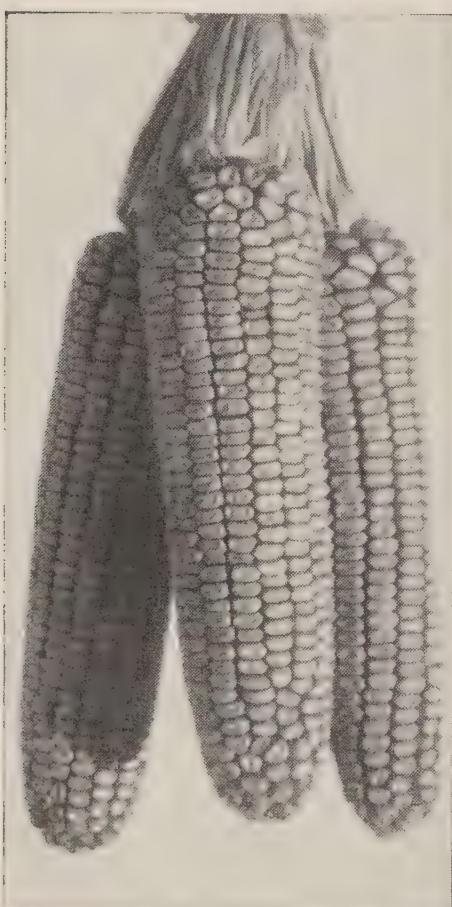

ADVANCE OATS. (N. Y. Certified, Treated Seed) (32 lbs. per bu.). Sack 3 bu.....	2.40	6.90	2.25
New taller oat, especially valuable for growers who want more straw. Slightly later than Mohawk, rust and blight resistant, yields heavily. An excellent variety.			

MOHAWK OATS. (N.Y. Certified, Treated Seed) (32 lbs. per bu.). Sack 3 bu.....	2.25	6.30	2.00
This is the best oat to grow. It is high-yielding, stiff-strawed and resistant to both stem rust and Helminthosporium blight. Developed at Cornell and highly popular with growers. Our seed is extra heavy, with high purity and germination.			

SOY BEANS

EARLYANA. The Best for Grain. (60 lbs. per bu.). Sack 2 bu.....	5.00	9.90	4.85
This heavy yielding yellow soy bean is the best for grain in our section. It is early-maturing, carries the pods well up off the ground and has large clear-yellow seed.			

LINCOLN. For Silage, Hay and Cover Crops. Sack 2 bu.....	5.00	9.90	4.85
Large vigorous variety, ideal for growing with corn for silage and also makes excellent hay. Rather late for grain in this area.			

KINGSCROST KE-1

Popular Early Hybrid for Grain

BIRDSFOOT TREFOIL. Empire. Lb. \$2.10; 5 lbs. or more at \$2.00 per lb. prepaid.

Selected BEDDING PETUNIAS

"AREN'T you ever going to have a *bedding petunia* the color of Carmencita and Tango?" our customers have been asking.

It looked like a "large order" but our flower plant breeders set to work on it. Color was important, but in working for it they must not lose sight of the desirability of neat, compact plants and flowers of good size. Innumerable crosses were made and seed of these F_1 hybrids tested in our greenhouses.

We got the color and the plants looked good, but how would it perform under the trying conditions of our Northeastern summers? We had the answer to that this summer in our outdoor plantings. Gypsy stood the extremes of hot and cold, wet and dry weather. The color remained a warm burnished salmon-scarlet; the plants uniformly upright and compact. Everyone who saw it was most enthusiastic in their praise of our new hybrid bedding petunia.

WE ARE PROUD THEN TO PRESENT GYPSY—Harris F_1 Hybrid Bedding Petunia

W3839 GYPSY. A warm, burnished, glowing salmon-scarlet blooming early and profusely. Plants are neat and compact about 1 ft. high and not quite so wide. The large flowers are as red as Fire Chief when they open becoming a brilliant salmon pink when fully mature. Hybrid vigor is apparent in the vigorous and uniform growth and in the abundance and size of blooms.
500 seeds 90c; 1000 seeds \$1.65; 1/128 Oz. \$3.00; $\frac{1}{64}$ Oz. \$5.50.

W3821 WHITE PERFECTION. A new white, more uniform in growth and of the same compact habit as Celestial Rose. Most white petunias are much taller.

W3825 DARK PURPLE. A very much improved stock, very compact growing and a deep velvety dark blue-purple.

W3826 CELESTIAL ROSE. The finest all-purpose bright pink. A clear pink without the large white throat of Rosy Morn. This is the most compact and uniform strain available.

W3827 HEAVENLY BLUE Improved. This is the light blue so much in demand but generally very variable in color. We have finally produced a much improved strain. The color is 100% true, clear, light blue and the plants uniformly low and compact.

ANY ONE OF THE ABOVE COLORS: Lg. Pkt. 35c; $\frac{1}{8}$ Oz. 70c; $\frac{1}{4}$ Oz. \$1.15; Oz. \$4.00.

W3840 HARRIS' SPECIAL FOUR-COLOR MIXTURE. Here is an unusually fine mixture especially made up for particular buyers from fresh new-crop seed, using carefully balanced proportions of Celestial Rose, White Perfection, Dark Purple and Heavenly Blue!
Lg. Pkt. 30c; $\frac{1}{8}$ Oz. 60c; $\frac{1}{4}$ Oz. \$1.05; Oz. \$3.25.

Fred Statt appraises his new F_1 Hybrid Bedding Petunia, Gypsy.

3837 F₁ ROSE CHARM. A new first generation hybrid dwarf bedding variety of the Celestial Rose type. Uniform, vigorous growth; early, profuse bloom; large flowers of a clear luminous pink. Hgt. 1 foot.
500 seeds 90c; 1000 seeds \$1.65; 1/128 Oz. \$3.00; $\frac{1}{64}$ Oz. \$5.50.

W3829 BLUE BEDDER IMPROVED. Here is a clear mid-blue, between Heavenly Blue and various purples, that we have always wanted in a really dwarf bedding type. True medium blue, free flowering, dwarf compact variety.
Lg. Pkt. 40c; $\frac{1}{8}$ Oz. 80c; $\frac{1}{4}$ Oz. \$1.50; $\frac{1}{4}$ Oz. \$2.50; Oz. \$7.50.

W3845 FINEST BEDDING VARIETIES MIXTURE. For growers whose plant customers want a wide range of color in mass plantings of dwarf petunias. Contains seed of separate varieties of white, cream, soft pink, rose, salmon, blue, violet and purple.
Lg. Pkt. 30c; $\frac{1}{8}$ Oz. 60c; $\frac{1}{4}$ Oz. \$1.05; Oz. \$3.25.

Bedding Petunias continued on next page

W3824 FIRE CHIEF. The All-America Sweepstakes Winner for 1950; the reddest Petunia ever produced. Dwarf nana compacta type. Your plant customers will be asking for it.

Lg. Pkt. 50c; $\frac{1}{2}$ Oz. \$1.25; $\frac{1}{8}$ Oz. \$2.25; $\frac{1}{8}$ Oz. \$4.00.

W3851 IGLOO. Our All-American winner in 1943. A very compact low growing white with a soft yellow throat. Continuous mass of blooms throughout the season. One of the neatest and showiest.

Lg. Pkt. 40c; $\frac{1}{8}$ Oz. 80c; $\frac{1}{8}$ Oz. \$1.50; $\frac{1}{4}$ Oz. \$2.50; Oz. \$7.50.

W3843 GLOW. The brightest light scarlet of all petunias. Since this was introduced we have been making our own selections and feel sure we are growing the most uniform strain, both in plant form and color, now available.

Lg. Pkt. 40c; $\frac{1}{8}$ Oz. 80c; $\frac{1}{8}$ Oz. \$1.50; $\frac{1}{4}$ Oz. \$2.50; Oz. \$7.50.

W3823 ROSY MORN. An unusually good strain of the ever-popular white-throated pink for bedding, boxes, etc. The flowers are large and the plants remain uniformly low growing even during the extremely hot weather.

Lg. Pkt. 25c; $\frac{1}{8}$ Oz. 55c; $\frac{1}{4}$ Oz. 85c; Oz. \$2.80.

W3833 TOPAZ QUEEN. A rich glowing carmine rose with golden throat. A little taller than the other low growing bedding varieties. Striking in mass plantings.

Lg. Pkt. 35c; $\frac{1}{8}$ Oz. 70c; $\frac{1}{4}$ Oz. \$1.15; Oz. \$4.00.

The Finest GIANT PETUNIAS

GIANT RUFFLED TYPE

W3802 HARRIS' PARAMOUNT GIANTS. If you could see the plants in our greenhouses being grown for a seed crop, you would agree with all who have seen them that they are by far the most exquisite Dwarf Ruffled Giants you have ever seen. Immense, deep throated, beautifully ruffled and frilled flowers in a range of vivid and delicate colors are produced while the plants are still small, making them ideal for spring plant sales. Plants are compact and low growing. Excellent for pot plants or outdoor bedding.

500 seeds 75c; 1000 seeds \$1.25; $\frac{1}{4}$ Oz. \$2.50; $\frac{1}{2}$ Oz. \$4.25; $\frac{1}{8}$ Oz. \$7.50; $\frac{1}{8}$ Oz. \$13.00.

W3806 DWARF CALIFORNIA GIANTS, Mixed Colors. While not comparable to Harris' Paramount Giants this is a very good strain of seed grown in California. Interesting color range and the plants are fairly dwarf. 500 seeds 35c; 1000 seeds 60c; $\frac{1}{4}$ Oz. \$1.50; $\frac{1}{2}$ Oz. \$2.75; $\frac{1}{8}$ Oz. \$5.00; $\frac{1}{8}$ Oz. \$9.50.

W3808 HARRIS' SALMON BEAUTY. A giant, bright salmon-pink. Immense well ruffled flowers with golden throat. An excellent florist's variety. Similar to the new "Glamour."

1000 seeds 60c; $\frac{1}{4}$ Oz. \$1.25; $\frac{1}{2}$ Oz. \$2.00; $\frac{1}{8}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

F₁ GRANDIFLORA FRINGED HYBRIDS

These are the "last word" in petunias! After seeing their performance in our Test Gardens again this summer, we are convinced they have a bright future ahead. They are first generation hybrids of the dwarf, fringed grandiflora type with vigorous, uniform growth, producing early bloom. Sow in December for Easter pot plants.

W3801 F₁ LA PALOMA. Single fringed pure white 3"-3½" blooms with yellow throat; 100% grandiflora.

W3803 F₁ BOLERO. Warm carmine rose. As profuse in blooms as bedding types. Plants extra dwarf remaining that way all summer.

W3804 F₁ TANGO. A deep scarlet-salmon, more brilliant than anything seen thus far. Large, fringed flowers produced in abundance. Vigorous but dwarf plants.

ANY ONE OF ABOVE THREE COLORS: 500 seeds \$1.00; 1000 seeds \$1.90; 1/128 Oz. \$3.85; $\frac{1}{4}$ Oz. \$7.50.

W3836 BLACK PRINCE. The color of Flaming Velvet but more dwarf. Similar also to Velvet Ball. Our stock is uniformly dwarf and the color a very deep rich red, with no off-color plants in our seed crop.

Lg. Pkt. 45c; $\frac{1}{8}$ Oz. \$1.10; $\frac{1}{8}$ Oz. \$1.80; $\frac{1}{4}$ Oz. \$3.25; Oz. \$10.50.

W3834 HOWARD'S STAR. Crimson-maroon with a distinct five pointed white star. A little taller than the dwarf bedding types.

Lg. Pkt. 30c; $\frac{1}{8}$ Oz. 60c; $\frac{1}{4}$ Oz. \$1.05; Oz. \$3.00.

W3847 ENGLISH VIOLET. Our All-America winner in 1943. Rich violet-blue which blends beautifully with other petunia colors. Profuse and continuous bloom.

Lg. Pkt. 40c; $\frac{1}{8}$ Oz. 75c; $\frac{1}{8}$ Oz. \$1.25; $\frac{1}{4}$ Oz. \$2.00; Oz. \$6.50.

W3844 CREAM STAR. By far the best creamy white petunia. Plants are uniformly compact and do not get leggy. Combines well with the deep reds and purples.

Lg. Pkt. 35c; $\frac{1}{8}$ Oz. 70c; $\frac{1}{4}$ Oz. \$1.15; Oz. \$4.00.

W3822 SALMON SUPREME. Rich coral salmon changing to soft pink. Very low and compact. Especially popular with people who object to vivid colors in petunias.

Lg. Pkt. 40c; $\frac{1}{8}$ Oz. 80c; $\frac{1}{8}$ Oz. \$1.50; $\frac{1}{4}$ Oz. \$2.50; Oz. \$7.50.

W3853 TWINKLES. Very dwarf compact brilliant rose with a well defined pure white star. Makes a cute border that is irresistible.

Lg. Pkt. 30c; $\frac{1}{8}$ Oz. 60c; $\frac{1}{4}$ Oz. \$1.05; Oz. \$3.00.

We are always working toward perfection in our Paramount Ruffled Petunias.

GIANT WAVED TYPE

W3809 HARRIS' ROIALTY. Beautiful large velvety flowers in varying combinations of deep purple and white. Grown as a pot plant they are a "sell-out." Since we introduced this variety the demand has so increased that we have difficulty keeping up with it.

W3814 HARRIS' GIANT SNOWSTORM. Very large, waved, pure white flowers on low growing plants. Blooms constantly in the garden and sells well as potted plants.

W3816 HARRIS' PURPLE PRINCE. Not to be confused with any other "Purple Prince" offered. This is distinctly different; the largest flowered, deep velvety violet-blue. Large open throats and waved petals. Very free flowering.

ANY ONE OF ABOVE THREE COLORS: 1000 seeds 60c; $\frac{1}{4}$ Oz. \$1.25; $\frac{1}{2}$ Oz. \$2.00; $\frac{1}{8}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

AMERICAN GROWN

PAN AMERICAN 100% DOUBLES

W3784 NOCTURNE (Dark Purple). Deep midnight purple. A high percentage of large, fringed doubles. The only good double of this color. Plants fairly dwarf.

W3786 SONATA (White). Best double white ever produced. Huge blossoms, deeply fringed, fully double. Plants semi-dwarf, free branching are improved by early pinching.

W3787 CAPRICE (Rose Pink). Brilliant rose pink blossoms are large, deeply fringed and fully double; plants dwarf and compact.

W3788 ALLEGRO (Salmon). Giant deep salmon blossoms deeply fringed; color and form 100% true; plants dwarf; a real sensation.

W3789 MINUET (Orchid). A dainty soft-lavender color enhanced by darker veining. Semi-dwarf so improved by pinching.

ANY ONE OF ABOVE FIVE COLORS: 500 seeds, \$2.50; 1000 seeds \$4.00; 1/128 Oz. \$7.25; $\frac{1}{64}$ Oz. \$14.00.

W3785 HARRIS' SELECTED MIXTURE. To give you a complete color range of the finest double petunias, we make this special mixture using the best of the Pan American and Canadian Doubles.
500 seeds \$2.00; 1000 seeds \$3.50; 1/128 Oz. \$6.50; $\frac{1}{64}$ Oz. \$11.50.

W3805 CARMENCITA. Similar to the rich scarlet-salmon of F₁ Tango but not a hybrid. Such a gorgeous new color that it stands out in any planting. Large flowers deeply fringed. The dwarf plants are ideal for pot plants.
1000 seeds, 75c; $\frac{1}{64}$ Oz. \$1.50; $\frac{1}{32}$ Oz. \$2.50; $\frac{1}{16}$ Oz. \$4.50.

W3815 FRINGED SNOWSTORM. Glistening white with a touch of yellow in the throat. Large beautifully fringed flowers are abundantly produced.
1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

SINGLE FRINGED PETUNIAS

W3805 CARMENCITA. Similar to the rich scarlet-salmon of F₁ Tango but not a hybrid. Such a gorgeous new color that it stands out in any planting. Large flowers deeply fringed. The dwarf plants are ideal for pot plants.
1000 seeds, 75c; $\frac{1}{64}$ Oz. \$1.50; $\frac{1}{32}$ Oz. \$2.50; $\frac{1}{16}$ Oz. \$4.50.

W3815 FRINGED SNOWSTORM. Glistening white with a touch of yellow in the throat. Large beautifully fringed flowers are abundantly produced.
1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

HARRIS' ASTERS

WILT RESISTANT ASTERS

HARRIS 8-BEST MIXTURE

For good performance under all conditions, for wide color range and variation in form of flowers there is no finer mixture. We use equal quantities of the following eight best wilt resistant varieties.

Crego Shell Pink	Early Giant Light Blue
Crego Deep Rose	Early Giant Peach Blossom
Peerless Pink	Am. Branching Purple
Heart of France	Am. Branching White
W1500 Lg. Pkt. 20c; $\frac{1}{4}$ Oz. 50c; Oz. \$1.60; $\frac{1}{4}$ Lb. \$5.00.	

AMERICAN BRANCHING ASTERS

The standard mid-season variety with broad incurved petals.

W1601 White	W1605 Purple
W1602 Flesh Pink	W1606 Crimson
W1603 Rose	W1607 Peach Blossom

ABOVE COLORS: Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 55c; Oz. \$1.80.
W1600 Variety Mixture. Lg. Pkt. 20c; $\frac{1}{4}$ Oz. 50c; Oz. \$1.60.

PRINCESS ASTERS

W1090 MIXED COLORS. A new type with deep crested centers surrounded by several rows of dainty plume-like guard petals. The 3-3½" blossoms are born on 2-2½' stalks. Free flowering, early and a good shipper.
Lg. Pkt. 30c; $\frac{1}{4}$ Oz. 65c; Oz. \$2.50.

CANADIAN 100% DOUBLES

W3782 CANADIAN CLEAR ROSE. Bright sparkling rose with no mauve nor magenta. Unusually free flowering.

W3783 CANADIAN ROSE and SALMON. A really outstanding heavily fringed variety of exquisite form and colors. Range includes light and dark shades of both rose and salmon.

W3780 CANADIAN ALL DOUBLE MIXTURE. A mixture of many shades of rose and salmon plus mauve and a little white. All the Canadian Doubles are 100% large flowering and produce dwarf compact bushy plants ideal for potting or garden culture.

ANY ONE OF ABOVE THREE COLORS: 500 seeds \$2.00; 1000 seeds \$3.50; 1/128 Oz. \$6.50; $\frac{1}{64}$ Oz. \$11.50.

VICTORIOUS DOUBLE

W3792 GAIETY. Large fully double flowers beautifully striped and mottled pink and white remind one of a tight cluster of apple blossoms. Plants dwarf and compact making it a good subject for pot plants.
500 seeds \$2.50; 1000 seeds \$4.00; 1/128 Oz. \$7.25; $\frac{1}{64}$ Oz. \$14.00.

DOUBLE AMERICA

W3772 DOUBLE AMERICA. The first 100% all double petunia ever created in America. Compact plants 1 ft. high and 1½ ft. across. Rose-pink, carnation-flowered blooms are produced from early summer until frost.
500 seeds \$1.25; 1000 seeds \$2.00; 1/128 Oz. \$3.50; $\frac{1}{64}$ Oz. \$6.50.

W3817 THE ART. Also called "Columbia." An exceptionally free-flowering fringed petunia in unusual color combinations of bright reds and white, mostly in blotches. Very effective for pot plant sales.
1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

W3813 THEODOSSIA. We know we have the best strain of this popular bright pink with golden center. Large and well fringed.

1000 seeds 60c; $\frac{1}{64}$ Oz. \$1.25; $\frac{1}{32}$ Oz. \$2.00; $\frac{1}{16}$ Oz. \$3.50; $\frac{1}{8}$ Oz. \$6.50.

NEW EARLY GIANTS

These Early Giants have just about reached perfection. They bloom early, are wilt resistant and the large flowers with broad gracefully intertwined petals are borne on long stems on which few laterals are produced.

Lg. Pkt. 1/4 Oz.	Oz.
W1822 Rose Marie. Bright rose	
W1823 Peach Blossom	
W1824 Light Blue	

\$3.50 \$8.50 \$3.00

EARLY BEAUTY ASTERS

W1900 Mixed Colors. One of the most desirable of the early flowering types with well formed flowers of good clear colors and excellent keeping qualities. Bloom with Cregos and American Branching. 2½-3' tall. This, as well as all our mixtures, is made by blending separate colors: white, shell pink, rose and purple.
Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 55c; Oz. \$1.80.

CREGO ASTERS

Also called "Ostrich Feather" Asters. Large flowers with long twisted petals. Bloom with Early Beauty and American Branching.

W1401 White	W1404 Azure Blue
W1402 Shell Pink	W1405 Purple
W1403 Deep Rose	

ABOVE COLORS: Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 55c; Oz. \$1.80.
W1400 Variety Mixture. Lg. Pkt. 20c; $\frac{1}{4}$ Oz. 50c; Oz. \$1.60.

Asters continued on next page

PEERLESS PINK

W1066. This is still the most popular light pink aster. Large double flowers on vigorous plants.
Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 55c; Oz. \$1.80.

HEART OF FRANCE

W1078. The gorgeous red color that is not duplicated in any other variety.
Lg. Pkt. 30c; $\frac{1}{4}$ Oz. 85c; Oz. \$2.75.

ROYAL ASTERS

W1300 Variety Mixture. Same form as American Branching but a little earlier. We blend equal amounts of white, shell pink, rose, lavender and purple for this mixture.
Lg. Pkt. 20c; $\frac{1}{4}$ Oz. 50c; Oz. \$1.60.

QUEEN OF THE MARKET

W1200 Variety Mixture. The best early. Comes into bloom in early August. Contains equal amounts of white, rose, lavender, purple.
Lg. Pkt. 20c; $\frac{1}{4}$ Oz. 45c; Oz. \$1.50.

NON-WILT RESISTANT ASTERS

If grown in uninfected soil these varieties are sturdy enough to give excellent results.

NEW CROWN ASTER

W1153 Crown Rose. This new Aster is a glorified Pompon with flowers 2" across which hold up extremely well for shipping. Plants are base branching, 2 to 2½' tall. Produces as many as a dozen stalks all blooming at the same time, making it possible to cut the whole plant at one time. The color is a warm light salmon pink.
Lg. Pkt. 30c; $\frac{1}{8}$ Oz. 70c; $\frac{1}{4}$ Oz. \$1.20; Oz. \$4.00.

IMBRICATED POMPONS

W1100 Mixed Colors. Similar to Pompon Chrysanthemums but providing colors not available in "mums." Planted close and grown under cloth the stems are good length for cutting. Grown outdoors the whole plant is cut at one time. Blooms early September. Rich scarlet, purple, lavender, rose and white in our mixture.
Lg. Pkt. 30c; $\frac{1}{4}$ Oz. 75c; Oz. \$2.75.

VICTORY GIANTS

W1700 Mixed Colors. Enormous flowers with shaggy reflexed petals. Long clean stems. Colors are light pink, shades of salmon, rose, shades of blue, white and striped. Earlier than the other large informal flowered types.
Lg. Pkt. 35c; $\frac{1}{4}$ Oz. 85c; Oz. \$3.00.

UPRIGHT SINGLE

W1830 Rainbow Mixture. Immense single daisy-like flowers with small bright yellow centers. Long graceful petals in shades of pink, rose, lavender and purple.
Lg. Pkt. 20c; $\frac{1}{4}$ Oz. 50c; Oz. \$1.60.

AGERATUM

We are continually working to true up our stocks of Ageratum and believe ours are now the most uniform available from seed.

Sow in January for spring pot plants and combinations; February for bedding plant sales.

W2011 LITTLE BLUE STAR. Particularly valuable because of its earliness and the abundance of small warm blue flower heads held well above the foliage.
Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 70c; Oz. \$2.50.

W2012 MIDGET BLUE. Very dwarf compact small leaved plants which are low mounds of soft blue all summer.
Lg. Pkt. 45c; $\frac{1}{8}$ Oz. 95c; $\frac{1}{4}$ Oz. \$1.70; Oz. \$5.25.

W2013 BLUE BEDDER. One of the finest varieties from seed since it produces such large flower clusters on uniformly dwarf plants.
Lg. Pkt. 30c; $\frac{1}{8}$ Oz. 60c; $\frac{1}{4}$ Oz. \$1.10; Oz. \$3.50.

W2014 BLUE BALL. The large showy flower clusters make this the most popular for pot plants, combinations and window boxes as well as borders.
Lg. Pkt. 35c; $\frac{1}{8}$ Oz. 70c; $\frac{1}{4}$ Oz. \$1.20; Oz. \$4.00.

ALYSSUM

		$\frac{1}{4}$ Oz.	Oz.	$\frac{1}{4}$ Lb.
W2020	Sweet, 1 ft.....	\$.15	\$.40	\$1.20
W2021	Little Gem, 8 in.....	.30	.90	2.50
W2022	Carpet of Snow, 5 in..	.30	.90	2.50
W2023	Violet Queen40	1.25	4.00

ASPARAGUS FERN

	100 seeds	1000 seeds	
W2090	Plumosus Nanus	\$.35	\$2.75
W2091	Sprengerii30	2.25

BALSAM

W2110 BRILLIANT MIXTURE. The ever popular Lady Slipper is always in demand for spring plant sales.
 $\frac{1}{4}$ Oz. 30c; Oz. 90c.

W2115 BUSH FLOWERED MIXED COLORS. Flowers like camellias are held above the foliage on compact bushy plants 18" high. Colors: white, rose and red.
Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 60c; Oz. \$1.80.

BEGONIAS

The following are the outstanding varieties in the dwarf to intermediate class of fibrous rooted begonias. All of them make bushy plants that are unexcelled as pot plants, bedding material or in combinations.

W2132 PRIMA DONNA. Rose pink shading to carmine at the center.

W2133 LUMINOSA. Deep fiery scarlet with dark foliage.

W2130 MIXED COLORS. A well balanced blend of white, pinks and red.

ANY ONE OF ABOVE COLORS: 1000 Seeds, 50c;
 $\frac{1}{4}$ Oz. \$1.50; $\frac{1}{2}$ Oz. \$2.25.

W2134 KING OF REDS. Compact plants, a mass of glowing scarlet blooms and bronzy foliage. The most popular red.

1000 Seeds 75c; $\frac{1}{4}$ Oz. \$2.50; $\frac{1}{2}$ Oz. \$4.50.

BELLIS (English Daisy)

W2140 Mixed Colors. Planted in July or August they are handled like pansies and forget-me-nots and are just as popular as these two for spring bedding plants. Our mixture contains white, pink and red.

Lg. Pkt. 35c; $\frac{1}{8}$ Oz. 90c; $\frac{1}{4}$ Oz. \$1.35; Oz. \$4.50.

BROWALLIA

W2184 ELATA BLUE. Neat bushy plants 15 inches high completely covered with small flowers of indigo blue.
Lg. Pkt. 15c; $\frac{1}{4}$ Oz. 40c; Oz. \$1.10.

CASTOR BEAN (Ricinus)

W2500 Tropical Mixture. Oz. 25c; $\frac{1}{4}$ Lb. 75c.

CALENDULA

Planted in late June to mature in September and October, Calendulas will escape injury from insect pests and develop into large, long stemmed stock. Earlier plantings may be protected by DDT.

COLEUS

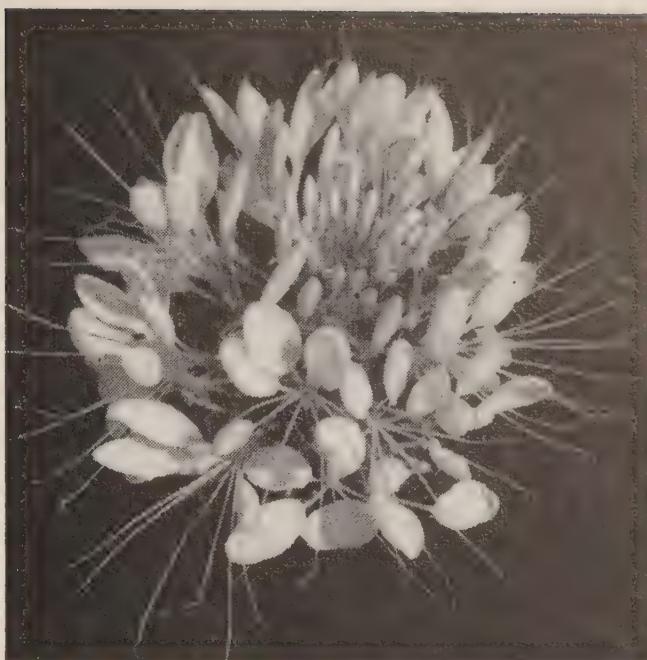

W2511 HARRIS' EXTRA FANCY MIXTURE.

We grow this seed ourselves, constantly selecting for good color and form, and know it is far superior to any coleus on the market. The color combinations are unusually showy; all dull and unattractive ones have been taken out. The plants are low and compact.

Lg. Pkt. 50c; 1/8 Oz. 90c; 1/16 Oz. \$2.75;
1/8 Oz. \$5.00.

W2510 RAINBOW MIXTURE. A good strain containing many attractive colors.

Lg. Pkt. 30c; 1/16 Oz. 75c; 1/4 Oz. \$2.00; Oz. \$6.50.

The new white Cleome, Helen Campbell.

COSMOS

Cosmos have become a profitable cut flower crop since the introduction of Sensation Hybrids because of their enormous size, earliness and good keeping qualities.

W2469 RADIANCE. All America winner 1948. Deep rosy red with broad band of crimson in center. Larger than the Sensations and with strong erect growth. Long lasting cut flower.

Lg. Pkt. 30c; 1/4 Oz. 60c; Oz. \$2.00.

Lg. Pkt. 1/4 Oz. Oz.

W2475 Orange Flare15	.30	.85

DAHLIAS

W2606 UNWIN'S DWARF HYBRIDS. A February sowing of these annual dahlias will provide an abundance of long stemmed cut flowers from August until October. Colors range from vivid reds, through soft pinks, yellow and orange to pale buff. Plants 1 1/2 to 2 ft.

Lg. Pkt. 25c; 1/8 Oz. 40c; 1/4 Oz. 70c; Oz. \$2.50.

DIANTHUS (Pinks)

W2670 HEDDEWEGI DOUBLE MIXED COLORS. Large double and semi-double fragrant blooms in a wide range of colors.

1/4 Oz. 35c; Oz. \$1.15.

W2680 HEDDEWEGI GAIETY. Large single deeply fringed flowers in an unusual array of colors. Very popular edging plant.

Lg. Pkt. 30c; 1/4 Oz. 60c; Oz. \$2.00.

DRACAENA (Spikes)

W2750 INDIVISA. Still very popular for window box and urn plantings.

Oz. 75c; 1/4 Lb. \$2.25.

DUSTY MILLER

W2355 CINERARIA MARITIMA, DIAMOND. Fine cut foliage; uniform growth. The best Dusty Miller for edging, window boxes and combinations.

1/4 Oz. 25c; Oz. 85c.

FORGET-ME-NOTS (*Myosotis*)

W3493 ALPESTRIS, ROYAL BLUE. The standard biennial type so popular for spring plant sales with pansies and bellis.
Lg. Pkg. 35c; $\frac{1}{8}$ Oz. 50c; $\frac{1}{4}$ Oz. 90c; Oz. \$3.00.

W3496 VICTORIA, WHITE. The Victoria varieties are very compact and upright admirably adapted for borders, baskets, combinations and bedding.

W3498 VICTORIA, BLUE

EITHER OF ABOVE COLORS: Lg. Pkt. 40c; $\frac{1}{8}$ Oz. 65c; $\frac{1}{4}$ Oz. \$1.10; Oz. \$3.75.

GAILLARDIA

W2900 DOUBLE ANNUAL, MIXED COLORS.

Double flowers of orange, yellow, red, rose and many variegations of these colors. Long lasting and popular cut flower.

Lg. Pkt. 20c; $\frac{1}{4}$ Oz. 50c; Oz. \$1.60.

GOURDS

W2985 SMALL SORTS MIXED. A good mixture of the most easily grown and popular varieties. The fruits find a ready sale in the autumn.
 $\frac{1}{4}$ Oz. 20c; Oz. 45c; $\frac{1}{4}$ Lb. \$1.50.

GYPSOPHILA (*Baby's Breath*)

W2992 COVENT GARDEN. No other variety has the large flowers and good keeping qualities of this one. Make successive sowings several weeks apart.
Oz. 30c; $\frac{1}{4}$ Lb. 85c; Lb. \$2.25.

HELIOTROPE

W3132 DWARF REGALE MIXED. It is not necessary to grow Heliotrope from cuttings. Our selected strain of the Dwarf Regale produces compact plants uniformly 15" tall with large fragrant heads of rich purple.
Lg. Pkt. 40c; $\frac{1}{8}$ Oz. 75c; $\frac{1}{4}$ Oz. \$1.25.

HELICHRYSUM (*Strawflowers*)

W3070 DOUBLE MIXED COLORS. Easily grown from seed sown outdoors in May. Always popular for fall sales.
Lg. Pkt. 15c; $\frac{1}{4}$ Oz. 30c; Oz. \$1.00.

IMPATIENS (*Sultana or Patience*)

W3180 DWARF HYBRIDS. An improved old time favorite growing only 6" high. Ideal for spring pot plants or for summer bedding in the shade. Very large florets, pink, rose, salmon and scarlet.
Lg. Pkt. 75c; $\frac{1}{32}$ Oz. \$1.75; $\frac{1}{16}$ Oz. \$3.25.

LOBELIA

W3300 CRYSTAL PALACE COMPACTA. Rich dark blue flowers and dark, often bronzy foliage.
Lg. Pkt. 35c; $\frac{1}{8}$ Oz. 45c; $\frac{1}{4}$ Oz. 85c; Oz. \$3.00.

W3301 CAMBRIDGE BLUE. Light blue flowers above light green foliage.
 $\frac{1}{8}$ Oz. 45c; $\frac{1}{4}$ Oz. 85c.

W3302 BEDDING QUEEN. Very dwarf with medium green foliage; large deep blue flowers with white eye.
 $\frac{1}{8}$ Oz. 45c; $\frac{1}{4}$ Oz. 85c.

"I've been buying your flower seeds for thirty years and always tell people most of them come from Harris' in Rochester, N. Y."
E. M. Burdett, East Braintree 84, Mass., 4/3/50

The New Regal Larkspur.

LARKSPUR

On the basis of this year's trials and the introduction of some new colors in the Regals, we believe the following list contains the finest larkspurs available today. The Regals stand out because of their vigorous growth, very large florets which are shatter resistant and the abundance of long-stemmed cut flower material they provide. The Imperials with their clean upright growth and wide range of colors are still outstanding for outdoor or greenhouse work.

A sowing in late August or September produces a good early summer cut flower crop.

REGALS

W3261 White	W3266 Pink
W3262 Rose	W3267 Lilac
W3265 Dark Blue	W3268 Salmon Rose

ANY ONE OF ABOVE COLORS: Lg. Pkt. 30c; $\frac{1}{4}$ Oz. 60c; Oz. \$1.80; $\frac{1}{4}$ Lb. \$6.00.

W3260 REGAL VARIETY MIXTURE. Our own mixture of the above six colors.
Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 50c; Oz. \$1.65; $\frac{1}{4}$ Lb. \$5.10.

IMPERIAL or BASE BRANCHING

W3248 Los Angeles Improved. Salmon pink.
W3252 Carmine King, Improved. Bright carmine.
W3254 Blue Bell. Mid blue.
W3255 Lilac Spire.
W3256 White King. Large white.
W3258 Blue Spire. Deep violet blue.
W3264 Supreme Salmon.

ANY ONE OF ABOVE COLORS: Lg. Pkt. 20c; $\frac{1}{4}$ Oz. 40c; Oz. \$1.10; $\frac{1}{4}$ Lb. \$3.50.

W3250 IMPERIAL VARIETY MIXTURE. Our own mixture of the above seven best kinds.
Lg. Pkt. 15c; $\frac{1}{4}$ Oz. 35c; Oz. \$1.00; $\frac{1}{4}$ Lb. \$3.15.

"I planted some of your New Larkspur Mixture in the early spring and the results created quite a sensation. I put in another row of seed from another supplier, but the Harris row was much superior to the other."

Frank B. Hower, West Reading, Pa., 8/18/50

LUPINS

W3315 HARTWEGI MIXED COLORS. Good long stemmed annual cut flower for greenhouse or garden.
 $\frac{1}{4}$ Oz. 20c; Oz. 60c.

MARIGOLDS

A February sowing produces pot plants for Easter. April plantings give transplants for which there is an unlimited demand. We have taken the guess-work out of ordering by offering only the best varieties in the various classes.

DWARF DOUBLE MARIGOLDS

W3413 GOLD CREST. Grows only 6 to 8 in. high but has 2 in. golden yellow flowers. The center is of crested quilled petals which are surrounded by several rows of guard petals. Very early, free flowering.

W3414 YELLOW PYGMY. Small yellow double flowers on very compact dwarf plants. Excellent for early potted plants.

W3416 SPRY. Very early flowering double golden yellow and red. Especially good for early pots.

W3417 SCARLET GLOW. Double flowers all red and mahogany.

W3418 BUTTERBALL. Harmony type with both the crested center and guard petals a clear golden yellow very lightly tipped with red.

W3422 HARMONY. Still one of the most popular. Golden center with red guard petals.

W3432 SUNKIST. Masses of rich orange flowers an inch in diameter. Uniformly dwarf, compact.

ANY ONE OF ABOVE VARIETIES: Lg. Pkt. 20c; 1/4 Oz. 45c; Oz. \$1.50.

W3410 HARRIS' DWARF VARIETY MIXTURE. Made up of equal parts of the finest, very dwarf double varieties: Spry, Butterball, Sunkist, Pygmy and Gold Crest. Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.25.

DWARF SINGLE MARIGOLDS

W3433 FLASH. The single flowers 1 1/2" across are a bright combination of colors from vivid red through burnished copper to bright yellow. Plants uniformly compact, 18 in. tall. Blooms in 8 weeks from seed. Lg. Pkt. 20c; 1/4 Oz. 45c; Oz. \$1.50.

W3434 NAUGHTY MARIETTA. All-America winner in '47. Plants uniformly 15" tall. Single flowers, a warm yellow with mahogany spot at base, are 2" across. Unsurpassed for bedding or cut flowers.

Lg. Pkt. 25c; 1/4 Oz. 75c; Oz. \$2.00.

W3421 LITTLE GIANT. (Scotch or *Tagetes signata*.) An improved strain. Small single yellow flowers and finely cut foliage.

TALL VARIETIES

Chrysanthemum-Flowered Marigolds

W3408 MAMMOTH MUM. Recently introduced, this has become a "must" for plant sales, outdoor and greenhouse cut flowers. Color a soft yellow; 3 to 3 1/2 in. across.

Lg. Pkt. 25c; 1/4 Oz. 75c; Oz. \$2.00.

Carnation-Flowered

W3428 REAL GOLD. Enormous flowers with petals gracefully arranged. Color soft orange shaded yellow—a much needed shade between Guinea Gold and Yellow Supreme. Blooms early. Ht. 20-25". Lg. Pkt. 25c; 1/4 Oz. 75c; Oz. \$2.00.

MATRICARIA (Feverfew)

W3441 DOUBLE WHITE. There is a general demand for long stemmed white flowers during the summer months. Sown in January and planted out in the spring Matricaria is ready for cutting in July and August.

Lg. Pkt. 25c; 1/8 Oz. 40c; 1/4 Oz. 75c.

MIGNONETTE

W3431 FLORISTS' STRAIN. A new early strain with large bright flower spikes on long stems. Because of its fragrance, very popular as a filler for bouquets.

1/4 Oz. 30c; Oz. \$1.00.

MORNING GLORY

W3473 BLUE STAR. Very large blooms of sky blue which is accentuated by five deeper blue midribs which form a star. All America winner in '48. Plants in 2 1/4's will sell well.

Lg. Pkt. 40c; 1/4 Oz. 90c; Oz. \$3.00.

W3475 HEAVENLY BLUE. Grow some of these in our Bird Plant Bands. The plants are in good demand and bring a good price. Ours is by far the most satisfactory strain.

Lg. Pkt. 15c; 1/4 Oz. 25c; Oz. 75c.

NEMESIA

W3650 NANA COMPACTA, TRIUMPH MIXED. An ideal border plant for areas where summers are not extremely hot, since it blooms continuously; very showy too as a pot plant or in combinations. Small orchid-like flowers range from cream through yellow, rose, scarlet and crimson flecked with contrasting colors.

Lg. Pkt. 15c; 1/4 Oz. 60c; Oz. \$2.00.

NICOTIANA (Tobacco Plant)

	Lg. Pkt.	1/4 Oz.	Oz.

W3672 Crimson Bedder25	.60	2.00
W3670 Mixed Colors15	.20	.60

NIEREMBERGIA (Cupflower)

W3664 PURPLE ROBE. The new deep lavender cup-flower so popular for edgings. Uniformly dwarf and compact. Seedlings are more vigorous than plants from cuttings.

Lg. Pkt. 40c; 1/32 Oz. \$1.65.

PORTULACA

W3870 DOUBLE MIXED COLORS. We make up this mixture from separate colors: scarlet, salmon, pink, striped, white, orange and yellow. One of the most admired items in our Trial Grounds. Plants of double portulaca are in great demand at our Roadside Stand.

Lg. Pkt. 35c; 1/8 Oz. 75c; 1/4 Oz. \$1.35; Oz. \$4.25.

PHLOX

GRANDIFLORA

There is an increasing demand for plants of this gay annual. By comparison with other stocks in our Trial Grounds, we are convinced that we have the finest available. Plants of the Grandifloras are uniformly 15" to 16" tall.

W3860 MIXED COLORS. A gorgeous blend of white, rose, scarlet, yellow, purple, rose and scarlet with white centers.

Lg. Pkt. 25c; 1/8 Oz. 45c; 1/4 Oz. 80c; Oz. \$2.50.

DWARF TYPE

W3850 DWARF MIXED COLORS. Compact plants 6 to 8 in. high. Preferred by many for borders and mass planting. Ours is a mixture of a wide range of clear warm colors.

Lg. Pkt. 35c; 1/8 Oz. 60c; 1/4 Oz. \$1.00; Oz. \$3.25.

PANSIES

W3705 SWISS GIANTS. Magnificent Mixture.

By actual tests every year on our farm, this strain of mammoth-flowered pansies has proved to be the best. The color range includes the dark browns and reds as well as the bright shades, and is the choice of pansy enthusiasts.
Lg. Pkt. 40c; 1/8 Oz. \$1.35; 1/4 Oz. \$2.15; Oz. \$6.50; 1/4 Lb. \$23.00.

W3704 DWARF SWISS GIANTS. MIXED COLORS.

A dwarf strain of Swiss Giants having the immense size and all the colors of the finest Swiss Giants. The dwarf habit of growth makes them especially desirable for spring plant sales.

Lg. Pkt. 40c; 1/8 Oz. \$1.50; 1/4 Oz. \$2.25; Oz. \$7.00; 1/4 Lb. \$26.00.

W3703 MAPLELEAF GIANTS. MIXED COLORS.

These are among the largest flowered of any pansies. Stems are long, the plants large, the colors rich and varied.

Lg. Pkt. 45c; 1/8 Oz. \$1.75; 1/4 Oz. \$2.75; Oz. \$9.00.

W3700 EARLY MARKET. MIXED COLORS.

The finest low priced mixture we have ever offered. They start flowering very early and the plants are low and compact with flowers in a pleasing range of bright colors held well above the foliage.

Lg. Pkt. 30c; 1/8 Oz. \$1.25; 1/4 Oz. \$2.00; Oz. \$6.00; 1/4 Lb. \$22.00.

GIANT PANSIES SEPARATE COLORS

W3735 WHITE SWISS.

Large creamy white. Compact plants bloom continuously through the summer.

W3736 SWISS ROSE SHADES.

Fills a long felt need for the "pink" pansies your customers always ask for.

W3737 CORONATION GOLD.

Rich golden yellow so popular for bedding and edging.

W3738 SWISS BLUE.

Large dark blue that combines beautifully with the other colors.

W3739 SWISS RED.

Rich mahogany red with just enough variation to give them "class."

ANY ONE OF ABOVE COLORS: Lg. Pkt. 40c; 1/8 Oz. \$1.60; 1/4 Oz. \$2.50; Oz. \$7.50.

VIOLAS

Because they produce such an abundance of bloom over so long a season, Violas are among the most popular bedding plants.

Lg. Pkt. 1/8 Oz. 1/4 Oz.

W3762 CHANTREYLAND, Apricot \$40 \$95 \$1.75

W3760 MIXED COLORS..... .30 .90 1.50

Ask for our new leaflet on Pansy growing.

SCABIOSA

We have always thought of Scabiosas as a side line for cut flowers, but this is no longer true since the Imperial Giants were introduced. Compared with older varieties, the plants are much sturdier, stand up well in hot weather and bloom until freezing weather. The flowers are larger, and do not shatter when cut; stems are longer and colors richer and more varied.

W4665 IMPERIAL GIANTS MIXED. A beautiful blend of white, pinks, salmon, scarlet, red, blue and lavender.

Lg. Pkt. 20c; 1/4 Oz. 45c; Oz. \$1.50.

W4655 BLUE MOON. A very large bright blue.

Lg. Pkt. 20c; 1/4 Oz. 45c; Oz. \$1.50.

SCHIZANTHUS

W4635 DR. BADGER'S IMPROVED HYBRIDS. Sown in late winter these make beautiful specimens in 5 in. pots for Mother's Day. Rightly called "Poor Man's Orchid" since they resemble spray orchids. Of medium height, this is the finest variety for pots, bouquets and corsages.

Lg. Pkt. 35c; 1/8 Oz. 65c; 1/4 Oz. \$1.25; Oz. \$4.00.

SALVIA

AMERICAN GROWN SEED

W4600 HARRIS' BONFIRE. With florists, the name of Harris has become synonymous with superior quality and high germinating salvia seed. Ours is a strain of our own selection grown for us in the East by a salvia specialist. The spikes are large, long, and the florets placed very closely together. The growth is as uniform as though it had been sheared. The color is a brighter shade than any other variety, and the germination higher. If you want the best, plant our American Grown Stock.

Lg. Pkt. 30c; 1/8 Oz. 65c; 1/4 Oz. \$1.25; Oz. \$4.00; 1/4 Lb. \$14.00.

W4605 DWARF HARBINGER. This dwarf and very dependable early flowering salvia is much in demand for spring pot and summer bedding plants. Leaves are a deep bluish green.

Lg. Pkt. 40c; 1/8 Oz. \$1.25; 1/4 Oz. \$2.00; Oz. \$6.50.

W4604 ST. JOHN'S FIRE. This variety has all the most desirable qualities of a dwarf bedding plant. In full bloom in August remaining in perfect condition until frost. Ten to twelve inches tall and very uniform, compact and upright.

Lg. Pkt. 75c; 1/8 Oz. \$1.40; 1/4 Oz. \$2.50; Oz. \$7.50.

W4606 ROSE FLAME. A new salmon-pink Salvia that is really a beauty. Starts blooming in July from an early sowing. Uniform, vigorous branching plants average 24" in height. Better have some plants ready for spring sales. It is proving to be popular.

Lg. Pkt. 75c; 1/8 Oz. \$1.40; 1/4 Oz. \$2.50; Oz. \$7.50.

W4603 FARINACEA, Blue Bedder. Ideal for cutting. The 2 1/2 to 3 ft. plants produce an abundance of graceful sprays of soft blue.

Lg. Pkt. 35c; 1/8 Oz. 65c; 1/4 Oz. \$1.25; Oz. \$4.00.

SALPIGLOSSIS

W4500 LARGE FLOWERED MIXED. For cut flowers indoors or out there is no flower of richer color.

Lg. Pkt. 15c; 1/4 Oz. 30c; Oz. \$1.00.

STOCKS

HARRIS' "SURE-TO-BLOOM" STOCKS

Usually thought of as bedding plants, but grown also as pot plants for spring. The soft colors, spicy fragrance and neat compact growth adapt them admirably to this use. Our strain will bloom 100% from seed sown outdoors in May and is practically 100% double.

Ultimate height 15 to 18 inches.

W6021 White

W6022 Flesh Pink

W6023 Blood Red

W6024 Azure Blue

W6025 Dark Blue

W6026 Canary Yellow

W6027 Rose

ANY ONE OF ABOVE COLORS: Lg. Pkt. 30c; 1/4 Oz. 70c; Oz. \$2.10.

W6020 VARIETY MIXTURE. Lg. Pkt. 20c; 1/4 Oz. 60c; Oz. \$1.80.

NEW GIANT IMPERIAL STOCKS

W6000 VARIETY MIXTURE. This is the branching type with a large percentage of doubles. One of the most profitable cold house bench crops for the grower-retailer who wants cut flower material over a long period. Requires 4 1/2 months to mature a crop for Valentine's and Mother's Day.

Lg. Pkt. 35c; 1/8 Oz. 45c; 1/4 Oz. 85c; Oz. \$3.00.

SNAPDRAGONS

HARRIS' COLOSSAL

We can safely boast that these Harris grown snapdragons will out-perform all other varieties under adverse weather conditions. Each year comparative trials here and in other parts of the East prove this. The husky plants produce long stemmed spikes of large, beautifully formed florets. Colors are clear and attractive. Although they are not the so-called "Rust Resistant" type, we have never had rust on any of our plantings.

W5031 White	W5034 Yellow
W5032 Pink Shades	W5035 Crimson

W5030 MIXED COLORS. Lg. Pkt. 30c; 1/8 Oz. 65c; 1/4 Oz. \$1.25; Oz. \$4.00.	

TWO NEW SNAPDRAGONS

W5039 VELVET GIANT. This All-America winner for 1947 stands out in any planting because of its tall, sturdy spikes and rich green foliage. The large, well formed florets of vivid crimson with a gold undertone are closely spaced on tall stems. (*Not "rust resistant".*)

Lg. Pkt. 35c; 1/8 Oz. 80c; 1/4 Oz. \$1.50; Oz. \$4.50.

W5040 TETRAPLOID MIXED COLORS. Described by the introducer as stronger, huskier, and slightly taller (2 1/2 ft.) than varieties with the normal number of chromosomes. Flowers large and often ruffled; deep green foliage; wide range of colors. (*Not "rust resistant".*)

Lg. Pkt. 35c; 1/8 Oz. 80c; 1/4 Oz. \$1.50; Oz. \$4.50.

TALL GIANT-FLOWERED

Snapdragons

For areas where rust is a problem these California grown rust resistant "snaps" are the best. Stems are 2 to 2 1/2 feet long, florets are good size and the plants produce abundant bloom. Seed should be sown in early February for spring plant sales. (*Rust Resistant*)

W5051 Alaska, White	W5056 Copper Queen
W5053 Rosalie, Salmon	W5057 Yellow Giant
W5054 Cherry Rose	W5058 Pink Sensation
W5055 Crimson	W5059 Campfire

ANY ONE OF ABOVE COLORS: Lg. Pkt. 30c; 1/8 Oz. 65c; 1/4 Oz. \$1.10; Oz. \$3.50.

W5050 VARIETY MIXTURE. Lg. Pkt. 20c; 1/8 Oz. 55c; 1/4 Oz. 95c; Oz. \$3.00.

HALF-TALL SNAPDRAGONS

W5115 NEW COLOR MIXTURE. Rust resistant and growing 15 to 18 inches tall, these are admirably suited to border and mass plantings. Made up of bright colors, they are showy from early summer until late fall. If cut back and mulched over winter, they can often be carried over for spring bloom the following year.

Lg. Pkt. 25c; 1/8 Oz. 45c; 1/4 Oz. 85c; Oz. \$3.00.

SNOW-ON-THE-MOUNTAIN

W5192 Euphorbia. 1/4 Oz. 20c; Oz. 50c.

STATICE

The most popular Everlasting for winter bouquets as well as a very useful summer cut flower. Seed should be sown early under glass. Likes a warm light soil.

	1/4 Oz.	Oz.	1/4 Lb.
W6171 Sinuata White			
W6172 Sinuata Superb Rose	\$1.15	.45	\$1.60

W6170 Sinuata Mixed Colors			

SWEET PEAS

EARLY FLOWERING

For sections with hot, dry summers where sweet peas are difficult to grow, these are by far the best variety for outdoor planting.

W7002 Gardenia. Very large White	Oz. 1/4 Lb.
W7005 Coquette. Coral Pink	
W7007 Laddie Improved. Light Rose	
W7008 Treasure Island. Golden Orange	
W7009 Sparks. Poppy Scarlet	
W7010 Top Sergeant. Blood Red	\$0.50 \$1.50
W7011 Star. Salmon Rose	
W7012 Rhumba. Golden Cerise	
W7013 Waves. Rosy Lavender	
W7014 Top Hat. Deep Blue	
W7050 MIXED COLORS	Lb. \$4.50 .40 1.35

SPRING FLOWERING (Cuthbertson)

W7110 MIXED COLORS. In areas where sweet peas are readily grown this new strain is very vigorous, producing an abundance of large fragrant blossoms on extra long stems. For an indoor crop they will bloom late into the spring. Our mixture is made from separate varieties and includes white, cream, pink, lavender, blue, scarlet and crimson. Oz. 55c; 1/4 Lb. \$1.65; Lb. \$5.50.

SPENCER OR SUMMER FLOWERING

The wonderful large wavy or "orchid flowered" sweet peas for outdoor summer blooming.

	Oz. 1/4 Lb.	Lb.
W7501 Gigantic. Pure White		
W7502 Pinkie. Rose Pink		
W7503 Ecstasy. Blush Pink		
W7504 Master Cream		
W7505 Salmon Gigantic		
W7506 Red Rover. Crimson		
W7507 Welcome. Scarlet		
W7508 Pirate Gold. Orange		
W7510 King Lavender		
W7511 Flagship. Navy Blue		
W7675 SPECIAL VARIETY MIXTURE. A well balanced blending of the 10 separate varieties described above.	\$0.30 \$0.85 \$2.50	
Oz. 25c; 1/4 Lb. 75c; Lb. \$2.25.		

W7550 SUPERB MIXTURE. A well balanced mixture of a wide selection of colors of the Spencer Varieties. Oz. 20c; 1/4 Lb. 60c; Lb. \$2.00.

RUFFLED SWEET PEAS

W7600 MIXED COLORS. A beautiful type with large wavy petals and including a wide range of attractive colors.

Oz. 25c; 1/4 Lb. 75c; Lb. \$2.25.

SUNFLOWER

W6195 SUNGOLD. A sunflower that grows only 4 to 5 ft. high, but produces large, 100% double flowers in great profusion. Attracts attention wherever it is grown.

1/4 Oz. 25c; Oz. 75c.

THUNBERGIA (Clock Vine)

W7940 Alata. This little vine having yellow and creamy white flowers with black centers is increasingly popular for urns and window boxes.

1/4 Oz. 30c; Oz. \$1.00.

TORENIA (Wishbone Flower)

W7955 Fournieri Compacta. We have an even compact strain of this charming bedding and edging plant. Stands up better than pansies in hot weather. The inch long flowers have a deep lavender standard and rich purple lip with a bright yellow blotch.

1/32 Oz. 40c; 1/16 Oz. 75c; 1/8 Oz. \$1.25.

Tithonia Torch is an All-American winner this year.

TITHONIA, TORCH

W7920. A new All America winner. Vivid orange-scarlet blooms on 4 ft. plants. Starts blooming the last of August unlike a Tithonia introduced some years ago. It is going to receive wide-spread publicity so be ready with plants for your customers.

**Lg. Pkt. 50c; 1/8 Oz. \$1.25; 1/4 Oz. \$2.00;
Oz. \$6.50.**

ZINNIAS

A profitable spring plant crop because seedlings are just as satisfactory for plant sales as are the transplants. Seed may be sown in a hotbed in late April or early May for these.

GIANT-FLOWERED ZINNIAS

The following list contains the best of Giant and Dahlia Flowered types.

Lg. Pkt. 1/4 Oz. Oz.

W8131 <i>Purity</i> , White			
W8137 <i>Miss Willmott</i> , Soft Pink			
W8146 <i>Violet Queen</i> , Dark Purple			
W8147 <i>Cherry Queen</i> , Rose Scarlet			
W8149 <i>Illumination</i> , Bright Pink			
W8151 <i>Orange King</i> , Orange			
W8152 <i>Oriole</i> , Orange and Gold			
W8153 <i>Exquisite</i> , Bright Rose, deeper center	\$.20	\$.40	\$1.10
W8154 <i>Canary Bird</i> , Yellow			
W8155 <i>Crimson Monarch</i>			
W8156 <i>Golden Dawn</i> . Deep Yellow			
W8157 <i>Will Rogers</i> , Scarlet			

W8120 MAGNIFICENT VARIETY MIXTURE. A special mixture of all the kinds described above.
**Lg. Pkt. 15c; 1/4 Oz. 30c; Oz. 90c; 1/4 Lb. \$3.00;
Lb. \$9.00.**

W8150 GOLD MEDAL MIXTURE. A good quality lower priced mixture containing all the colors and shades grown as a mixture.

**Lg. Pkt. 15c; 1/4 Oz. 25c; Oz. 75c; 1/4 Lb. \$2.50;
Lb. \$7.50.**

A NEW GIANT ZINNIA MIXTURE

W8160 Giant "Two Tone" Light Color Mixture. Enormous flowers in pastel shades of rose, yellows, buff salmons, etc. The petals shade to yellow and gold at the base giving the flowers a two tone effect.
Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.10; 1/4 Lb. \$3.50.

POMPON ZINNIAS

The flowers are small, full double and born in profusion eight weeks from sowing.

W8231 <i>White Gem</i>	W8236 <i>Orange Gem</i>
W8232 <i>Salmon Gem</i>	W8237 <i>Purple Gem</i>
W8233 <i>Yellow Gem</i>	W8238 <i>Black Ruby Gem</i>
W8234 <i>Scarlet Gem</i>	W8239 <i>Lilac Gem</i>

ANY ONE OF ABOVE COLORS: Lg. Pkt. 15c; 1/4 Oz. 30c; Oz. \$1.00.

W8230 VARIETY MIXTURE. Lg. Pkt. 15c; 1/4 Oz. 25c; Oz. 75c; 1/4 Lb. \$2.50.

ZINNIA GRACILLIMA

W8225 RED RIDING HOOD. Bright scarlet bedding plant 18 in. tall, producing masses of small, double blooms all summer.

Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.10.

CUT-&-COME-AGAIN

The medium size of this class makes them ideal for cut flowers. Many florists sow 1/2 lb. or more outdoors in drill rows. These three are the most desirable colors developed thus far.

	Lg. Pkt. 1/4 Oz.	Oz.	1/4 Lb.
W8262 <i>Salmon Rose</i>	\$.15	\$.30	\$1.00
W8263 <i>Spun Gold</i>			\$3.00
W8264 <i>Scarlet</i>			

W8260 SUNSHINE TINTS. A mixture of many new and unusual shades not yet available in separate colors. Be sure to include them in your zinnia plantings.
Lg. Pkt. 15c; 1/4 Oz. 30c; Oz. 90c; 1/4 Lb. \$2.75.

FANTASY ZINNIAS

W8285 MIXED COLORS. If well grown these are the most artistic of all zinnias, with their curled and twisted petals. Medium size flowers that make ideal cut flowers. The mixture contains a wide range of attractive colors.

Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.10.

MEXICAN ZINNIAS

W8280 HAAGEANA. Mixed Colors. The small single, semi-double and double blossoms an inch or less in diameter are variegated mahogany, red, orange, yellow and cream, no two exactly alike in their markings. Height 12 to 15 inches. Continuous bloom. Since they are slower than the other zinnias, plant them a week or ten days earlier for sale as seedlings or transplants.
Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.10.

CUPID ZINNIAS

W8220 VARIETY MIXTURE. A good bedding type more dwarf in habit than the Pompons bearing a profusion of small double flowers.
Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.25.

VERBENAS

MAMMOTH FLOWERING

Home gardeners will buy all the plants of verbenas you can grow. Since seed is slow to germinate sow it the last of February or early March in 65° - 70° soil.

W8003 <i>Salmon Pink</i>	W8006 <i>Royal Blue</i>
W8004 <i>Lavender Glory</i>	W8007 <i>Mounty. Red</i>
W8005 <i>Royale. Purple</i>	W8008 <i>Snowstorm</i>

ANY ONE OF ABOVE COLORS: Lg. Pkt. 25c; 1/8 Oz. 40c; 1/4 Oz. 75c; Oz. \$2.60.

W8015 VARIETY MIXTURE. Lg. Pkt. 25c; 1/8 Oz. 40c; 1/4 Oz. 65c; Oz. \$2.25.

VINCA ROSEA (Periwinkle)

W8050 MIXED COLORS. A "fool proof" annual that thrives in sun or shade, wet or dry weather. Grow some plants for your "good gardener" trade. Our mixture is made from separate colors —white, white with pink center, rose, and pink with darker center.

Lg. Pkt. 25c; 1/4 Oz. 65c; Oz. \$2.00.

HARDY PERENNIAL SEED

The following list contains those perennials grown most successfully from seed. You will find our stocks especially satisfactory for northern conditions, since many of them are selected and grown here at Moreton Farm.

Try growing perennials in Bird Vita Bands (*See inside back cover*) and save time and money in handling them for spring sale.

AQUILEGIA (Columbine)

W2074 HARRIS' EXHIBITION HYBRIDS. Vigorous plants producing large long-spurred flowers in a wide range of colors. Our breeding and selection have produced a strain that surpasses many in our trials.
Lg. Pkt. 35c; 1/4 Oz. 85c; Oz. \$3.00.

W2075 LONG SPURRED BLUE SHADES.
Lg. Pkt. 40c; 1/4 Oz. \$1.00.

CARNATION

W2310 HARRIS' HARDY. Mixed Colors. There is always a demand for plants of this hardy perennial. Seed of our own growing insures sturdy stock. Contains a large percentage of doubles and a fine range of colors.
Lg. Pkt. 50c; 1/4 Oz. \$2.25; Oz. \$7.00.

CAMPANULA (Canterbury Bells)

W2230 CUP AND SAUCER MIXED COLORS.
Lg. Pkt. 20c; 1/4 Oz. 50c; Oz. \$1.50.

W2231 White W2233 Deep Blue
W2232 Rose W2234 Light Blue

ANY ONE OF ABOVE COLORS: Lg. Pkt. 25c; 1/4 Oz. 60c; Oz. \$2.00.

W2240 DOUBLE MIXED COLORS. Lg. Pkt. 20c; 1/4 Oz. 50c; Oz. \$1.50.

W2249 ALL VARIETIES MIXED COLORS.
Lg. Pkt. 20c; 1/4 Oz. 30c; Oz. \$1.00.

DELPHINIUM

The new Pacific Hybrids are a "must" for anyone growing perennial plants. Our planting for a seed crop has been most impressive, blooming continuously from late June until September. Large vigorous plants; tall sturdy spikes; florets very large and double.

W2642 Pacific Giants, Galahad. Pure White.

W2662 Pacific Giants, Guinevere. Light pinkish lavender with white bee.

W2663 Pacific Giants, Lancelot. Clear soft lilac with white bee.

W2664 Pacific Giants, Blue Bird. Bright, medium-blue with white bee.

W2666 Pacific Giants, Cameliard. Pure lavender with white bee.

W2667 Pacific Giants, Summer Skies. Clear light blue white bee.

W2668 Pacific Giants, King Arthur. Dark violet with white bee.

ANY ONE OF ABOVE COLORS: Lg. Pkt. 85c; 1/8 Oz. \$2.00; 1/4 Oz. \$3.50; Oz. \$12.00.

W2665 PACIFIC HYBRIDS MIXED COLORS: Lg. Pkt. 75c; 1/8 Oz. \$1.85; 1/4 Oz. \$3.25; Oz. \$11.00.

W2641 HARRIS' MONARCH STRAIN. Our own selection of outstanding material from the best strains on the market. Grown under northern conditions and requires no coddling.

Lg. Pkt. 40c; 1/8 Oz. 75c; 1/4 Oz. \$1.25; Oz. \$4.00.

W2645 BELLADONNA. The standard light blue for florists.
Lg. Pkt. 20c; 1/4 Oz. 60c; Oz. \$2.00

LUPINS

W3335 NEW RUSSELL, Harris' Supreme Mixture. We have been making selections from the originator's stock to get increased vigor and the finest possible colors. Pink, rose, buff, bronze, rust red and blues are in our mixture
Lg. Pkt. 30c; 1/4 Oz. 55c; Oz. \$2.00.

SPRAYS AND DUSTS

CHLORDANE

Dust or Spray—6% Chlordane. New insecticide for corn seed maggots, grasshoppers, Japanese beetles, ants and many others.

1 lb. (makes 12 gal. solution)	\$.60 postpaid
4 lb. (makes 50 gal. solution)	1.65 postpaid

DDT SPRAY—50% DDT

The best form of DDT for agricultural purposes. Simply mix with water for spraying. Excellent for potatoes, cabbage, onions and many other crops. Very powerful and lasts longer than other insecticides.

1 lb. (makes 50 to 100 gal. solution)	\$.70 postpaid
4 lbs.	1.90 postpaid

NICO-FUME

Effective, convenient nicotine fumigant for greenhouses. $\frac{1}{2}$ lb. completely fumigates up to 15,000 cu. ft.

6 $\frac{1}{2}$ -lb. cans	\$ 2.50 postpaid
6 1-lb. cans	4.25 postpaid
1 doz. $\frac{1}{2}$ -lb. cans	4.85 postpaid
1 doz. 1-lb. cans	8.25 postpaid

CALOGREEN

Calomel in suspension form that makes it far easier to handle. The standard control for root maggots and club root on cabbage, cauliflower, etc.

1 lb. (makes 50 to 100 gals. solution)	\$ 2.95 postpaid
--	------------------

CORROSIVE SUBLIMATE

Bichloride of Mercury. Used for treating seed potatoes for scab and rhizoctonia, lawns for brown patch, gladiolus for thrips, and on cabbage and cauliflower plants for maggots.

1/4 lb. (makes 30 to 50 gal. solution)	\$.95 postpaid
1 lb. (makes 120 to 200 gal. solution)	2.75 postpaid

SEED TREATMENTS

ARASAN

The best and most effective treatment for nearly all vegetable seeds. Especially recommended for beets, spinach, corn, vine crop seeds, peppers, and many others. Disinfects and protects the seed against organisms which cause rot, reduces damping off, improves stands. Recommended. (Replaces Semesan Jr.).

3/4 oz. 25c; 8 oz. \$1.00.

SEMESAN

For Many Vegetable and Flower Seeds. Useful to protect seed from rotting and prevent damping off of seedlings. Use as a dry dust disinfectant for seeds and also a liquid for treating soils.

1/3 Oz. 20c; 2 Oz. 60c; 12 Oz. \$2.40; 4 Lbs. \$11.00.

CERESAN M

For Wheat, Oats and all Grain. Effective dust or slurry treatment for control of smut on wheat, oats and barley. $\frac{1}{2}$ oz. treat 1 Bu. of seed.

14 Oz. can \$1.15.

CERESAN New Improved. (Dust only)

4 Lbs. \$3.40.

SEMESAN BEL

For Seed Potatoes. One pound treats 50 to 60 bu. of cut potatoes. For control of rhizoctonia and seed-born scab.

2 Oz. 50c; 1 Lb. \$2.00; 4 Lbs. \$6.35.

SPERGON

For Lima Beans, Peas, etc. Protects seed against decay, improves stands and promotes healthy crops. Highly recommended for lima beans and excellent for peas. Treated seed may be sown without graphite. 2 oz. treats 1 Bu. of seed.

1 Oz. 25c; 5 Oz. \$1.00; 1 Lb. \$2.40. Postpaid.

CROW REPELLENT

If you are troubled with crows and other birds pulling up your seed corn, treat it with STANLEY'S CROW REPELLENT. Will not harm seed or clog planter.

1/2 pint (enough for 1 Bu.) \$.60 postpaid

Pint (enough for 2 Bu.) 1.00 postpaid

Quart (enough for 4 Bu.) 1.75 postpaid

ROtenone DUST (.75%)

Non-poisonous insecticide of great value to growers. Use on beans for bean beetles, cabbage and cauliflower for worms and on vine crops for all insects.

1 lb.	\$.50 postpaid
4 lbs.	1.25 postpaid
50 lbs.	6.75 not prepaid

COPPER-ROtenone DUST

The ideal combined insecticide and fungicide dust. The copper controls blights and diseases and the rotenone kills nearly all harmful insects. Especially recommended for all vine crops.

1 lb.	\$.70 postpaid
4 lbs.	2.00 postpaid
50 lbs.	8.75 not prepaid

COPPER SPRAY (COCS)

For control of tomato blight and cucumber and melon diseases. Safer and easier to use than Bordeaux.

1 lb. (makes 16 gal. spray)	\$.90 postpaid
3 lb. (makes 48 gal. spray)	2.25 postpaid

ZERLATE

Excellent fungicide spray for vegetable plants in greenhouses, and on vine crops all season. Used as alternate spray with COCS on tomatoes. Controls fruit and leaf spot disease and anthracnose.

3 lbs. (makes up to 200 gals.)	\$ 2.50 postpaid
--	------------------

SURE-SET—HORMONE SPRAY

For earlier tomatoes. Hormone spray makes blossoms set in cool weather, gives greatly increased early yields.

4 oz. (one application for $\frac{1}{2}$ acre)	\$.85 postpaid
(2 or 3 applications recommended)	

2,4-D WEED KILLER

83% Sodium salt. Kills broadleaved weeds in fields, pastures and lawns. Proving useful for grain, and also for corn if properly used.

1 lb. (treats one half to one acre)	\$ 1.95 postpaid
---	------------------

"OPEN-HED" SPRAYERS

These 4 gallon galvanized sprayers are sturdy and well made and we recommend them highly.

The seams are all electrically welded, and the sprayers are galvanized after the welding which prevents rusting and cracking along the seams. Equipped with double acting pump lock and double grip pump handle. Opening 5 in. in diameter for easy filling and cleaning.

4 gal. Open-Hed... \$11.75

Transportation charges pre-paid in the U. S. east of the Mississippi River and north of Tennessee.

For hand sprayers and dusters see retail catalog.

Note: Purchaser pays transportation on Hotkaps, Hotents, Super Hotents, Fertile Pots, and Plant Bands, except where quoted "postpaid." Please be sure to tell us how to ship, by mail, express, freight, or truck. If by mail, include postage at zone rate. (Super Hotents cannot be sent by mail.) If by express or freight, *please indicate your nearest office.*

"FERTILE" POTS

These famous manure pots assure a steady, even growth of plants, as they feed on the pot as they grow. Plants raised in them can be set out in the field, pots and all, without any check in growth. The pot disintegrates and furnishes just the right plant food for best growth. These pots save time and labor, and actually produce earlier fruit and better yields of early cabbage, egg plant, peppers, tomatoes, melons, etc.

These pots are carefully packed in strong divided cartons to prevent breakage.

No. 2½ (about 2½" outside diameter):

Carton of 60.....	\$1.70 postpaid
Carton of 250 (wt. about 18 lbs.)	\$3.75 NOT prepaid
1000 or more.....	\$13.75 per M NOT prepaid

No. 3 (about 3" outside diameter):

Carton of 60.....	\$1.95 postpaid
Carton of 250 (wt. about 25 lbs.)	\$4.35 NOT prepaid
1000 or more.....	\$15.85 per M NOT prepaid

PLANT BANDS

Bird Vita-Band 10

These low-cost fibre bands are ideal for growing vegetable plants and annual flowers for 8 to 10 weeks. Treated with nutrients inside for well-balanced vigorous growth with larger root systems. Save space and growing time and eliminate transplanting shock. Results in the field are remarkable, even when band is left on.
